BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, APRIL 27, 1887, AMENDED AND APPROVED BY THE SUPERIOR COURT, MAY SITTING, 1891.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon; and after the election of a moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot; all said officers to be voted for on one ballot. At any time after two P.M. a vote may be passed to close the polls in not less than ten minutes; after the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

After the declaration of the vote for town officers, eight legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the repairs on highways, shall constitute a committee to consider the various articles in the warrant for the town meeting of the ensuing year, and who shall report in print before the annual meeting their estimates and recommendations for the action of the town.

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, or unless ordered by two-thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of January.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the taxpayers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding financial year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money which will be required for the current financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abate-

ments, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all

unexpended balances of such grants shall be stated in the selectmen's annual report.

XIV. No orders shall be drawn on the treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall the amount of orders drawn against any special appropriation exceed the same.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the powers and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal or any cart or wagon to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same

within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highways, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish, or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine to run at large in the town, or to feed in any highway or street, either with or without a keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams street between Churchill's lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, handcart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade or march, or congregate in any of the streets or public places of the town except in connection with

a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group or near to each other on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot-passengers after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain upon any door-step, portico, or other projection from any house or building or upon any wall or fence on or near any highway, street, or public place after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix by paste or otherwise any handbill, placard, notice, or advertisement, or paint, draw, or stamp the same or any marks or figures to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree, or structure in the town, without the permission of the owner of such building, fence, wall, tree, or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws:

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed

annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a

square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper, and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery:

1. All persons are prohibited from driving upon the borders.

2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.

3. All persons are prohibited from discharging fire-arms within the grounds of the cemetery, except in case of military funerals.

4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.

5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.

6. Dogs are not allowed within the cemetery grounds.

GENERAL PROVISIONS.

XLVI. The penalty for any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws, all By-Laws heretofore passed shall be annulled and repealed.

AUDITORS' REPORT.

The undersigned herewith present the Fifty-fifth Annual Report of the Town of Milton. They have examined the accounts and vouchers of the various departments, and believe them to be correct. The almshouse has been inspected, and found to be well and carefully managed.

JOHN P. S. CHURCHILL,
J. FRANK POPE,
Auditors.

MILTON TOWN RECORDS

FOR THE MUNICIPAL YEAR 1891-92.

SPECIAL MEETING, FEBRUARY 12, 1891.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. To either of the Constables of the Town of Milton. Greeting:

In the name of the Commonwealth of Massachusetts, you are required to notify and warn the inhabitants of the Town of Milton, qualified to vote in elections, to meet at the Town Hall in Milton, on Thursday, the twelfth day of February next, at seven o'clock in the afternoon, then and there to vote upon the following articles:

First, To choose a moderator.

Second, To see if the town will vote to accept "An Act authorizing towns and cities to lay out Public Parks within their limits," being Chapter 154 of the Acts of 1882.

Third, To see if the town will vote to accept the provisions of Chapter 386 of the Acts of 1890, relating to the use in town election of the "Australian Ballot System," so called, and making such changes in the By-Laws of the town as may be necessary.

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place, and for the purposes therein mentioned, by posting copies of this warrant in the post-offices of said town, and distributing printed copies at the dwelling-houses seven days before the time set for said meeting.

Hereof fail not, and make due return of this Warrant with

your doings thereon to the Town Clerk at or before the time of said meeting.

Given under our hands at Milton, this 30th day of January, A.D. 1891.

J. WALTER BRADLEE,
T. EDWIN RUGGLES,
J. ALBERT SIMPSON,
Selectmen of Milton.

NORFOLK, ss. Feb. 5, 1891.

By virtue of this Warrant, I have notified and warned the inhabitants of the Town of Milton, qualified as therein expressed, to meet at the time and place, and for the purposes named, by posting up copies in the post-offices of the town, and by distributing printed copies at the dwelling-houses as required.

BENJ. R. SLOAN,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing Warrant upon

FEBRUARY 12, 1891,

the following proceedings were had upon the several articles in said warrant, namely:

ARTICLE 1. Hon. Edward L. Pierce was chosen Moderator.

ART. 2. *Voted*, To accept the Act authorizing towns and cities to lay out Public Parks within their limits, being Chapter 154 of the Acts of 1882, the vote being as follows: Yes, 57; No, 26.

Voted, That the terms of office of the members of the Board of Park Commissioners shall be as follows:

At the annual meeting in March, 1891, there shall be elected, by ballot, one of said Commissioners for the term of one year, one for the term of two years, and one for the term

of three years; and at the expiration of every such term, and so on thereafter at each annual meeting, the town shall elect by ballot one Park Commissioner to serve for three years.

ART. 3. *Voted*, To indefinitely postpone.

Voted, To dissolve the meeting.

A true record.

Attest: HENRY B. MARTIN,
Town Clerk.

At the foregoing meeting the check-list was used in balloting for a Moderator, and also in taking the ballot upon the "Act authorizing towns and cities to lay out Public Parks within their limits," said ballots prepared by the Town Clerk, and printed, being as follows: "Shall an act passed by the Legislature of the Commonwealth in the year eighteen hundred and eighty-two, entitled An Act authorizing towns and cities to lay out public parks within their limits, be accepted?" "Yes." "No."

All the ballots cast at said meeting were assorted, counted, and public declaration thereof made in open town meeting, as by law required.

Attest: HENRY B. MARTIN,
Town Clerk.

MARCH MEETING.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

SELECTMEN'S REPORT.

The Selectmen of Milton submit to the Town the following report of their management, during the year just passed, of the duties intrusted to them:

Highways. — Mr. W. W. Wheelock was reappointed as Superintendent of Streets. With feelings of pleasure we point to the work done, not only in line of permanent improvement, but also in keeping our streets in a reasonably safe and comfortable condition. We have endeavored to consider the highway business, not as a sectional matter, but always with a view to the best interests of the town as a whole.

We have not kept, and cannot present, a detailed statement of the actual amounts expended on roads in the different parts of the town.

Sections of macadamized roads have been built, requiring a force of men to be employed in getting out large quantities of stone for the crusher. It was found necessary to overhaul and thoroughly repair the crusher, which we have had done at an expense of about $750.

Sidewalks have been constructed in several sections of the town, a plank-walk built on Randolph avenue, from School street to Adams street, a brick walk at the Lower Mills, with street crossings of flag-stone.

Eight culverts have been rebuilt and enlarged, substituting granite for cobble-stones, so that they can be easily cleaned out and kept free. By so doing, three of our worst malarial places in the town have been thoroughly and completely drained.

A concrete gutter has been constructed the entire length of Hayward's hill, and the road-bed regraded in a permanent manner.

Granite and Central avenue bridges have been repaired.

Mattapan street has been completed at an expense in excess of the appropriation. It was deemed advisable to complete the work this year, as material could be obtained at this time that would largely increase the cost at any other time.

Robbins street has been put in thorough and complete repair by underground drains and stoning where needed.

Our two sprinkling carts have been employed a large portion of the time in the construction of roads and sprinkling those already made, stand-pipes having been erected in the various sections to supply the water.

It has been found necessary to make repairs on all the streets along which the water-pipes have been laid, necessitating a heavy expenditure of money therefor.

In accordance with Chapter 53 of the Public Statutes, which provides that every town shall erect and maintain guide-posts, and that the selectmen of each town shall submit to the inhabitants at every annual meeting a report thereof, we report that the town has complied thereto by maintaining at all places at which, in our opinion, they ought to be erected and maintained.

Poor. — Mr. and Mrs. Wheelock, as superintendent and matron of the almshouse and farm, are continuing the good work of past years. Seven inmates have been provided for, and everything about the institution has been kept in a neat and orderly manner. The farm has been kept in a high state of cultivation, yielding bountiful crops, as the outbuildings show. Milk has been made and sold to the amount of $609.

Milton is caring for seven inmates of insane asylums, and two inmates of the School for Feeble-Minded.

Sewer. — In accordance with a vote of the town, a sewer has been constructed upon Adams street at an expense of about $3,500. Assessments were levied under the provisions of the Public Statutes to the amount of $2,500.

Street Lighting. — The electric-light system has been introduced during the year. This modern and superior system of illuminating the highways affords additional security to travel,

and in some measure enhances the attractiveness of our roads. We are therefore convinced that no branch of the public service is more appreciated by our citizens.

It is a source of gratification to be able to announce that no one holds any of the town's paper, the last note having been called in and paid. This state of affairs has been accomplished by a wise and judicious assessment on a relatively low valuation at a tax-rate of $8 per thousand.

We avail ourselves of this opportunity to convey to the citizens of Milton expressions of profound appreciation of the high honor conferred upon us. We have ever been justly sensible of the grave and important responsibility resting upon us, and in the discharge of the varied and frequently delicate duties of the office it has been our sincere desire to faithfully serve Milton and her citizens to the best of our ability without distinction as to race, class, or section.

J. WALTER BRADLEE,
T. EDWIN RUGGLES,
J. ALBERT SIMPSON,
Selectmen of Milton.

Property.

The property of the department consists of one horse, one democrat wagon, one single harness, one sleigh, blankets and robe, all in good condition.

Crime.

The town has been remarkably free from burglars and house-breakers the past season, while nearly all the towns and cities of eastern Massachusetts have suffered more or less severely. This may be attributed to the special precaution taken the past season, and through the efforts of the officers and many good citizens who have taken an interest in the Police Department.

Police Telephone.

The police telephone system is almost worthless since the introduction of the electric lights in town. The Telephone Company have been repeatedly requested to look after the wires and boxes, but have failed to do so. Your superintendent would recommend something done in the matter at once, for as at present it is a useless expense.

Discipline, Conduct of the Force, etc.

The general conduct and discipline of the force has been good the past year. Two officers were dismissed from the force, and two others were appointed to fill their places. The many calls made on the force for extra work during the summer months have been promptly and cheerfully complied with. The overflow of the idle and vicious from the large city on our borders, especially Sundays, is a source of great annoyance to many of our citizens, and taxes our utmost energies during the summer and autumn months.

Your superintendent recommends for your consideration a police route, during the daytime, from the Boston line at Lower Mills, to the Quincy line at East Milton. This is very much needed, as your superintendent cannot be at the station-house at all times, and attend to his other duties, being often called away to other parts of the town, leaving the office with no one in charge. The officer on such a route could be found at short notice if one was wanted by any citizen, or if assistance was wanted at the station-house.

The police headquarters were removed from the engine-house, at the centre of the town, to the lock-up building at Lower Mills, June 6, 1891. It has been a good move for the department, leaving it separate and alone, as a police department should be.

Station-house.

Your superintendent recommends the placing of iron doors on the cells, instead of the wooden ones now in use. The doors, as they now are, when closed on a prisoner, make it almost solitary confinement, and in the winter season the cells cannot be warmed, while in the summer the cells are like sweat-boxes, and a prisoner cannot be seen without opening the door, thus making it dangerous for the officer in charge, if he happened to have a vicious prisoner. The cells should be so the officer in charge could see into them at all times.

Your superintendent is under obligations to many citizens for valuable assistance rendered.

The thanks of the department are due to the Board of Selectmen for their kind consideration and strong support throughout the year.

Location of Police Boxes.

1 — Lower Mills, corner Eliot and Adams streets.
2 — Mattapan, junction Brush Hill road and Blue Hill ave.
3 — Corner Randolph avenue and Centre street.
4 — Canton avenue, near Blue Hill Market.
5 — Brush Hill road, corner Robbins street.
6 — Junction of Milton street and Brush Hill road.
7 — Canton avenue and Brush Hill road.
8 — Corner Randolph avenue and Pleasant street.
9 — Central avenue, corner Eliot street.
10 — Union square.
11 — Near East Milton depot.

12 — Hillside street, corner Harland street.
13 — Adams street, near J. M. Forbes avenue.

Respectfully submitted,

MAURICE PIERCE,
Superintendent of Police.

ENGINEERS' REPORT.

MILTON, Jan. 1, 1892.

To the Honorable Board of Selectmen :

GENTLEMEN : The Board of Engineers herewith presents its annual report upon the condition of the Fire Department.

It is with pleasure we are able to report that the Fire Department is in a stronger condition than ever before. It has been called upon to cope with more serious fires than in any former year, and we desire to thank the members of the de-

partment for the prompt and willing manner in which they have in all cases discharged their arduous and at times dangerous duties.

A new code of rules was adopted on the 1st of May last, which has given general satisfaction.

The new ladder truck was put into commission October 1, and has proved itself a great addition to the department.

The following increase has been made in the pay of the call members of the department:

Chief Engineer, from $75 to $100 a year.

Foremen of Hose 1, Ladder 1, and Chemical 1, from $20 to $45 a year.

Call-men of Hose 1, Ladder 1, and Chemical 1, from $20 to $35 a year.

Foremen of Hose 2, 90's Hose, and Hose 4, from $20 to $30 a year.

The pay of the other members of the department remains the same.

Four times during the year apparatus from the Boston Department has responded to alarms of fire in Milton, and the aid from this quarter rendered at the fire on the morning of December 14 was most valuable.

Once during the year Milton apparatus went to Engine 16's house in Dorchester to do covering duty.

A gong connected with the Boston fire-alarm system has been put into our central fire station to give the Boston alarms to the Milton department, that it may know when and where its assistance is wanted by the Boston department.

We desire to call attention to the increase in number of brush or forest fires. While some of these fires are due to carelessness or accident, there is no doubt but the greater part of them are set intentionally. If one or two parties guilty of this mischief could be caught and prosecuted, it would have a most salutary effect.

Citizens would confer a great favor to the department if they would send word by telephone either to fire or police

headquarters when these brush fires are discovered and aid seems necessary, rather than give an alarm from a fire-alarm box.

Executive Officers.

The executive organization of the department consists of a chief and two assistant engineers, making a board of three instead of a board of five, as heretofore. This change meets with general approval.

Permanent Force.

The permanent force of the department consists of a superintendent of the fire-alarm system, who also has charge of the police telephone system, one engineer of steamer, one driver of steamer, one driver of hose wagon, one driver of ladder truck, and one driver of chemical engine.

Call Force.

The call force consists of forty-seven members, distributed as follows:

Engine and Hose 1	12 men.
Hose 2	6 "
Ninety's Hose	6 "
Hose 4	6 "
Hook and Ladder 1	12 "
Chemical Engine	5 "

Apparatus.

The apparatus in service consists of one steam fire-engine, one chemical engine, one hook and ladder truck, two hose wagons, two hose reels, one hose pung, one supply wagon, a wagon and sleigh for the Fire-Alarm Department.

The apparatus not in service consists of one hand engine, one hook and ladder truck, and one hose reel. The new hose wagon for East Milton is almost done, and will soon be put into commission.

Horses.

There are eight horses employed in the department, all of which are in good condition.

Hose.

The hose in the department service consists of 4,100 feet, as follows: 3,400 feet of cotton rubber-lined hose in good order, 100 feet of same in bad order, 600 feet of cotton, not lined, in fair order. Although 1,500 feet of new hose was bought this last year, the supply is still inadequate.

After a fire, all the hose that has been used has to be washed and dried, and a week is the least time it can be properly dried in, so that it is necessary to have a sufficient amount of dry hose always ready to replace the hose that has been wet.

When all the hose companies are carrying their regular amounts of hose, there will be but eight hundred and fifty feet of extra hose. In case of a large amount being wet, Hose 1 has to be supplied with hose from the other companies, although they may be left without any, as happened last year, two of the hose companies being without hose for several days.

We advise the purchase of 1,500 feet new hose this year.

Buildings.

An addition to the central fire station has been built to keep the new ladder truck in. It was absolutely necessary to have a cellar under this addition, and for that reason its cost exceeded the appropriation. Ninety's hose house has been reshingled. The new hose house at East Milton is fast nearing completion. All the buildings in the department are in good repair, with the exception of the old engine-house at East Milton.

Fire-alarm Department.

The efficiency of this branch of the service has been greatly strengthened during the year. There have been twenty-six alarms of fire, as follows:

Seventeen bell alarms, seven telephone alarms, and two still alarms.

Fifteen boxes have had the non-interference pull added to them during the year, so that all the boxes now have non-interference pulls. This contrivance prevents an excited person from mixing up an alarm while it is ringing.

Three new boxes have been added to the system, as follows:

Box 16, Blue Hill ave., near Tucker st.

Box 46, Central ave., near the ice-houses.

Box 63, Adams st., opposite Col. Forbes' ave.

These boxes are of a new style, known as the non-interference box. They have a great advantage over the old style of box, as they can be placed as near together as may be wished without danger of an alarm being mixed up, due to two or more boxes being rung in for the same fire.

The system at present consists of thirty-seven miles of overhead wire in three circuits; a 4-circuit repeater, twenty-nine signal boxes, two tower bell-strikers, one steam whistle, one 18-inch, one 8-inch, seven 6-inch gongs, with a battery power of one hundred and forty jars. Several small gongs working on an open circuit by a relay from the main fire-alarm system have been put into a number of the firemen's houses, but they do not as yet give perfect satisfaction; but when certain changes are made, they will work all right. An 8-inch gong has been bought for the East Milton hose house.

For the maintenance and current expenses of the department for the ensuing year, the Board would recommend an appropriation of . .	$10,000 00
For new hose	900 00

Respectfully submitted,

R. L. CHAPMAN, *Chief.*
GEO. F. CHOATE, *Clerk.*

MILTON FIRE-ALARM TELEGRAPH.

Special Notice.

The fact that an alarm-box is located near their residence, and where the key is kept, should be known to all persons; also the simple manner of giving an alarm in case of fire. The Board of Engineers recommend to all persons who may see this notice, that they make the necessary inquiries to enable them, in case of need, either to get the key and give an alarm, or to direct others to do so. *Time* saved in this way may sometimes prevent a conflagration.

In case of fire follow these

Directions.

Go to the nearest box to the fire.

A sign over each box gives location of keys.

Open the box — pull the lever or hook all the way down *once* and let go.

After giving the alarm remain a while, *if possible*, by the box, so as to direct the firemen to the fire.

Second alarms will be given only by one of the engineers.

Caution to Persons holding Station Keys.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the engineers at once.

Location of Fire-alarm Boxes.

REPORT OF TRUSTEES OF MILTON CEMETERY.

The Trustees of Milton Cemetery herewith present their annual report.

The work of getting out stone from the swamp for finishing Brook avenue was continued during the favorable weather of the winter of 1891, and the avenue was graded up and opened for travel on Decoration day.

To secure material for filling purposes, a portion of Centennial avenue has been lowered for about twelve rods in length, thus greatly improving the grade of the avenue.

The plot of land of the new purchase on the east side of Centennial avenue, commencing at Centre street, and extending back over a tract of about two acres, has been resurveyed and laid out in lots and ornamental plots, according to the plan.

Over this, hardy plants and shrubs have been set and trees of various kinds in the proper places, for permanent growth.

A portion of this section lying between Acacia path and Centennial avenue, including two lines of lots and a large ornamental plot, has been trenched and partially made ready for eighteen lots.

The land between Anemone avenue and Acacia path has been brought up to the established grade, requiring twelve hundred loads of filling.

Anemone avenue, laid out as a path, and now widened to sixteen feet and encircling the hill back of the receiving-tomb, has been built during the season. This being a side avenue

and through a porous soil, instead of the usual bottom course of stone, very coarse gravel was used for the bottom layer with a finer grade on top, thus making a first-class gravel road three hundred and sixty feet in length.

The avenue around the pond has been gravelled through its entire length, about a third of a mile, requiring for this and for other tracts six hundred and sixty-six loads of gravel from outside the cemetery, beside that obtained within the grounds.

The land between Willow avenue and Hazel path has been trenched and filled to grade, thus adding a number of lots to that section.

As the land here is retentive of moisture, having a bottom of hard pan, a trench, to the depth of five feet below grade, was dug through Hazel path three hundred and fifty feet long, and a four-inch pipe was laid in the bottom with a foot of loose stone above it; this was covered with litter and filled with gravel. Thus it is hoped to protect the graves in this section from the inflow of water, which has always caused great trouble.

The land between Centennial avenue and Daisy path has been trenched and cleared of stones and roots, preparatory to grading in the spring.

Pansy avenue has been widened, a much-needed improvement, and the front lots graded and sodded.

In various parts of the cemetery paved gutters have been made.

The general care of avenues, paths, and lots, ornamental sections, trees, myrtle, and flower beds has occupied much time, and more help has been required owing to the reduction of the hours of labor per day.

One family tomb has been disposed of.

Twelve new lots have been taken up and three old lots have been put in order during the season.

The trustees recommend an appropriation of $3,000 for the ensuing year.

Respectfully submitted,

A. K. TEELE,

For the Trustees.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

On March 19, by the death of the Rev. Frederick Frothingham, the town lost an upright citizen and the Public Library a trustee who had faithfully and conscientiously attended to the duties of his position since 1878, when he was first elected a trustee of the Public Library for a term of three years. He had since been reëlected for four terms of three years; the last time in 1890, for the term ending in March, 1893; so that at the annual town meeting, besides the usual election of three trustees to serve for three years, there also exists a vacancy to be filled for a term of one year.

In the last report of the trustees, mention was made of a provision in the will of the late J. Huntington Wolcott, of this town, by which, in the event of certain improbable contingencies, the Public Library would become a beneficiary under his will. This matter had been lost sight of till it was brought to notice again in September, though in a different form, when Mr. Roger Wolcott requested the acceptance by the Milton Public Library of $1,000, as given in his father's name, the

income only to be expended in the purchase of books of permanent value and interest, for the library. The trustees voted, "to accept this gift, and that it shall be known as the J. Huntington Wolcott fund."

No other events of importance or general interest occurred in the affairs of the library till the morning of December 14, when fire was discovered in the upper part of the Associates' Building, and the books were in imminent danger of being destroyed by water, if not by fire. The fire, however, burned towards the opposite end of the building from that in which the library rooms are, and the books were soon removed to a place of safety under Mr. Chapman's piazza on the other side of the street. Except for some torn and dirty covers, a few broken bindings, and an occasional soiled page, the books from the shelves behind the desk escaped without material damage. Some books in the corner of the reading-room, mostly books of reference, were wet; and, though they were thoroughly dried soon after, show undoubted marks of their wetting, and always will. As the ground beneath a piazza is scarcely the place that would be selected from choice in which to keep books for any length of time, they were soon moved, some into Mr. Chapman's house, and some into a room back of Mr. Hobbs' store. The library rooms were uninjured by fire, and though very wet, were soon dried. They have since been entirely renovated, and have a look of freshness that has not been seen in them for some time past. About one thousand books have had their paper covers that were damaged replaced by new ones. The painting given by the late Henry P. Kidder had two small holes broken in it in moving, but the injury to it is slight. It was insured for $1,000. The books and furniture were insured for $7,000; so that the trifling losses that occurred are fully provided for, and will doubtless be satisfactorily settled. To carry this report beyond the end of the calendar year, and close this episode in the history of the library, all books except thirty-five, that were mislaid during the confusion, or removed by spectators as mementoes

of the fire, were replaced on the shelves, and the library was again opened to the public and in working order on January 20 of the present year.

There has been no change from previous years in the manner of conducting the library. There have been 281 volumes added, the bulletin of which is in preparation. These books were all paid for from the income of the funds in the hands of the trustees. The total number of volumes in the library is now 10,630, less 35 missing. The same periodicals have been subscribed to as were enumerated in the last report, with the exception of "daily papers," which were there enumerated through an error. The town appropriation has been applied only to the expenses of the library, and the East Milton reading-room, other than the purchase of books.

The librarian's record shows 9,538 volumes to have been taken from the library during the year, of which 1,650 were sent to East Milton. Taking these figures as a basis, if the average of the rest of the year had been maintained during the last fifteen working days of the year when the library was closed, the total number of volumes taken would have been 10,031, of which 1,735 would have been sent to East Milton. These figures show a large falling off in the number of books taken from the library when compared with the figures given in the reports of previous years; but there are reasons for supposing that this change is apparent rather than actual, and due to clerical errors in previous figures, perhaps, too, in the record from which the present ones are made up, rather than to any diminished interest in the library. There have been 617 cards in use, compared with 597 the previous year.

At East Milton electric lights have been placed in the reading-room, to its decided improvement. There have been 94 cards outstanding from the reading-room against 75 the previous year, and these cards have been used to borrow for home use over 1,000 volumes of back numbers of bound periodicals, etc., from the reading-room. The same periodicals have been subscribed to as previously, except that "The

Ladies' Home Journal" has replaced "Dress," and the "American Art Journal" has been added.

For financial detail, reference is made to the accompanying report of the treasurer, an examination of which will show that expenses have been kept well within the appropriation.

Respectfully submitted for the Trustees,

JOSEPH C. WHITNEY.

The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after two P.M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the School Committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee.

And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall, within two weeks after their appointment, meet at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld, when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption

of such vote, or unless ordered by two-thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of January.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the taxpayers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding financial year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the current financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the

first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appro-

priations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the powers and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal, or any cart or wagon to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highways, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish, or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine to run at large in the town, or to feed in any highway or street, either with or without a keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams street, between Churchill's lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's car-

riages drawn by hand), or coast upon a sled or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march, or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot-passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain upon any door-step, portico, or other projection from any house or building or upon any wall or fence on or near any highway, street, or public place after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix by paste or otherwise any handbill, placard, notice, or advertisement, or paint, draw, or stamp the same, or any marks or figures to or upon any signboards of the town, or to or upon any building, fence, wall, tree, or structure in the town, without the permission of the owner of such building, fence, wall, tree, or struct-

ure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such hand-bill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws:

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be so con-

strued as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the

duty of said trustees for the time being to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper, and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery :

1. All persons are prohibited from driving upon the borders.

2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.

3. All persons are prohibited from discharging fire-arms within the grounds of the cemetery, except in case of military funerals.

4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.

5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.

6. Dogs are not allowed within the cemetery grounds.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

AUDITORS' REPORT.

The undersigned herewith present the Fifty-sixth Annual Report of the Town of Milton. They have examined the accounts and vouchers of the various departments, and believe them to be correct. The almshouse has been inspected, and found to be well and carefully managed.

officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special, and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special."

Art. 38. To see if the town will add to its By-Laws by inserting under the head of Financial Regulations the following, in substance: "To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the 'Contingent Fund.' No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly and honor drafts against the funds so transferred as if originally appropriated."

Art. 39. To see if the town will amend the By-Laws by striking out Article 18 of the present By-Laws and substituting: "At the annual meeting in 1893, and at each succeeding annual meeting, there shall be one auditor elected by ballot. His annual salary shall be such sum as the town shall vote at the annual meeting in 1892, and shall so remain till otherwise voted by the town at an annual meeting, after notice has been given in the warrant of such meeting of the proposed change.

"The auditor shall keep accounts in books that shall be the property of the town, and in his annual report shall furnish a statement of all assets applicable to expenses that have accrued to the town during the year as income, offset

by the expenses and liabilities of the town to which they have been applied. He shall as often as once a month make examination of the books and accounts of all town officers intrusted with the receipt, custody, and expenditure of money, and of all original bills and vouchers on which money may be paid from the treasury. No bill against the treasury shall be paid until it has been submitted to the auditor and approved by him, and with each bill shall be submitted to him a statement in writing of the appropriation that it is drawn against, or of the legal liability of the town to pay the same.

"He shall examine all bills against the treasury; and when he has approved any bill he shall so certify in writing upon its face, and he shall certify in like manner that it does not exceed the appropriation against which it is drawn. The treasurer shall pay no bill against the town until the auditor has certified his approval of it in writing upon its face, and has also certified in like manner that it does not exceed the appropriation against which it is drawn."

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes therein mentioned, by posting copies of this warrant in the post-offices of said town, fourteen days at least before the time set for said meeting, and distributing printed copies at the dwelling-houses in the town.

Hereof fail not, and make due return of this warrant with your doings thereon to the town clerk, at the time and place of said meeting aforesaid.

Given under our hands at Milton, this eleventh day of February, A.D. 1892.

J. WALTER BRADLEE,
T. EDWIN RUGGLES,
J. ALBERT SIMPSON,

Art. 19. *Voted*, That the following report of the committee appointed at the last annual meeting upon the subject-matter of relocation of Adams street, at the Lower Mills, be accepted, and the recommendations as therein set forth be adopted by the town.

Report of Committee.

The committee appointed by the town, March 2, 1891, upon the matter of the relocation of Adams street, in Milton Lower Mills, beg leave to report:

That they have carefully examined the questions involved, and have conferred with the Chairman of the County Commissioners, and with citizens of the town interested in the matter.

They find that the County Commissioners will not require the town to cut back the bank to the western line of the street as relocated, which would involve the building of a high retaining-wall, and would leave several houses high above the street at said line.

If the town will build a sidewalk six feet wide, cutting back the bank only so much as to afford space for the same, nothing further will be required by the commissioners, and the necessity of reopening the hearing will be obviated.

The location of the street will remain as ordered by the commissioners, and it will be open to the town to widen the street to the west line, should this ever be found desirable.

The committee recommend that the town proceed to build a sidewalk six feet in width, as shown in the plan submitted herewith, beginning at the north end of land of R. L. Chapman and ending at the corner occupied by Robert Gordon.

A low retaining-wall will be needed in parts of the ground, and some grading will be required.

It is estimated by Mr. Sigourney that the cost will be

about twelve hundred dollars, and the committee recommend that this sum be appropriated for the work.

They further recommend that, so far as practicable, the shade trees included in the space in question be preserved.

Respectfully submitted,

W. H. FORBES,
GEORGE R. R. RIVERS,
R. L. CHAPMAN.

Art. 21. *Voted*, That the Board of Health be a Committee on Vaccination.

Art. 22. *Voted*, That the Collector of Taxes have authority to use the same means in the collection of taxes, which a town treasurer can, when elected collector.

Art. 23. *Voted*, That upon all taxes unpaid after December 1st, interest be charged at the rate of six per cent.

Art. 24. *Voted*, To appropriate the sum of one hundred seventy-five dollars to be expended by Post 102, G.A.R., on Memorial Day.

Art. 25. *Voted*, To indefinitely postpone.

Art. 26. *Voted*, To extend the Fire-Alarm system on Hillside street, the expense of said extension to be paid from general appropriation for Fire Department use.

Art. 27. *Voted*, That the Selectmen have authority to extend the lines of electric lights, but not so as to exceed the appropriation already made for street lighting.

Art. 28. *Voted*, That the question of the advisability of introducing into Milton the modern Police Telegraph system (so called) is hereby referred to the Warrant Committee, with the request that they investigate the merits of the system and report the results with their recommendations in print, on or before Feb. 1, 1893.

Art. 29. *Voted*, That a committee of five be appointed by the Moderator, to be known as the Committee on Drainage. The persons so appointed shall continue members of said committee for three years, unless said committee shall be sooner discharged by the town. Said committee shall have power to fill any vacancies which may happen in its membership.

It shall be the duty of said committee to consider the present and probable future needs of the town in the matter of sewerage and drainage; and within three years to report in writing to the town such effective and economical plans and methods of sewerage and drainage for the town, or any portions or districts thereof, as they may deem advisable to be adopted.

Said committee is authorized to expend a sum not exceeding one thousand dollars, for scientific works and publications, or otherwise, in investigating the matters hereby referred to it.

COMMITTEE APPOINTED.

Dr. H. V. Pierce, Capt. E. D. Wadsworth, Henry E. Sheldon, Joseph E. Hall, E. P. Whitney.

ART. 30. *Voted*, That the sum of one thousand dollars be appropriated to be expended under the direction of the School Committee in the transportation of High-School pupils from such districts of the town as may be thought judicious.

ART. 31. *Voted*, That the Selectmen be empowered to sell the old engine-house and lot at East Milton, by public sale.

ART. 32. *Voted*, To indefinitely postpone.

ART. 33. *Voted*, To indefinitely postpone.

ART. 34. *Voted*, To indefinitely postpone.

ART. 35. *Voted* (see Article 6th).

ART. 36. *Voted*, That Article 2 of the By-Laws of the town be annulled, and that the following be substituted therefor: "Art. 2. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after two P.M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the re-

pairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall within two weeks after their appointment meet at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town, the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

Art. 37. *Voted*, To amend Article 14 of the By-Laws by striking out the present article and inserting in its place the following: "No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special, and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall

not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special."

Art. 38. *Voted*, That the following additional regulation be adopted as a By-Law of the town, to wit:

"To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the 'Contingent Fund.' No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation, on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated."

Art. 39. *Voted*, To amend the By-Laws by striking out Article 18 of the present By-Laws and substituting the following:

"At the annual meeting in 1893, and of each succeeding annual meeting, there shall be one auditor elected by ballot. His annual salary shall be such sum as the town shall vote at the annual meeting in 1892, and shall so remain till otherwise voted by the town at an annual meeting, after notice has been given, in the warrant of such meeting, of the proposed change.

"The auditor shall keep accounts in books that shall be the property of the town, and in his annual report shall furnish a statement of all assets applicable to expenses that have accrued to the town during the year as income, offset by the expenses and liabilities of the town to which they have been applied. He shall as often as once a month make examination of the books and accounts of all town officers intrusted with receipt, custody, and expenditure of money, and of all original bills and vouchers on which money may be paid from the treasury. No bill against the treasury

shall be paid until it has been submitted to the auditor and approved by him; and with each bill shall be submitted to him a statement in writing of the appropriation that it is drawn against, or of the legal liability of the town to pay the same.

"He shall examine all bills against the treasury; and when he has approved any bill he shall so certify in writing upon its face, and he shall certify in like manner that it does not exceed the appropriation against which it is drawn. The treasurer shall pay no bill against the town until the auditor has certified his approval of it in writing upon its face, and has also certified in like manner that it does not exceed the appropriation against which it is drawn."

Voted, That the salary of the Auditor, commencing March, 1893, be placed at the sum of four hundred dollars per annum.

Voted, That the Collector of Taxes receive a salary of eight hundred dollars.

Voted, That the thanks of the meeting be tendered the Hon. Edward L. Pierce, for the able, faithful, and impartial manner shown in the discharge of his duty as Moderator.

Voted, To dissolve the meeting.

A true record.

SPECIAL MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. To any Constable of the Town of Milton, in said county. Greeting:

You are hereby required, in the name of the Commonwealth aforesaid, to notify and warn the inhabitants of said Town of Milton, qualified to vote in town affairs, to assemble at the Town Hall in said town, on Tuesday, the first day of November next, A.D. 1892, at half-past seven o'clock, P.M., and you are directed to serve this Warrant by posting copies in the post-offices of the town fourteen days before said meeting, and by leaving printed copies at the dwelling-houses of said town, to act on the following articles, namely:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the town will vote to appropriate the sum of five thousand (5,000) dollars for the general repairs of its roads, and appropriate the same.

ART. 3. To see if the town will appropriate the sum of two thousand (2,000) dollars for Smith road, in accordance with the decree of the County Commissioners.

ART. 4. To see if the town will vote to purchase a Steam Roller for its roads and appropriate money for the same.

ART. 5. To hear and act upon the report of the Committee on Sewerage, and appropriate five thousand (5,000) dollars for further investigation.

ART. 6. To see if the town will appropriate money for the rebuilding of a portion of the Fire-Alarm System, and appropriate money for the same; also to transfer four hun-

dred (400) dollars, unexpended appropriation hydrant money, to Fire Department.

Art. 7. To see what action the town will take on appointment of a committee to fully investigate the Water Supply of the town, looking to the purchase of the Milton Water Company.

Hereof fail not, but make return of this warrant, with your doings thereon, unto the Town Clerk, on or before said day and time.

Given under our hands and seal of said town at Milton aforesaid, this fourteenth day of October, A.D. 1892.

J. WALTER BRADLEE,
J. ALBERT SIMPSON,
SAMUEL A. MORSE,
Selectmen of Milton.

Norfolk, ss. Oct. 19, 1892.

By virtue hereof I have notified and warned the inhabitants of said Town of Milton, as within directed, by posting copies of this warrant in the several post-offices of the town fourteen days before said meeting, and by leaving copies at the dwelling-houses thereof.

JOHN W. BRADLEE, Jr.,
Constable of Milton.

At a meeting of the inhabitants of the town of Milton, held according to the foregoing warrant upon

November 1, 1892,

the following proceedings were had upon the several articles in said warrant, namely:

Article 1. J. Walter Bradlee, Esq., was chosen Moderator.

Art. 2. *Voted*, That the sum of five thousand dollars be appropriated for the general repairs of Highways.

ART. 3. *Voted*, To indefinitely postpone.

ART. 4. *Voted*, That the advisability of the town buying a Steam Roller for use in building and repairing roads be referred to a committee of three, namely, Amor L. Hollingsworth, Henry E. Sheldon, and Albert A. H. Meredith, with the request that they make a complete investigation and report at the next annual town meeting, with their recommendations, if any.

ART. 5. *Voted*, That the Committee on Sewerage be authorized to employ suitable engineers to make a survey of the town, and expend not above five thousand dollars in the furtherance of said object.

ART. 6. *Voted*, That seven hundred dollars be transferred from the contingent fund by the Warrant Committee, for the purpose of rebuilding a portion of the Fire-Alarm System, and that four hundred dollars, unexpended hydrant money, be transferred to the Fire Department.

ART. 7. *Voted*, That a committee of five be appointed to fully investigate the Water Supply of the town, and report in print thirty days previous to the next March meeting; an appropriation of one hundred dollars being made to defray expenses for printing; the committee to consist of the following persons; viz., Messrs. E. D. Wadsworth, Walter P. Beck, Horatio J. Gilbert, M. Vassar Pierce, and Joseph E. Hall.

Voted, To dissolve the meeting.

Attest: HENRY B. MARTIN,
Town Clerk.

Recount of Votes.

A meeting of the Board of Selectmen of the Town of Milton was held at the Town Hall in said town upon Wednesday, Nov. 16, 1892, at 1 o'clock P.M., upon a petition of ten citizens for a recount of ballots cast at the election of November 8 for Governor, and also for a Councillor for the Second Councillor District; the result of said recount being as follows, to wit:

For Governor.

William H. Haile, of Springfield, four hundred seven votes.

Wolcott Hamlin, of Amherst, two votes.

Squire E. Putney, of Somerville, two votes.

William E. Russell, of Cambridge, three hundred twenty-three votes.

Henry Winn, of Malden, seven votes.

For Councillor.

Charles E. Miles, of Brookline, seven votes.

David Hall Rice, of Brookline, three hundred ninety-eight votes.

William B. Rice, of Quincy, two hundred sixty-six votes.

All of the above votes after being counted were again sealed up and delivered to the Town Clerk.

Attest:

HENRY B. MARTIN,
Town Clerk.

Fourth Norfolk Representative District.

We the undersigned Town Clerks of the towns of Canton and Milton, comprising Representative District Number Four in the County of Norfolk, hereby certify:

That at an election duly held in said towns on the eighth day of November, A.D. 1892, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit:

For Joseph C. Whitney, of Milton, seven hundred eleven votes.

For George R. R. Rivers, of Milton, eight hundred one votes.

Given under our hands at Canton, this eighteenth day of November, A.D. 1892.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

SPECIAL MEETING.

Commonwealth of Massachusetts.

NORFOLK, ss. To either of the Constables of the Town of Milton. Greeting:

The Warrant Committee, after consultation with the various heads of public departments of the town, having represented to the undersigned the desirability of having a special town meeting called, now,

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in town affairs, to meet at the Town Hall, in said Milton, on Thursday, the fifth day of January next, at seven o'clock in the afternoon, then and there to act upon the following articles, to wit:

ARTICLE 1. To choose a Moderator.

ART. 2. To see what action the town will take to provide the necessary funds for the various departments required to carry on the affairs of the town during the months of January and February, 1893, from the close of the fiscal year 1892 up to the regular annual meeting of the town in March, 1893, and to appropriate money for such purposes.

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes therein mentioned, by posting copies of this warrant in the post-offices of said town, fourteen days at least before the time set for said meeting, and distributing printed copies at the dwelling-houses in the town.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk, at the time and place of said meeting aforesaid.

Given under our hands at Milton, this 16th day of December, A.D. 1892.

J. ALBERT SIMPSON,
SAMUEL A. MORSE,
Selectmen of Milton.

NORFOLK, ss. MILTON, Dec. 30, 1892.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Milton, qualified as therein expressed, to meet at the time and place, and for the purposes named, by posting up copies in the post-offices of the town, and by distributing printed copies at the dwelling-houses, as required.

JAMES D. DAVENPORT,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant upon

JANUARY 5, 1893,

the following proceedings were had upon the several articles in said warrant, namely:

ARTICLE 1. Hon. Edward L. Pierce was chosen Moderator.

Upon the Moderator taking the chair, Col. Henry S. Russell arose and asked leave, before proceeding to business, to present the following resolutions, which was granted:

Resolution upon the Death of J. Walter Bradlee.

" *Whereas*, Death in its most shocking form has snatched from active duty one of our selectmen, J. Walter Bradlee, who for many years has been closely connected with the town's affairs in an official capacity; we, his fellow-citizens, in town meeting assembled, fully appreciating the value of his services in the past, would now express to his widow and

family our sincere sympathy in the sudden and terrible blow which has fallen upon them."

The above resolution being read, was adopted by a rising vote.

Art. 2. *Voted*, That the recommendations of the Warrant Committee be adopted, and the sums named by them appropriated for the use of the respective departments during the months of January and February, 1893, to wit:

For the Highway Department	$2,000 00
For the Poor Department, "Inside," $900, "Outside," $1,000	1,900 00
For the Fire Department	2,000 00
For the Police Department	2,000 00
For State aid	200 00
For military aid	50 00
For miscellaneous expenses	200 00
For Town Hall and lot	100 00
For salaries	400 00
For printing	500 00
For the School Department	5,000 00
Total	$14,350 00

It was also voted that the different departments of the town have leave to use any unexpended balances on hand Jan. 1, 1893.

Voted, To dissolve the meeting.

A true record.

Attest: HENRY B. MARTIN,
Town Clerk.

Report of Warrant Committee.

The Warrant Committee submits the following report of its work since its appointment at the last March meeting:

The committee has considered the articles in town warrants, and reported its recommendations in print to the

town; has also held several meetings to consider the needs of and to advise with certain departments of the town.

Of the Contingent Fund of $6,000 placed in charge of this committee, the following transfers have been made:

To Fire Department	$700 00
To Poor "	1,800 00
To widening Adams street account	23 41
To East Milton Hose House account	822 53
To account of State aid	152 00
To " " miscellaneous expense	197 21
To " " " for insurance	408 13
	$4,103 28
Unexpended balance	1,896 72
	$6,000 00

The town at its March meeting referred to this committee the subject of "the advisability of introducing into Milton the Modern Police Telegraph System (so called)," "with the request that they investigate the merits of the system and report the result, with their recommendations, in print."

The committee has made an investigation of this matter, and in view of the defects of the present system, recommend that it is advisable to introduce into the town a Modern Police Telegraph System, in place of the system now in use.

Respectfully submitted,

For the committee,

ARTHUR H. TUCKER,

Secretary.

Milton, Jan. 27, 1893.

The Selectmen of Milton submit to the town the following report of their management during the year just passed, of the duties intrusted to them:

Highways. — Mr. L. S. Nevons was appointed Superintendent of Streets in April. He was formerly in the same position in the city of Lynn. He was recommended by a number of the prominent citizens of that city, and of his work here during the short time employed, the citizens can judge. A detailed statement of the work in the different parts of the town will be found in his report.

A section of macadamized road has been built on Milton Hill. The sidewalk on Adams street has been completed and put in thorough repair, as by a decree of the County Commissioners, which greatly adds to the value and appearance of that section of the town; also a street crossing, which was very much needed, has been put in on Adams street, in front of the Associates' building. Bradlee road has been cut down and regraded.

In accordance with Chapter 53 of the Public Statutes, which provides that every town shall erect and maintain guide posts, and that the selectmen of each town shall submit to the inhabitants at every annual meeting a report thereof, we report that the town has complied thereto by maintaining at all places at which, in our opinion, they ought to be erected and maintained.

Street Lighting. — The electric-light system has been extended during the year on Brush Hill road, Canton avenue, Pleasant street, Russell street, and Central avenue, and extra lights located in various sections of the town where, in our opinion, they were required.

There are at present three hundred and eighty-four lights.

Poor Department. — Mr. and Mrs. Wheelock were reappointed as Superintendent and Matron of the Almshouse and Farm. Ten inmates have been provided for, and everything has been kept in a neat and orderly manner. On account of the crowded condition of the house occupied by the male inmates, we have had to use the health building for three of them.

We would recommend an addition being built to the house

occupied by the men, as in case of an epidemic in the town, the Health Building would have to be vacated for the use of the persons sent there by the Board of Health. The house and outbuildings will have to be repaired and painted during the coming year.

The Farm is credited with $775.98 for milk, and $45.26 for pork sold.

Milton is caring for eight inmates of insane asylums and two inmates of the School for Feeble-Minded.

The Chairman of the Board died Dec. 15, 1892, and we, his associates, wish to bear some public testimony of our respect for him and of the loss the town has sustained in his death.

Since his first election to office the duties of selectmen have increased, but he always honored all town demands as honest drafts on his time. He was indefatigable in his labors, and our personal and official relations with him were alike cordial and pleasant. He was a genial fellow-worker, and we sincerely share in the grief his family and the town feel for his untimely death.

J. ALBERT SIMPSON,
SAMUEL A. MORSE.

ANNUAL REPORT OF THE SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

GENTLEMEN: The Superintendent of Streets herewith submits this the annual report of the Highway Department for the year 1892.

The amount appropriated for this department was $26,000. Receipts from sidewalks, laying out, altering, and other sources, $3,778.06. The expenditures of the year have been $29,717.02, of which there was paid for labor $21,145, approved bills $8,572.02.

		$3,727 21

SIDEWALKS AND STREET CROSSINGS.

There have been 229 feet of new curbstone set, and 178 feet of old curbstone reset, 271⅓ square yards of brick sidewalk laid, also one new crossing, requiring 196 feet of flagstone, the expense of which was $255.71.

PAVING.

The gutter was taken up and relaid on Milton Hill, from Canton avenue to Crossman's stable; also one cross-gutter paved at the head of Russell street on Canton avenue.

BRIDGES.

Mattapan bridge was in such condition as to necessitate a planking, which was done at an expense of $59.79. There has been but slight expense attached to other bridges, some small repairs having been made on Granite bridge, $12.27 being expended.

CULVERTS.

There has been slight expense in this direction, the culvert on Canton avenue having been extended some ten feet, at an expenditure of $44. During the season there has been 375 feet of tile pipe laid on the following streets:

Canton avenue, 122 feet; Brush Hill road, 16 feet; Blue Hill avenue, 36 feet; Milton street, 6 feet; Squantum street, 90 feet; Hillside street, 105 feet.

There was expended during the season for street-sprinkling, $1,968.25; trimming trees, $273; grading around hose-house at East Milton, $160; mowing grass and weeds on roadsides, $52; cutting hay at Town Hall, $22; taking up and relaying walks on Adams street and Canton avenue, $72.38. There was also expended in the month of December for ice and snow, $37.12.

REMARKS.

In giving this the annual report of the Highway Department it will be remembered that the present Superintendent took charge after the season was well advanced, and as I had no account of money spent or work performed on the various streets, I can only, in summing up the work done during the season, give an account from April 11, 1892; and while I am not able to give as good a detailed report as I should at the close of 1893, I will try in a few remarks to show how work has been done, the expenses of different kinds of work, also the material teamed, and will touch on the work that now lies before the department, with estimates of money needful for the future. In doing the work for the present season it has been necessary to team thirty-two thousand eight hundred and four loads of material, as follows: 1,204 loads of crushed stone; 2,713 loads of grout or rubble stone; 14,441 loads of gravel; 1,000 loads of street material; 2,939 loads of gutter cleanings; 507 loads of loam.

Work was begun on April 11th. The first thing found necessary was to equip the department with proper tools, which was done at quite an expense, as the old ones were worn out and unfit for use. A horse-roller was also added, at an expense of $285.

At the present time the department, as will be seen by referring to the account of stock and tools, is well furnished

and equipped, and need involve but little expense the coming year in this direction.

The next step was the cleaning of gutters on the most important thoroughfares, which were found to be in a bad condition, there being 2,939 loads of mud and decayed matter removed, making room for the surface water to find its way without tearing the street before it. I wish to say here, as I have heard complaints from different citizens of the foolish waste of money in cleaning gutters, that the first thing essential for good roads is clean gutters, and I think we should take pride in keeping our streets and gutters in a clean and tidy condition.

The next work on hand was to remove the plank-walks on Adams street and Canton avenue, the expense of which, including the relaying this fall, being $72. The walks are now in such a condition, being rotted badly, they will have to be replaced by new ones next fall, and taking into consideration the cost of same, and the annual expense of taking up and relaying, it would be advisable to concrete them and secure a substantial walk that would be of service at all seasons of the year.

After the walks came the removal of the stone-crusher to Godfrey's wharf, where it was found that better material could be obtained at a much less expense; the cost of removing was slight, being only $37.

Blasting and crushing was continued for seven weeks, there being crushed 1,204 loads at a cost of $1.02½ per ton. This cost price includes all expense of removal, breakages, blasting, labor, etc.; and when it is taken into consideration the cost of crushed stone in other towns and cities, which is on an average of $1.25 per ton, we have reasons to congratulate our town that we can get our stone much cheaper than in most places, as our crusher is now all ready in position for work the coming season, and will incur no extra expense. I estimate that our crushed stone can be gotten out this year from 75 to 80 cents per ton.

The crusher should have added to it a rotary screen, thereby enabling us to grade our stock into four parts, which, when applied to road construction and repairs, would give better results in the wear of such work performed. I would recommend, as being essential to better roads at a reduced cost over the old methods employed in road construction, a 15-ton steam-roller.

Some of the methods employed have caused hurried and inefficient work, carried on with too great a desire to economize in the first instance by constructing highways built cheaply and without regard to the intelligent experience of those who have learned by the practice of their art to know how wasteful a matter it is to discard or place at nought the recognized principles which become part of all well-ordered work in the building or maintenance of highways. Thoroughness is synonymous with permanence.

Do what is to be done, well and thoroughly, remembering that it is a permanent work that is being engaged in, and that looking to true economy and comfort no half measures are permissible.

The usefulness of the steam-roller can hardly be overestimated when considering the building and improvements of highways and the economy of such work.

Consolidate the foundations of all roads with a steam-roller so constructed as to withstand the rough work, and the lifetime of the road is increased twofold.

I would here make another recommendation for the coming year: That Adams street, beginning at Godfrey's driveway, extending as far as railroad bridge, be paved with block paving, the expense of which would be four thousand dollars. This is a very bad piece of road to keep in condition, especially in wet weather, on account of the grade of the street and amount of travel thereon.

I will now give a brief account of the work as performed during the season. For expenditures I refer you to the list as made out of amounts expended on various streets. Ran-

dolph avenue has had very little done. In a few places some small repairs have been made, such as digging out large stones from the travelled way, and in some cases gravel put on and bad holes mended, only 35 loads of gravel being used on the entire avenue. The condition of this avenue is in a rough state nearly the whole length. In some places the roadbed is several inches lower than at the sides; the gutters need clearing out and the roadbed built up, while in other sections it should be loosened up and resurfaced and rolled; the entire length needs repairs. Adams street has been repaired at different points from the village to Quincy line, necessitating the use of 509 loads of gravel and 6 loads of stone.

There were 3,750 square yards of this street macadamized, requiring 572 loads of rubble stone, 466 loads of gravel, 1,204 loads of crushed stone, and 1,350 feet of land tile.

This street is in a fair condition, with a few exceptions, and can be put in good shape at comparatively slight expense. Central avenue has been graded up at the lower end, requiring 404 loads of gravel and 275 loads of stone. This avenue is in very good condition, and needs no great outlay.

Brush Hill road from Hayward's hill to Paul's bridge had thorough repairs, being graded up the entire distance, requiring 1,156 loads of gravel and 352 loads of stone, other small repairs at different points requiring 27 loads of gravel. This road is in a fair condition with a few exceptions, where the gutters need clearing and the roadbed regraded and rolled.

Thatcher street had a few small repairs, only requiring 4 loads of gravel; the street is in a bad condition in places; especially at the junction of Central avenue, where the gutters need cleaning and the street gravelled.

Clapp street had the benefit of 2 loads of gravel, but needs the gutters cleaned and a walk gravelled on one side. Centre street has been put into condition from the cemetery gate to the top of the hill by gravelling up, requiring

650 loads of gravel. The balance of this street is in a bad state, and will have to be graded up.

The department has on hand now in the Brooks place some thousand or twelve hundred loads of material ready for use on this work, having stored it from other work during the season.

High street had some small repairs, requiring 4 loads of gravel.

Blue Hill avenue has been gravelled up some thousand feet at the corner of Brook road. About two-thirds of Whitney's hill was gravelled, requiring a fill of fourteen inches, and 1,464 loads of stone and gravel being used. This avenue from Robbins street to Canton avenue is in a very rough and in some parts bad condition, and needs thorough repairs, and in some places the guard rails at the embankments are rotted and gone and will have to be replaced the coming season. Hillside street has been thoroughly repaired, being gravelled the greater part of the way, while some 1,500 feet was excavated to the depth of eighteen inches and filled with large stone and then gravelled. This street is at present in a good condition with the exception of the hill at the Cary farm, which needs some repairs.

Harland street has had some slight repairs, requiring 36 loads of gravel, but is in a bad condition, needing to be widened on either side some two or three feet and filled in, especially crossing the meadows, where the soil is of a boggy nature, and the road is hardly wide enough to admit of two teams passing.

Granite avenue, Granite place, Sheldon street, State street, Edgehill road, Church street, Bryant avenue, Washington street, Eaton street, Pierce street, Brackett street, and Mechanic street, have all had some repairs and sidewalks fixed up, requiring 608 loads of gravel and 51 loads of stone. These streets are in a fair condition at present, needing no large outlay with but one exception,

that of Edgehill road, which has a great deal of heavy travel from the stone quarries.

Canton avenue has had considerable outlay during the season, being stoned and gravelled on the hill above Russell street, also gravelled some 500 feet from School street on the Almshouse hill to Blackman's shop and a part of Babcock hill.

At the hose-house, Blue hill, the street was widened and graded up about six hundred feet. The material used on this avenue was 667 loads of stone and 1,899 loads of gravel. Some considerable work remains to be done to get this avenue in good condition. From the wool shops to Thatcher street needs to be loosened and rolled; from Blackmans' shop to the centre of Babcock hill should be repaired and graded.

From a point near the hose-house to the Canton line it is in a bad condition, the road being some nine inches lower in the centre than at either side, and very rough and stony. White street has had some small repairs, 10 loads of gravel being used; this street is also in poor condition; gutters need to be opened and street gravelled.

Brook road has had a few repairs, using 20 loads of gravel. This road needs considerable done: gutters to be opened and street gravelled in some parts.

Russell and North Russell streets have had slight repairs and need a thorough overhauling. Highland street had only $1\frac{3}{4}$ days' labor picking loose stones from the roadbed, but is in a bad state; gutters need to be cleaned and street gravelled. School street has had some repairs, mostly on account of water trenches, 105 loads of gravel being used. This street at present is in fairly good condition. Pleasant street has been gravelled and gutters opened nearly the entire length and sidewalks repaired. There remains some work to be finished that was left undone on account of cold weather, and when this is completed the street will be in good condition. There were used on this street 1,194 loads

of gravel and 364 loads of stone. Mattapan street had some small repairs, using 8 loads of gravel, and is in good condition. Robbins street had one-half day's labor and one-half day's teaming, and is in fair condition.

On Eliot street there have been some small repairs made, including the gravelling of a portion of the sidewalks. This street should have permanent work done by macadamizing from Central avenue to Adams street. On the westerly end the sidewalks should be put in proper condition. Maple street has had the walks gravelled and is in a fair condition. Squantum street has been repaired and sidewalk built, also drain laid, but still needs a few small repairs.

On Adams street at the village the bank was taken away and retaining-wall built, curbstones set, sidewalk paved, and gutters relaid, adding much to the appearance of the street at this point. Metropolitan avenue was repaired, 78 loads of gravel being used.

Milton street had some slight repairs, using 34 loads of gravel. This street needs overhauling in general, gutters cleared, regraded, and rolled.

At the beginning of the season Bradlee road was repaired in a few bad spots, 11 loads of gravel being used. Later, permanent work was begun, and the hill taken down 6 feet and fences rebuilt. The number of loads of material teamed from the hill was 5,811.

The work was not all completed, on account of the cold weather, but it will be seen on referring to the report that there is a balance unexpended which is sufficient to complete the work begun.

Reedsdale road is far from being in a good condition, and needs considerable outlay to bring it up to the standard. Quarry street is in a bad state, and needs repairs; also Gun Hill street, which is rough and stony.

On Atherton street the gutters should be opened and some parts of the street graded. Churchill's-lane gutters need clearing and some gravelling done to the road.

The gutters on Reed street and Vose's lane should be cleared and some gravelling done.

I wish here to particularly call the attention of our citizens to Granite avenue, from Quincy line to Boston line, being in a bad condition at all seasons of the year, and should be attended to in the near future; and while this avenue is an exception to our streets in general on account of the nature of the soil, and taking into consideration the heavy travel thereon, there should be permanent work done, and it would be a useless expenditure of money to think of repairing this road with a few thousand dollars.

Granite bridge will have to be repaired at quite an expense the coming season, as some of the piling at the piers will have to be replaced, and the piers replanked, also a part of the draw.

I wish to call attention to the necessity of providing more gravel pits in the near future, as the supply at present is nearly exhausted. The pit at Blue Hill and what is known as the Ware pit will hardly be sufficient to carry the department through the coming year, while the Craig pit will also be exhausted. At the Sqantum pit there is sufficient for that section for three or four years.

I have herein tried to show to our citizens the work that is needful to be done to our streets, and while I may have omitted some important points, it has not been intentional.

Property.

The property of the department consists of one horse, one democrat wagon, one single harness, one sleigh, robe and blankets, all in fair condition.

Crime.

There have been no serious crimes committed in the town the past year.

There have been five attempts at house-breaking, but they have not been successful in getting any property in either case.

The annoyance and nervousness caused by the knowledge that thieves and burglars are about is a more serious matter in this community than the financial losses suffered.

Police Telephone.

The Police Telephone System is worthless. The telephone company thought they could improve the system, and the selectmen gave them charge of it for three months on trial by paying the company for their work, and the agent who had charge of the system reported that he could not improve it and advised getting some other. As it is now, the town is paying for a police telephone that is worthless and no use to the citizens.

Discipline, Conduct of the Force, etc.

The general conduct and discipline of the force has been excellent the past year. Our situation as regards police duty is somewhat peculiar, especially Sundays, with the overflow of the idle and vicious from the large city on our border on one side, Hyde Park on the Brush Hill side, and Quincy on the eastern side, is a source of great annoyance to many of our citizens, and night patrolmen have been detailed Sundays for extra duty, and have responded to such calls cheerfully and promptly.

I would again recommend for your consideration a police route during the daytime, from the Boston line at Lower Mills, over Adams street to East Milton, as it is one of the most travelled streets in town, and at the request of a number of citizens I would recommend appointing a day patrolman for that route.

Thanks are due to many citizens for courtesies received.

To the Board of Selectmen for their kind considerations, and support in every good work, my thanks are especially due.

Respectfully submitted,

MAURICE PIERCE,

Superintendent of Police.

ENGINEER'S REPORT.

MILTON, Jan. 1, 1893.

To the Honorable Board of Selectmen:

GENTLEMEN: The Board of Engineers herewith presents its annual report on the condition of the Fire Department.

The past year has fortunately been one without serious fires, and the fire loss for the year is small. The number of bell alarms has been equal to the average of the last few years, and there has also been a decided increase in the number of small fires that have been extinguished by citizens or members of the department without calling out the apparatus.

The general condition of all things pertaining to the department is excellent. The new hose-house and hose wagon in East Milton, built under the supervision of your Honorable Board and turned over to the engineers in May last, have added strength to the entire department, and gives admirable fire protection to the eastern section of the town. The building is well located and planned for the use for which it is intended. The wagon, equipped as it is with ladders and small chemical extinguishers besides its hose, is a good example of modern fire apparatus. A horse has been purchased to draw this wagon, and a man engaged to give a portion of his time each day to exercising and caring for the horse, and also caring for the house and apparatus.

The number of forest fires increases each year in spite of notices posted to prevent them. The majority of these fires are set intentionally by persons who know better, and who would not think of firing a building.

How to check this growing evil, threatening as it does large tracts of our town covered with a valuable growth of forest trees that fire would either greatly injure or ruin, is a question in which all citizens should be greatly interested, especially those owning woodland.

The citizens of the Mattapan district have expressed a desire that a fire-alarm bell be placed in that section. While it may be desirable, even necessary, to place a bell there in the future, we think that before it is done, the 1,800-lb. bell on the Town Hall should be moved to an open belfry on the central fire station, believing that if this is done there will be no need of a bell in Mattapan.

We desire to suggest that the town adopt a simple code of building laws, and that the engineers be given authority to enforce the same. The number of cases where the simplest rules of safety are disregarded is really surprising.

The basement of the ladder truck house has been converted into a room in which to dry wet hose. This is a great addition to our equipment, as the ability to quickly and thoroughly dry wet hose is not only most beneficial to the hose, but makes our extra supply much more available.

A new running card was adopted in May, so that at least two hose companies now respond to all alarms.

Twice during the year our apparatus has responded to alarms of fire in the Dorchester District, and to one fire in Quincy.

Executive Officers.

The executive organization of the department consists of a chief and two assistant engineers.

Permanent Force.

The permanent force of the department consists of a superintendent of the fire-alarm system, who also has charge of the police telephone system, one engineer of steamer, one driver of steamer, one driver of hose wagon, one driver of ladder truck, one driver of chemical engine, and one semi-permanent man, who has charge of the East Milton hose-house and horse.

Call Force.

The call force consists of forty-seven members, assigned as follows:

Engine and Hose 1	12 men
Hose 2	6 "
Ninety's Hose	6 "
Hose 4	6 "
Hook and Ladder 1	12 "
Chemical Engine	5 "

Apparatus.

The apparatus in service consists of one steam fire-engine, one chemical engine, one hook and ladder truck, three hose wagons, two hose reels, one hose pung, one supply wagon, a wagon and sleigh for the Fire-Alarm Department.

The apparatus not in service consists of one hand engine and one hose reel. The old ladder truck with its equipment of ladders has been turned over to the Highway Department to be used in pruning trees.

A new set of wheels has been ordered for the chemical engine.

Horses.

There are ten horses employed in the department. During the year one new horse has been bought for East Milton and another new horse has been procured by exchange for an old one. The care of the horse used by the Fire-Alarm Department has also been assumed.

It will be necessary this year to buy a new pair of horses for the chemical engine. The present horses are seventeen years old, have been used on the chemical engine twelve years, and are too old to be longer relied upon for fire duty.

The other horses are all in good condition.

Hose.

The hose in the department service consists of 4,500 feet, as follows: 4,100 feet of cotton rubber-lined hose in good order; 400 feet of same in fair order; 600 feet of cotton hose, not lined, has been discarded as useless. New hose for the chemical engine must be purchased.

Buildings.

All the buildings are in good repair. We hope this year to introduce water and electric lights into the central fire

station and chemical engine-house, also to do considerable painting about both of these buildings.

Fire-Alarm Department.

When the fire-alarm system was first built, a single wire connecting the western and southern sections of the town was carried on poles of the Western Union Telegraph Company through the Town of Canton along Blue Hill avenue to Hillside street, and then along Hillside street on telephone poles back to the Milton line.

The past year the Western Union Telegraph Company took down all its wires and poles on the line in Canton referred to, except such poles as carried the Milton fire-alarm wire. This left about a mile of large poles with but a single wire upon them, which the authorities of Canton wished removed, and notified our town to that effect. To make the necessary changes to enable this wire to be removed, we asked for and were granted by the Warrant Committee $700 from the Contingent Fund. The changes are not yet completed on account of the cold weather, but will be finished in the early spring.

The fire-alarm system is in first-class order. Three new boxes have been added during the year, as follows:

Box 14, corner Blue Hill avenue and Tucker street, to take the place of Box 16, removed to Brook road near Mr. T. H. Hinckley's.

Box 15, corner Mattapan street and Dyer avenue.

Box 315, Hillside street, near Mr. C. H. Parker's farm.

There are a number of places where fire-alarm boxes could be advantageously placed.

There have been seventeen bell, ten telephone, and eight still alarms.

The system at present consists of thirty-eight miles of overhead wire in three circuits; a 4-circuit repeater, thirty-two signal boxes, two tower bell-strikers, one steam whistle,

one 18-inch, two 8-inch, seven 6-inch gongs, with a battery power of one hundred and forty jars.

For the maintenance and current expenses of the department for the ensuing year, the Board would recommend an appropriation of $12,000.

Respectfully submitted,

Signed, GEO. F. CHOATE, *Chief.*
ELLERTON P. WHITNEY, *Clerk.*

MILTON FIRE-ALARM TELEGRAPH.

Special Notice.

The fact that an alarm-box is located near their residence, and where the key is kept, should be known to all persons; also the simple manner of giving an alarm in case of fire. The Board of Engineers recommend to all persons who may see this notice, that they make the necessary inquiries to enable them, in case of need, either to get the key and give an alarm, or to direct others to do so. *Time* saved in this way may sometimes prevent a conflagration.

In case of fire follow these

Directions.

Go to the nearest box to the fire.

A sign over each box gives location of keys.

Open the box — pull the lever or hook all the way down *once* and let go.

After giving the alarm remain a while, *if possible*, by the box, so as to direct the firemen to the fire.

Second alarms will be given only by one of the engineers.

Caution to Persons holding Station Keys.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the engineers at once.

REPORT OF TRUSTEES OF MILTON CEMETERY.

It is the constant aim of the trustees to keep the general appearance of our cemetery as near to nature as possible.

It is thought that a lot with a smooth, well-kept surface of green, the graves slightly raised and marked by small tablets,

is in better accord with the general aspect of our cemetery and with its sacred purposes, than if marked by much show of granite or marble in boundaries or monuments, or even with studied floral decorations.

A great deal of care and labor has been expended, during the year under review, on the avenues and paths, and on the margins and surroundings of lots, as well as on the lots, and this will be the great work for all coming years.

Elm avenue, from Fir to Shamrock, has been rebuilt by removing the surface gravel and subsoil and by grading the bed, cutting down the crown two and a half feet, and filling to grade with stone and coarse gravel carted from the pit.

The material thus furnished has been used in grading the new lots on Centennial avenue.

The work of removing stone from the low land in the rear of the tool-house has been continued until enough has been secured to complete Coleus avenue, which is fifteen feet wide, five feet deep, and two hundred and fifty feet long, requiring for its foundation two thousand and six hundred tons of stone. In this a twofold object has been accomplished: the stones have been removed from land required for cultivation or for burial, and have been used to form the never-failing foundation of an avenue over a wet and swampy section.

Five hundred and fifty feet in length of stone gutters have been laid during the year.

Eleven new lots have been taken up and four old ones have been put in order.

Three family tombs have been levelled and converted into lots, giving entire satisfaction to the proprietors of the same, as well as to the trustees.

The grading of the land in the new part back of receiving-tomb is now practically completed, and the large ornamental plat between Amaranth and Acacia paths has been planted with trees and shrubs.

Trees have also been set on adjoining lots, using in this

work about fifty trees, mostly rock maple, and one hundred shrubs of various kinds.

The trustees have caused small iron tablets, with name of avenue and path cast in the same, to be placed at the opening of all passageways.

These will serve as guides to proprietors, and especially to strangers in the search for lots.

An appropriation of two thousand dollars for the benefit of the cemetery is recommended for the ensuing year.

Respectfully submitted,

ALBERT K. TEELE,

For the Trustees.

REPORT OF BOARD OF HEALTH.

During the current year the Board of Health has held thirty-two meetings, and made three perambulations of the town, besides causing sundry special visits to be made by one or more of its members as required by circumstances.

The matter which has demanded more attention and time than any other is the keeping of swine as a trade or employment.

The Board perceived clearly, early last spring, that there was danger of nuisances arising from piggeries, and in the rules and regulations which were adopted the provisions of earlier boards in regard to the keeping of swine were, with very slight changes, reënacted. No more than two swine were allowed to be kept without a special license. The new rules were published as required by law, copies were also freely distributed throughout the town, and a special notice was published, calling upon citizens to observe these regulations, and take out permits accordingly.

A regular printed form of license was also adopted, and all keepers of pigs who had any permits received these, the special conditions, where any were imposed, being indorsed upon the back of the license. The Board takes satisfaction in stating that there was manifested a general readiness and desire to comply with its requirements and observe its rules. In some instances, however, there have been negligence and defiance of the authority of the Board. Twenty-one permits were issued in all, providing for the keeping of not over four hundred and eighty-nine swine. Three of these have been revoked for cause. Two cases have required resort to the courts, one of these being an old matter not completely disposed of by the previous Board. In both cases permanent injunctions have been granted.

It has been plainly stated by some persons that the Board was oppressive in its treatment of these cases, and unduly strict in its requirements; and that the question would be taken out of its control, and the policy of the future settled by the town. This would relieve the Board of Health of a certain amount of responsibility and disagreeable duty; but it is doubtful whether the active oversight and occasional intervention of the Board can be dispensed with, even if the town votes that piggeries shall be freely licensed.

Piggeries are prone to become nuisances, especially during our warm season; and certainly no one would seriously argue that questions of nuisance, dangerous to health, should be put beyond the control and supervision of the Board of Health.

With the desire of doing its full duty without being unjust or giving offence, the Board asked for and obtained a joint meeting with the Warrant Committee, and after a full disclosure of the policy and plans of the Board in the matter of piggeries, the committee expressed itself as fully approving both.

All things considered, the condition of the town has been remarkably healthy.

The prevailing epidemics visited Milton in the course of the year, and there have been found here a few cases of scarlet fever, and several each of measles and diphtheria. The table appended shows the number of cases of sickness reported. There has been but one death reported from any contagious disease. The town is indebted to all physicians who practise within its limits for courteous coöperation in carrying on the work of the Board.

Fault was found with the water supplied by the Milton Water Company during our exceptionally hot summer, and the Board was called upon for advice and assistance. Private wells also in some instances were found objectionable. Numerous chemical analyses were had, and careful comparisons of the reports were made from time to time. With the return of cool weather, and the autumn rains, the water-supplies, both public and private, ceased to give any trouble.

There being no physician on the Board this year, Dr. H. P. Jaques has been consulted when it was deemed expedient to do so; and the Board has had the efficient aid of Mr. Emerson (who is also Collector of Taxes) as its agent. He has made frequent inspections of premises where any menace to health has been found or suspected, his separate visits amounting to one hundred and fifty-three; he has also attended to five cases of fumigation.

Fumigation was asked for by the School Committee in cases of contagious diseases, and it is so highly thought of as a precautionary measure, that it is becoming a regular practice. The Board has insisted upon it in all recent cases. The Boston Board of Health very kindly attended (without charge) to our first case, which occurred before we had matters properly organized and the necessary apparatus for the process.

The Health building at the Town Farm has been used in one case only.

Suggestions have been made to the Board that some uniform system for the removal and disposal of sewage and

garbage should be devised and put into execution. But on account of the great number of private cesspools which still work adequately, and of the fact that a town committee is investigating this subject at the present time, we make no recommendations.

The keeping of accurate records of meetings, inspections, licenses, analyses, and the like, and the conduct of a considerable correspondence, now form important parts of the work of a department of public health, and involve the expenditure of much time and labor.

While the expenditures for the year have come well within the appropriation made last March, it is evident that the interests of the town demand that the work of the Board shall never be hampered by lack of funds, and we would recommend that at least $500 be appropriated annually. In case of a severe epidemic, or of the necessity of carrying on proceedings at law, no less sum would be fairly adequate, and it might even be well to appropriate yearly $500 or $1,000 extra, as a special contingent health fund, to be drawn upon only in cases of emergency, and with the previous consent of the Warrant Committee.

Respectfully submitted,

WILLIAM H. KENNEDY, *Chairman*,

CHARLES S. RACKEMANN,
Board of Health.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

Since the twentieth of January, 1892, when the library was reopened, after the rooms had been renovated in consequence of the fire, nothing of general interest has occurred in the affairs.

Two votes that were passed by the trustees at their stated meeting in March may be of interest to some who are directly affected by them. By the first, that part of library rule 2, which reads, "but members of the same household shall not have more than three volumes at the same time," was rescinded, by it being voted "that every resident of the town of Milton over fourteen years of age, regardless of the number in the family, be allowed a card with which to draw books from the library." By the second vote it becomes possible for residents in the neighborhood of East Milton to get a library card there instead of being obliged to go to the library itself to get one. It was voted "that a duplicate book, for the signature of residents taking cards from the library, be furnished the East Milton reading-room, and the authority be and hereby is given to Miss Emerson to issue cards to residents applying to her."

A number of juvenile books, some fifty in all, were purchased early in the year and included in the last bulletin issued as among the books added in 1891. There have also been 224 volumes added, which bring the total of books owned to 10,854, excepting a few that are still mislaid or were lost at the time of the fire. Of the thirty-five books that were missing a year ago, a few have been found in the library, and a few that were essential to the life of the library, notably "Robinson Crusoe," that could not be found, have been replaced by new copies. The "Cosmopolitan" and "Fortnightly Review" were added to the periodicals.

The librarian's record shows that 657 cards are in use, and that 10,819 volumes were taken out on cards, of which 1,665 were sent to East Milton. The record at the reading-room there shows that 1,225 volumes have been received from the library beginning with January 28, and that on 95 cards that have been in use there for taking from the reading-room back numbers and bound volumes of magazines, some 1,200 of these have been taken for home use. The "Review of Reviews" has been added to the periodicals.

The trustees take this opportunity to again express themselves as always ready and glad to receive suggestions and friendly criticism, and to make such changes as seem desirable to them and as the limited appropriation allows. It is their wish to keep the library in a position where it will do the greatest good to the greatest number, and it is their belief that they are accomplishing their purpose by adding books with care, and keeping them so that they are readily accessible to all.

Respectfully submitted for the Trustees,

JOSEPH C. WHITNEY.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT APRIL 27, 1887. AMENDED AND APPROVED BY THE SUPERIOR COURT, MAY SITTING, 1891.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after two P.M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

" After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the School Committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so

appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall within two weeks after their appointment meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption

of such vote, or unless ordered by two-thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of January.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the taxpayers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding financial year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the current financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the

first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appro-

priations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish, or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine to run at large in the town, or to feed in any highway or street, either with or without a keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams street, between Churchill's lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled or sleds, upon

any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march, or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain upon any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix by paste or otherwise any handbill, placard, notice, or advertisement, or paint, draw, or stamp the same, or any marks or figures to or upon any signboards of the town, or to or upon any building, fence, wall, tree, or structure in the town, without the permission of the owner of such building, fence, wall, tree, or structure, shall forfeit and pay a sum not less than one dollar nor more than

ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from

school, and in pursuance of authority conferred thereby adopts the following By-Laws :

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed

in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper, and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery :

1. All persons are prohibited from driving upon the borders.

2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.

3. All persons are prohibited from discharging fire-arms within the grounds of the cemetery, except in case of military funerals.

4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.

5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.

6. Dogs are not allowed within the cemetery grounds.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of

the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

AUDITORS' REPORT.

The undersigned herewith present the Fifty-seventh Annual Report of the Town of Milton.

They have examined the accounts and vouchers of the various departments, and believe them to be correct.

The Almshouse has been inspected and found to be well and carefully managed.

Department with the Modern Police Telegraph System, and appropriate money for the same.

Art. 26. To see if the town will appropriate one thousand dollars ($1,000) for the transportation of pupils to and from the High School for such sections of the town as it may be deemed advisable; such sum, or a portion of it, to be expended under the direction of the School Committee.

Art. 27. To see what sum of money the town will appropriate for Insurance on Town Building the ensuing year.

Art. 28. To see if the town will appropriate the sum of fifteen thousand dollars ($15,000) to be expended on Granite avenue (or so much thereof as may be required) for the purpose of building a Telford road, beginning at the town line between Quincy and Milton and ending at Squantum street in said town, a distance of about 3,400 feet.

Art. 29. To see if the town will vote to build a new school-house in the East Milton District, and purchase land upon which to erect the said building, and appropriate money for the same.

Art. 30. To see if the town will vote to enlarge the present school building in the Mattapan District, and appropriate money for the same.

Art. 31. To see if the town will appropriate the sum of two thousand dollars ($2,000) for Smith road, in accordance with the decree of the County Commissioners.

Art. 32. To see if the town will vote to purchase a Steam Roller for its roads and appropriate money for the same.

Art. 33. To see if the town will vote to increase the salary of the Chairman of the Board of Selectmen from $650 to $800, and the salary of the other two members of the Board of Selectmen from $460 to $600.

Art. 34. To see if the town will appropriate a sufficient sum of money to enable the selectmen to employ a suitable book-keeper or clerk to assist the Selectmen in keeping the accounts of the town, and to do such other clerical work as the Selectmen may wish.

Art. 35. To see if the town will request the Selectmen to make re-surveys of Granite avenue and Squantum street for the purpose of widening and straightening the present street lines.

Art. 36. To see if the town will vote that the wages of laborers employed in the Highway Department of the town be not less than two dollars per day.

Art. 37. To see if the town will vote that all labor required in the Highway Department of the town be done by citizens or residents of said town, and no persons be employed whose place of residence is outside of the Town of Milton.

Art. 38. To see if the town will accept the report of the Selectmen laying out the extension of Eliot street as a town-way to Mattapan street and appropriate money for the same.

Art. 39. To see if the town will accept Edge Hill road as laid out by the Selectmen.

Art. 40. To see if the town will locate a Fire Alarm Box on the corner of Granite avenue and Squantum street and appropriate money for the same.

Art. 41. To see if the town will appropriate the sum of five hundred dollars ($500) for the purpose of bringing Eliot street, from Central avenue to land of N. M. Safford, to the original grade as established by the town when said street was laid out as a town-way.

Art. 42. To see if the town will vote to accept the provisions of Chapter 27 of the Public Statutes of Massachusetts, or any other provisions of law, enabling it to choose Selectmen to serve for one, two, and three years respectively.

Art. 43. To see if the town will vote to amend its By-Laws so as to provide that at the Annual Town Meeting to be held in March, 1894, three Selectmen shall be elected as follows: one for the term of one year, another for the term of two years, and the third for the term of three years from the date of said meeting; and to provide further that at the Annual Town Meeting to be held in March, 1895, and at each subsequent Annual Town Meeting, one Selectman shall be elected for three years.

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes therein mentioned, by posting copies of this warrant in the post-offices of said town, fourteen days at least before the time set for said meeting, and distributing printed copies at the dwelling-houses in said town.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton this tenth day of February, A.D. 1893.

J. ALBERT SIMPSON,
SAMUEL A. MORSE,
Selectmen of Milton.

NORFOLK, ss. Feb. 18, 1893.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Milton, qualified as therein expressed, to meet at the time and place, by posting copies of this warrant in the post-offices of the town, and leaving copies at the dwelling-houses as within directed.

JAMES D. DAVENPORT,
Constable of Milton.

At a meeting of the inhabitants of the town of Milton, held according to the foregoing warrant, upon

ART. 3. *Voted*, That no license be granted for the sale of intoxicating liquor in this town, the ballot being as follows: "Yes," 75 votes; "No," 277 votes.

REPORT OF AUDITORS.

ART. 4. The Auditors elected at the last Annual Town Meeting respectfully report that they have attended to the duties assigned them, and have, according to usual custom, reported in print, copies of their said report having been distributed to all families in the town.

In addition to the report submitted, they would beg leave to offer for adoption by the town the following recommendations:

That the Town Treasurer be authorized, with the sanction and approval of the Selectmen, to borrow such sums of money as may be necessary for town use in anticipation of the taxes of the year 1893. And that all sums so borrowed be made specifically payable from the taxes of the present year, 1893. And that the sum of three thousand dollars be appropriated for interest.

(Signed) JOHN P. S. CHURCHILL,
J. FRANK POPE,
Auditors.

Voted, To accept the report of the Auditors, and that the recommendations by them submitted be adopted by the town, including the sum of $3,000, appropriated for interest.

ART. 5. *Voted*, To appropriate the sum of thirty-two thousand dollars for the support of Schools the ensuing year.

ART. 6. *Voted*, To appropriate the sum of twenty-six thousand dollars for Highway expenditures the ensuing year, and that the time within which two-thirds of said appropriation shall be laid out and expended be fixed as January 1, 1894.

ART. 7. *Voted*, To appropriate the sum of two thousand dollars for the care and improvement of the Cemetery the ensuing year.

ART. 8. *Voted*, To appropriate the sum of fourteen hundred dollars, and also the money received for dog licenses, for the Public Library the ensuing year.

ART. 9. *Voted*, To appropriate the sum of six thousand five hundred dollars, and also the gross receipts of sales at Poor Farm, for the Support of Poor the ensuing year.

ART. 10. *Voted*, To appropriate the sum of twelve thousand dollars for expenses of the Fire Department the ensuing year, and the further sum of five thousand six hundred dollars for Hydrant service.

ART. 11. *Voted*, To appropriate the sum of twelve thousand five hundred dollars for expenses of the Police Department the ensuing year.

ART. 13. *Voted*, To appropriate the sum of three thousand six hundred dollars for Salaries of the various Town Officers the ensuing year.

ART. 14. *Voted*, To appropriate the sum of one thousand dollars for expenditures at Town Hall and adjacent surroundings the ensuing year.

ART. 15. *Voted*, To appropriate the sum of one thousand dollars, to be expended for the payment of State Aid the ensuing year.

ART. 16. *Voted*, To appropriate the sum of eight hundred dollars for expenditures for Printing the ensuing year.

ART. 17. *Voted*, To appropriate the sum of one thousand five hundred dollars for Miscellaneous Expenses, the further sum of seven hundred fifty dollars for abatement of taxes, and also the sum of four thousand dollars for the Contingent Fund.

ART. 18. *Voted*, To appropriate the sum of five hundred dollars for expenses of the Health Department the ensuing year.

ART. 19. *Voted*, That the following report of the Committee appointed at a special town meeting held upon November 1, 1892, to investigate the water suppy of the town, be accepted and adopted.

REPORT OF WATER COMMITTEE.

The Milton Water Company and the Brush Hill Water Company were incorporated by the Legislature in 1888, the Acts to take effect on the first day of January, 1889, unless the town of Milton previous to that date vote to petition the next Legislature for authority to construct a system of water works in the town.

The companies were consolidated in 1890 by the purchase of the Brush Hill Company by the Milton Company; this consolidation was approved by the town at a town meeting held on July 30, 1890, when the following vote was unanimously passed:

"*Voted*, That the purchase, sale, and consolidation of Milton Water Company with Brush Hill Water Company is hereby ratified, consented to, made valid, and authorized by the town of Milton, in pursuance of the provisions of Chapter 388, Acts of 1889."

Under these charters the Milton Water Company has the right to take and hold the waters of Houghton's pond, of the Neponset river, of Pine Tree brook, and the waters of any springs, brooks, wells, ponds, or streams in the town of Milton, and to contract with the city of Boston, town of Canton, Quincy Water Company, or Hyde Park Water Company for a supply of water.

The Milton Water Company has a contract with the Hyde Park Water Company for a supply of water for ten years, till the first day of May, 1900, at the following prices, payable quarterly: If the average daily consumption of water for the quarter is not less than twenty thousand gallons, fourteen cents per thousand gallons. In case the average daily consumption for the quarter shall equal sixty thousand gallons and not exceed eighty thousand gallons, the Milton Water Company shall be entitled to a discount of twelve and one-half per cent. from the rate of fourteen cents per thousand gallons. In case the average daily supply for the quarter shall equal eighty thousand gallons and be less than one hundred thousand gallons, the Milton Water Company shall be entitled to a discount of twenty-five per cent. from the rate of fourteen cents per thousand gallons. In case the average daily supply for the quarter shall equal or exceed one hundred thousand gallons, then the Milton Water Company shall pay at the rate of ten cents per thousand gallons.

The amount of stock of Milton Water Company is	$66,000 00
The amount of bonds of Milton Water Company is	60,000 00
The amount of floating debt of Milton Water Company is	17,050 00
The amount of script of Brush Hill Water Company is	2,022 20
	$145,072 20
Accrued interest to January 1, 1893, about	12,927 80
Estimated cost of works to the town, January 1, 1893	$158,000 00

There is also a claim against the company of about $600.

There are 18.1 miles of pipe.	
The number of water-takers by metre	216
The number of water-takers by faucet	61
Whole number of water-takers	277

An average of $15\frac{1}{2}$ to a mile.

Expenses for the year ending October 1, 1892:

Hyde Park Water Company, about	$3,000 00
Interest	3,633 97
Salaries	1,327 39
Laborers and plumbers	1,463 46
Taxes	696 00
Sundries	1,300 84
	$11,421 66

Income for year ending October 1, 1892:

Fro hydrant service	$5,580 00
From 277 water-takers, paying an average of $13.34 each	3,697 69
	$9,277 69
Apparent deficit	2,143 97
	$11,421 66

The company estimate the deficit for this year at $2,500.

The $60,000 bonds pay interest at five per cent., and are due August 1, 1900.

If the town purchased the property and rights of the Milton Water Company, it would be necessary to issue $100,000 bonds, which, bearing interest at four per cent., could probably be sold at par; this would require annual interest of	$4,000 00
The annual expenditures for salaries, laborers, plumbers, taxes, and sundries, on the basis of the expenses of the company last year	4,787 69
Interest on $60,000 bonds	3,000 00
Hyde Park Water Company for water, same as last year	3,000 00
	$14,787 69

Income from water-takers, same as last year,	$3,697 69
Income from hydrant service . . .	5,580 00
Deficit	5,510 00
	$14,787 69

Any extension of the service would entail a larger deficit, as the best paying territory has already been covered by the Company. Section 9 of the Act incorporating the Milton Water Company gives the town "the right at any time to take by purchase or otherwise the franchise, corporate property, and all the rights and privileges of said corporation, on payment to said corporation of the total cost of the franchise, works, and property of any kind . . . including in such cost interest on each expenditure from its date to the date of taking . . . at the rate of seven per centum per annum. . . . If the cost of maintaining and operating the works of said corporation shall exceed in any year the income derived from said works by said corporation for that year, then such excess shall be added to the total cost; and if the income derived from said works by said corporation exceeds in any year the cost of maintaining and operating said works for that year, then said excess shall be deducted from the total cost."

After a full and careful investigation of the subject, the committee is unanimously of the opinion that it is not for the interest of the town to purchase the franchise and property of the Milton Water Company. The company as it now exists is under most excellent management, and the judgment of the committee is that it will be more economical for the town to allow the company to remain under its present management than to purchase and manage the property itself.

NOVEMBER MEETING.

GENERAL ELECTION, NOVEMBER 7, 1893.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. To either of the Constables of the Town of Milton. Greeting:

In the name of the Commonwealth of Massachusetts you are required to notify and warn the inhabitants of the Town of Milton, qualified to vote in elections, to meet at the Town Hall in Milton, on Tuesday, the seventh day of November next, at seven o'clock in the forenoon, then and there to bring in their ballots for a Governor, Lieutenant-Governor, Secretary, Treasurer, Auditor, Attorney-General of this Commonwealth, Councillor for the Second District. Also a Register of Probate and Insolvency, County Commissioner for Norfolk County, Senator for the First Norfolk District, Representative to General Court for the Fourth Norfolk Representative District. Also to vote on the following Article of Amendment to Constitution, relative to the Payment of Mileage to Members of the General Court.

So much of article two of section three of chapter one of the Constitution of the Commonwealth as is contained in the foling words: "The expenses of travelling to the General Assembly, and returning home, once in every session and no more, shall be paid by the government, out of the public treasury, to every member who shall attend as seasonably as he can, in the judgment of the House, and does not depart without leave," is hereby annulled.

And every person qualified to vote as aforesaid may express his opinion on said article of amendment, and the following words shall be printed on the ballot, to wit:

Shall the proposed amendment to the Constitution relative to the payment of mileage to members of the General Court be approved and ratified?	YES
	NO

All to be voted on one ballot. Polls to close at four o'clock, P.M.

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes therein mentioned, by posting copies of this warrant in the post-offices of said town, and distributing printed copies at the dwelling-houses seven days before the time set for said meeting.

Hereof fail not, and make due return of this warrant with your doing thereon to the Town Clerk, at or before the time of said meeting.

Given under our hands at Milton this twenty-sixth day of October, A.D. 1893.

J. ALBERT SIMPSON,
SAMUEL A. MORSE,
JOHN F. BROWN,

For DANIEL S. MILLER, one vote.

Given under our hands at Canton this seventeenth day of November, A.D. 1893.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

SELECTMEN'S REPORT.

The Selectmen of Milton submit to the town the following report of their management during the year just passed, of the duties intrusted to them:

HIGHWAYS.

Mr. L. S. Nevons was reappointed as Superintendent of Streets. Under a vote of the town, a steam-roller was bought, and in our opinion it has caused a great saving of money to the town in the construction of new roads and in the repairs of the present ones. Under a decree of the County Commission, Smith road has been rebuilt. While the cost has been more than at first estimated, it was thought best to have the work done in a permanent way, and the town will not be called upon to expend any more money on this road for a number of years.

Centre street has been repaired from Union square to Randolph avenue, a work that was very much needed. Randolph avenue from Adams street to Russell street has been macadamized and put in thorough repair; also Russell and North Russell streets. The work on the extension of Eliot street has been done to the amount of the appropriation, but owing to numerous ledges which required a great amount of blasting and quarrying of rock, an extra sum will have to be appropriated to finish the work, and when the street is completed it will be one of the best in town, as the greater part will be macadamized with the stone taken from the ledges on the line of the street.

Standpipes have been erected by the Water Company in various parts of the town, for the watering of the streets in the summer time, which adds to the comfort of the citizens and to the wear of the roads.

The pier on the east side of the Granite-avenue bridge has been rebuilt, at an expense of $1,299.73. The piling and planks were thoroughly decayed, and it has been unsafe for those persons coming up on vessels, and it was thought best by the Selectmen to do the work at once to save possible accidents which might have caused a great loss to the town. In the near future the pier on the west side of the bridge will have to be rebuilt.

In accordance with Chapter 53 of the Public Statutes, which provides that every town shall erect and maintain guide-posts, and that the selectmen of each town shall submit to the inhabitants at every annual meeting a report thereof, we report that the town has complied therewith by maintaining guide-posts at all places where, in our opinion, they ought to be erected and maintained.

STREET LIGHTING.

The electric-light system has been examined by Stone & Webster, electrical engineers, to see if the company was living up to its contract with the town in furnishing the proper amount of light; and by their report to this Board we have caused the Milton Electric Light and Power Co. to make numerous changes, so at the present time, in our opinion, the town is better lighted than ever before.

There are at present 398 lights.

POOR DEPARTMENT.

Mr. and Mrs. Wheelock were reappointed as Superintendent and Matron of the Almshouse and Farm. Ten inmates have been provided for the most of the year, but at present there are only six. Three have died and one has gone with friends. The buildings have been repaired and painted, and an addition put on to the house occupied by the male inmates; also, bath-tubs put in for the use of the male and female inmates, a necessity which was very urgent for the health and cleanliness of those at the Almshouse.

The Farm is credited with $506.08 for milk and $42.98 for pork sold.

Milton is caring for nine inmates of insane asylums and two inmates of the School for Feeble-Minded, together with the usual outside aid rendered various parties.

J. ALBERT SIMPSON,
SAMUEL A. MORSE,
JOHN F. BROWN,
Selectmen of Milton.

There has been expended in this direction $2,206.88, the greater part being in February and March, 1893. Cleaning streets, basins, and gutters, it was found necessary to remove 608 loads, at a cost of $590.57. The repairs on the different pumps about town have been $79.34. There was expended during the season for street sprinkling $1,219.85, laying drain-pipes $263.10, repairing and building new fences $444.03, trimming trees $80.62, mowing grass on roadsides $54.00.

REMARKS.

During the present season there have been five and three-fourths miles of streets put into good condition. The addition of the steam-roller to this department was of great assistance in accomplishing this work, enabling us to loosen up more surface and roll more thoroughly, making the material more compact and durable.

The roller was set at work on the first of June, and was run 120 days, picking up the surface and rolling four miles of the work now accomplished. As I have had many inquiries as to the expense of running the steam-roller, I will here state that the expense for fuel is $1.00, engineer and helper $4.50, oil .35, making the total expense $5.85 per day.

The wear and tear might also be added, but it would amount to but a few cents per day. There were also two new watering-

carts and one horse added to the department during the year. As the horse at East Milton was old and past use, it was found necessary to replace him. At the present time the department is well furnished and equipped, and need involve but little expense the coming year, in this direction.

I wish here to call the attention of our citizens to the matter of watering our streets. While for the year of 1892 the expense was $1,968.25, the year of 1893 has been somewhat less, being $1,219.85; but there being a loud call for the streets to be watered in some sections of the Blue Hill district, it was decided to place new standpipes in that section, which are now nearly completed; and while this expense is drawn from the appropriation for Highway Repairs, it would seem advisable to me to make a separate appropriation for this purpose, which will probably be, for 1894, $2,000.

The plank walks on Adams street were taken up and relaid this fall, the expense of the same being $82.09. They are in a very bad and rotted condition and I will renew my suggestion of last year that a concrete walk be laid there by having a substantial walk that would be of service at all seasons of the year.

Early in the spring a rotary screen was added to the crusher, which enables us to procure our crushed stone clean and in four different sizes, making the material much more valuable for use.

Crushing was begun the first of April, and continued for several weeks, there being 1,692 loads crushed, at a cost of $1 per ton. In my last year's report I called the attention to the condition of our supply of gravel for road work, it being now all exhausted, with the exception of the Squantum pit.

Some measures will have to be taken in the near future to provide suitable material for road work. During the year there have been teamed 26,594 loads of material, as follows: 1,692 loads crushed stone; 4,202 loads grout or rubble stone; 9,476 loads of gravel; 10,616 loads loam and filling; 608 loads of street scrapings.

In closing my remarks I will say that while the subject of better roads is at present being agitated through the State, and not only our State but others, it seems to me we should have liberal appropriations for our streets in Milton, and at the end of three or four years we shall not be "tried in the scales and found wanting," with our sister towns.

SUPERINTENDENT'S REPORT.

POLICE DEPARTMENT, MILTON, Jan. 1, 1894.

To the Honorable Board of Selectmen:

GENTLEMEN: I have the honor to submit my annual report of the Police Department for the year ending Dec. 31, 1893.

ORGANIZATION OF THE FORCE.

Superintendent. — Maurice Pierce.
Deputy Supt. — Timothy McDermott.
Keeper of Lock-up. — Edwin A. Houghton.

PATROLMEN.

George A. Harned, James Wigley,
George C. Partelow, John Leary,
George B. Bradlee, William Jordan,
Peleg Bronsdon, Robert Langan,
Edward M. Corner.

Number of persons applying for lodgings at this station during the year	1,028

PROPERTY.

The property of the department consists of one horse, one democrat wagon, one harness, one sleigh, robe, and blankets.

During the year a new horse has been bought, as the one we had was used up and too old to be longer relied upon to answer calls. It will be necessary this year to buy a new wagon and harness, as they are neither safe, and are unfit for police business.

STATION-HOUSE.

Is in good condition. The wooden doors that were on the cells have been removed, and have been replaced by iron doors, which has made a decided improvement at a small expense.

POLICE TELEPHONE.

The Police Telephone system is worthless. The town at March meeting voted, That a Committee of three be appointed by the Moderator to investigate relative to the introduction into the town of the (so-called) modern Police Telegraph system, and to report conclusions at some future meeting of the town.

CRIME.

We have been remarkably exempt from the depredations of burglars and housebreakers the past season, while nearly all of the towns and cities around us have suffered more or less

severely. No more than two cases of housebreaking occurred the past year where they have got any property, and that was a small amount.

DISCIPLINE, CONDUCT OF THE FORCE, ETC.

The general conduct and discipline of the force has been good the past year. The Deputy Superintendent resigned during the year, and a patrolman was promoted in his place, and a new man appointed as patrolman.

There is a constantly increasing demand for police service in the town, especially during the summer and autumn months.

A great deal of extra work has been done the past year, and it is with pleasure I state that all calls for duty have been promptly and cheerfully responded to.

I would again recommend for your consideration a police route during the day time, from the Boston line at Lower Mills, over Adams street, to East Milton, which would require appointing a day patrolman for the route. Our thanks are due to the engineers of the Fire Department for courtesies received. To the Selectmen I have been under great obligations for the generous consideration they have extended to me.

Respectfully submitted,

MAURICE PIERCE,
Superintendent of Police.

ENGINEER'S REPORT.

To the Honorable Board of Selectmen:

GENTLEMEN: The Board of Engineers herewith presents its annual report on the condition of the Fire Department.

The past year has been a busy one, there having been more alarms of fire and more hours' work done by the call members of the department than in any previous year. The call men have responded promptly to all alarms, and worked willingly and intelligently at all fires. They are paid on the first of May for the services rendered during the previous year. Considering the large amount of work they have done, we think it is right that their pay should be somewhat increased.

Last spring Hose Company No. 4 was practically disbanded, all but one member of the company resigning. Since then we

have been able to secure but one man who was willing to serve, who lived near enough to the hose-house to hear the alarm. The reasons given by the old members were, by some, dissatisfaction with the pay allowed for their services; by others, their inability to hear the alarm.

There is no doubt that the gong on the hose-house is wholly inadequate for sounding the alarm.

We therefore recommend that an electric striker and bell be placed on Hose 4's house, knowing that if this is done a proper company can be organized, and much better fire protection given the western part of the town.

If Houston avenue, running from Mattapan street towards Thatcher street, were continued through to Thatcher street, it would be of great assistance to the department in responding to alarms in the upper part of the Mattapan District.

An arrangement has been made with the Fire Commissioners of Boston, whereby the aid of the Boston department can be called to any part of our town when necessary, by using the public telephone. Heretofore it has been necessary to send a messenger to one of the Dorchester engine-houses if aid was wanted.

Twice during the year we have aided the Boston Department, and once Boston and Quincy have aided us.

EXECUTIVE OFFICERS.

The executive officers of this department are a chief and two assistant engineers.

PERMANENT FORCE.

The permanent force of the department consists of a superintendent of the fire-alarm system, who also has charge of the police-telephone system; one engineer of steamer; and five drivers of apparatus.

CALL FORCE.

The call force consists of forty-two members, assigned as follows:

Engine and Hose 1	12 men.
Hose 2	6 "
Ninety's Hose	6 "
Hose 4	2 "
Hook & Ladder 1	12 "
Chemical Engine	4 "

APPARATUS.

The apparatus in service consists of one steam fire-engine, one ladder truck, one chemical engine, three hose wagons, two hose reels, one hose pung, one supply wagon, and a wagon and a sleigh for the fire-alarm department.

A large amount of work has been done on the apparatus the past year, as follows : four new wheels on chemical engine ; supply wagon overhauled, brake put on, painted, and varnished ; wagon for fire-alarm department overhauled, painted, and varnished ; two new wheels on ladder truck ; brake rearranged and pole shortened on steam fire-engine.

All the apparatus in use, with equipments for same, is in first-class order. There is one old hand-engine and one hose reel not in use.

HORSES.

There are ten horses owned by this department : six are in good condition, two in fair condition, and two almost unserviceable. The last two are the old horses on the chemical engine. They must be replaced this year. They are eighteen years old, and have drawn the chemical engine for thirteen years. A new horse for the fire-alarm department was bought last spring.

HOSE.

The department has 4,500 feet of $2\frac{1}{2}$ inch rubber-lined cotton hose ; of this, 3,500 feet are in good order, 1,000 feet are in fair order. Once during the year the supply of hose has been short. 1,000 feet of new hose should be bought, to replace that portion of the supply that is giving out. The chemical engine

has been provided with 100 feet of new hose, to replace hose that was worn out.

BUILDINGS.

All the buildings are in good repair. Water and electric lights have been put into the Central station and the chemical engine-house. In the Central station the meeting-room and bath-room have been painted, five bedrooms have been papered, and ceilings whitened. Carpets have been placed on the bedroom floors. The outside woodwork and blinds on the chemical engine-house have been painted.

FIRE—ALARM DEPARTMENT.

The fire-alarm system is in most excellent order. The wires in the western half of the town have been rearranged during the year. Protectors to guard against heavy currents have been put into the Central station, and in the spring will be put into all buildings that the fire-alarm wires enter. Electric door-openers have been placed in three stations. A new box, No. 71, has been located at the corner of Granite avenue and Squantum street.

The wires were badly broken down by the heavy wind-storm of August 29, but were soon repaired. Twice during the year wires have been maliciously cut. Fire-alarm boxes should be placed in the following localities:

Northern end of Granite avenue, near railroad crossing.

Corner Edge Hill road and Pleasant street.

Corner Brook Hill street and Canton avenue.

The Poor Farm.

Milton street, near Paul's bridge.

On Blue Hill terrace, off Mattapan street.

There have been thirty bell alarms, one second alarm, twelve telephone alarms, and five still alarms.

The system at present consists of forty-two miles of overhead wire, divided into four circuits, a 4-circuit repeater,

thirty-three signal boxes, two tower bell-strikers, one steam whistle, one 18-inch, two 8-inch, nine 6-inch gongs, with a battery power of one hundred and fifty jars.

For the maintenance and current expenses of this department for the ensuing year, the Board of Engineers recommend an appropriation of $12,900.

Respectfully submitted,

GEORGE F. CHOATE, *Chief.*
ELLERTON P. WHITNEY, *Clerk.*

MILTON FIRE-ALARM TELEGRAPH.

SPECIAL NOTICE.

The fact that an alarm-box is located near their residence, and where the key is kept, should be known to all persons; also the simple manner of giving an alarm in case of fire. The Board of Engineers recommend to all persons who may see this notice, that they make the necessary inquiries to enable them, in case of need, either to get the key and give the alarm, or to direct others to do so. *Time* saved in this way may sometimes prevent a conflagration.

In case of fire, follow these

DIRECTIONS.

Go to the nearest box to the fire.

A sign over each box gives location of keys.

Open the box — pull the lever or hook all the way down *once* and let go.

After giving the alarms remain a while, *if possible*, by the box, so as to direct the firemen to the fire.

Second alarms will be given only by one of the engineers.

CAUTION TO PERSONS HOLDING STATION KEYS.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the engineers at once.

REPORT OF TRUSTEES OF MILTON CEMETERY.

The Trustees of Milton Cemetery herewith present their annual report.

They have given due attention to their duties through the past year.

The general care of the cemetery is sufficient to occupy the whole force we employ, through the entire working season.

There are hundreds of lots and many miles of avenues and paths to be kept in order, besides the care of flowers, shrubs, and trees.

With the opening season the work begins and is extended over the whole territory, of more than thirty-four acres. When this is completed, it begins again, and is repeated over and over until the season closes. Without this constant care and watchfulness, the grounds could not be in condition to meet the sense of what is needful to this sacred place.

Our burial-place should be neat, simple, undisturbed, the home of the birds, of the spring flowers, and of all the outgrowths of nature in her serene and quiet beauty.

To keep it in this condition is the single aim of those intrusted with its care.

No extensive improvements have been undertaken during the period in review, yet it has been a busy year.

Fourteen new lots have been taken up, and seven old lots have been put in order.

Three family tombs have been levelled, filled with soil, and grassed over.

It will be the purpose of the trustees for the ensuing year to give all needful attention to the grounds, and to effect such improvements as circumstances may require.

For this purpose they recommend an appropriation of two thousand dollars.

Respectfully submitted,

A. K. TEELE,
For the Trustees.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The Trustees have held meetings during the year as necessity has required, and at their annual meeting in March, A. K. Teele was chosen Chairman, E. D. Wadsworth Treasurer, and Roderick Stebbins Secretary.

There is little to record concerning the main library except the librarian's report of books added and books taken out by card. Not including the books sent to East Milton, 9,479 volumes have been in circulation during the year, an increase of

325 volumes over the number of the previous year. This increase in the use of the library may be justly ascribed to the growth of the town and to the vote of the Trustees mentioned in the last report, viz. : "That every resident of the town of Milton over fourteen years of age, regardless of the number in the family, be allowed a card with which to draw books from the library."

Although only 202 new books have been added, 24 less than last year, this was because fewer desirable books were published during 1893.

The East Milton reading-room was destroyed by fire on the morning of September 13, and on the 25th of the same month a room was obtained in the parlor of the old Briggs house on Adams street, which the library, in default of a better place, still retains.

This room is entirely inadequate for the purposes of a reading-room, being small and poorly ventilated. It is very important that a better place should be secured, and the Trustees hope that some means may be devised by which this part of the town may be more suitably served.

The residents at East Milton have shown an increasing interest in the advantages offered by the library and reading-room, as the record shows 1,456 public-library books were received instead of 1,225 as in the year previous ; 1,275 periodicals have been borrowed on 116 cards, and this number would have been still greater had the fire not occurred.

Fortunately very little property belonging to the reading-room was destroyed by the fire. One or two reference books were either lost or burned, and the catalogues of the Public Library were so badly damaged by water that they are hardly salable.

"Munsey's Magazine" has been added to both reading-rooms.

Respectfully submitted,

RODERICK STEBBINS,
For the Trustees.

Milton, January 23, 1894.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, APRIL 27, 1887.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after two P.M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the School Committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so

appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall within two weeks after their appointment meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting,

except upon a motion made within one hour of the adoption of such vote, or unless ordered by two-thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of March.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the taxpayers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which over-

draws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish, or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine to run at large in the town, or to feed in any highway or street, either with or without a keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams street, between Churchill's lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the select-

men shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march, or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain upon any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix by paste or otherwise any handbill, placard, notice, or advertisement, or paint, draw, or

stamp the same, or any marks or figures to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree, or structure in the town, without the permission of the owner of such building, fence, wall, tree, or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be

granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws:

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual re-

port thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper, and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery:

1. All persons are prohibited from driving upon the borders.

2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.

3. All persons are prohibited from discharging fire-arms within the grounds of the cemetery, except in case of military funerals.

4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.

5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.

6. Dogs are not allowed within the cemetery grounds.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

AUDITORS' REPORT.

The undersigned herewith present the Fifty-eighth Annual Report of the Town of Milton.

They have examined the accounts and vouchers of the various departments, and believe them to be correct.

JOHN P. S. CHURCHILL,
J. FRANK POPE,
Auditors.

MILTON TOWN RECORDS

FOR THE MUNICIPAL YEAR 1894-95.

SPECIAL MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. To either of the Constables of the Town of Milton. Greeting:

In the name of the Commonwealth of Massachusetts you are hereby requested to notify and warn the inhabitants of the town of Milton, qualified to vote in town affairs, to meet at the Town Hall, in said Milton, on Saturday, the third day of February next, A.D. 1894, at half-past seven o'clock, P.M., then and there to act upon the following articles, to wit:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the town will separate the offices of Selectmen and Assessors of Taxes, so that there may be two separate Boards, and, if yea, to provide for the election at the annual town meeting in March, 1894, of a Board of three Assessors of Taxes, who shall hold office for one, two, and three years, respectively.

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place, and for the purpose therein mentioned, by posting copies of this warrant in the post-offices of said town fourteen days at least before the time

of said meeting, and distributing printed copies at the dwelling-houses in the town.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk at the time and place of said meeting aforesaid.

Given under our hands at Milton, this twelfth day of January, A.D. 1894.

J. ALBERT SIMPSON,
SAMUEL A. MORSE,
JOHN F. BROWN,
Selectmen of Milton.

NORFOLK, ss. Feb. 2, 1894.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Milton, qualified as therein expressed, to meet at the time and place, by posting copies of this warrant in the post-offices of the town, and leaving copies at the dwelling-houses within named.

PETER McINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the town of Milton, held according to the foregoing warrant upon

FEBRUARY 3, 1894,

the following proceedings were had upon the several articles in said warrant, namely:

ARTICLE 1. George R. R. Rivers, Esq., was chosen Moderator.

ART. 2. Voted, That the town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of the Legislature of Massachusetts, passed in the year 1893, and that at the Annual Town Meeting to be held in March, 1894, a

separate Board of Assessors, consisting of three members, shall be elected by ballot; one to serve for one year, one for two years, and one for three years, and thereafter at each Annual Town Meeting, one Assessor shall be elected by ballot to take the place of him whose term of office shall have then expired.

Voted, To dissolve the meeting.

A true record.

Attest:

HENRY B. MARTIN,
Town Clerk.

MARCH MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. To either of the Constables of the Town of Milton. Greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in town affairs, to meet at the Town Hall, in said Milton, on Monday, the fifth day of March next, at nine o'clock, A.M., then and there to act upon the following articles, to wit:

Art. 39. To see if the town will accept Otis street, running between Adams street and Edge Hill road.

Art. 40. To see what action the town will take relating to the management and investment of money now or hereafter held by the town for the care of Cemetery, lots for parks, for the Library, or for any other public purposes.

Art. 41. To see if the town will vote that a committee of five be appointed who shall consider and report in print, at the next annual meeting, a code of rules and regulations adapted to the Town of Milton, to govern the method of construction in all its branches, also location and arrangement of all buildings that in the future may be built, altered, or added to, said regulations to apply only to the structural, sanitary, and fire safety of said buildings.

Art. 42. To see if the town will accept as a town way Brook Hill road, so called, the same being at present a private way running from Canton avenue, near the top of Milton hill, to Eliot street, near its junction with Central avenue.

Art. 43. To see if the town will appropriate a sufficient sum of money to place a fire-alarm box at the Poor Farm.

Art. 44. To see if the town will authorize the Selectmen to make a contract for street lighting for a term of five years.

Art. 45. To see if the town will authorize the Assessors to have a plan made of the different estates in the town for the use of the Assessors, and appropriate money for the same.

Art. 46. To see if the town will appropriate money for a

drinking fountain to be located at the junction or nearest point of approach of Canton avenue, Blue Hill avenue, Brush Hill road, and the path leading to the top of Great Blue hill.

Art. 47. To see if the town will grant a permit in the property situated in the easterly section of the Town of Milton, commonly known as the Evans farm, sometimes called "Mt. Hope," bounded as follows: Northerly by the Granite Branch of the Old Colony System of the N.Y., N.H. & H. R.R., easterly by the City of Quincy, southerly by marsh, now or formerly of Babcock and others; westerly by Granite avenue. The above-described premises to be used for burial purposes.

Art. 48. To see if the town will vote that the Assessors shall consider any actual surplus of the town that is on hand at the close of the fiscal year, or such portion of the surplus as would remain after deducting from it any amounts made payable from it by vote of the town, as a sum already provided by the preceding annual assessment for the expenses of the year next following.

Art. 49. To see if the town will vote that it is the sense of this town that: that portion of the statute that reads "Assessors may deduct from the amount required to be assessed the amount of all estimated receipts of their respective cities or towns (except from loans or taxes) which are lawfully applicable to the payment of the expenditures of the year, but such deduction shall not exceed the amount of such receipts during the preceding year" shall be construed to mean that each year a deduction, equal to such receipts during the preceding year, shall be made without rebate.

Art. 50. Whereas, the town passed the following vote at the March meeting of 1893: "Voted, that the School Committee be authorized to purchase land and erect a new building for school uses in the East Milton District, and expend, or contract to expend, not exceeding $29,500 for said land and buildings, and that the sum of $15,000 be appropriated to meet such expenditures," — be it voted that the sum of $14,500,

the expenditure of which was authorized by the above vote, but which was not appropriated at the time the vote was passed, be now appropriated and made specifically payable from the surplus of the year 1893.

Art. 51. To see if the town will vote to sell four shares of Blue Hill National Bank stock that it owns, and apply the proceeds to the appropriation of the current year, and hereby authorize the Town Treasurer to perform all necessary acts to give a good title to and secure the transfer of said shares.

Art. 52. To see if the town will vote to amend the By-Laws so as to make them conform with the actual methods of doing business of the town that have prevailed during the past year, by striking out the word "January" in Section VII. and inserting in place of it the word "March," so as to read: "The financial year shall begin with the first day of March." By striking out the word "financial" in the fifth line of Section VIII. and inserting in place of it the word "calendar," and by striking out the word "current" in the eighth line of Section VIII. and inserting the word "ensuing," so as to read: "The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the taxpayers of the Town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year."

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place for the purposes therein mentioned, by posting copies of this warrant in the post-offices of said town, fourteen days at least before the time set for said meeting, and distributing printed copies at the dwelling-houses in said town.

Hereof fail not, and make due return of this warrant with

your doings thereon to the Town Clerk, at the time and place of said meeting.

Given under our hands, at Milton, this 13th day of February, A.D. 1894.

J. ALBERT SIMPSON,
SAMUEL A. MORSE,
JOHN F. BROWN,
Selectmen of Milton.

NORFOLK, ss. MILTON, Feb. 19, 1894.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Milton qualified, as therein expressed, to meet at the time and place, by posting copies of this warrant in the post-offices of the town, and leaving copies at the dwelling-houses, as within directed.

JAMES D. DAVENPORT,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant, upon

MARCH 5, 1894,

the following proceedings were had upon the several articles in said warrant, namely:

ART. 18. *Voted*, To appropriate the sum of five hundred dollars for expenses of the Health Department the ensuing year.

ART. 19. REPORT OF COMMITTEE ON DRAINAGE.

To the Citizens of the Town of Milton:

The Committee on Drainage appointed in March, 1892, with instructions to report to the town within three years, begs leave now, at the end of two years, to make the following report as to what has been already done.

After careful consideration, and on the advice of competent authority, the committee secured the services of Mr. Geo. A. Kimball as engineer in designing a system of sewerage.

Mr. Kimball has already done similar work for other towns, and is at present in charge of the system of sewerage which is being laid out in Brockton.

The Committee has been much pleased and well satisfied with Mr. Kimball's work.

The surveys necessary to design a system of sewerage have been made by Mr. C. E. C. Breck, who has prepared a contour map of the town which will be valuable for all time.

Although most of the technical work has been completed, your Committee could not make a final report at this meeting, owing to the fact that it has not yet been able to ascertain whether the town will be allowed to enter the Boston sewer, which seems to be the most feasible plan for the final disposal of the sewage, if it can be done on favorable terms.

Due consideration has been given to the future, as well as to the present, needs of the town, and at the next meeting the Committee hopes to report a satisfactory plan for sewerage, and to make recommendations as to the parts of the town most urgently needing attention.

Respectfully submitted,

M. V. PIERCE,
E. D. WADSWORTH,
JOSEPH E. HALL,
ELLERTON P. WHITNEY,
HENRY E. SHELDON.

MILTON, Feb. 23, 1894.

Voted, That the above report be accepted by the town.

Art. 20. The name of Edward M. Corner being first stricken from the list, it was

Voted, That the following List of Jurors, prepared and presented by the Selectmen, be accepted by the town, to wit:

LIST OF JURORS.

REPORT OF COMMITTEE.

To the Citizens of the Town of Milton:

The undersigned, having been appointed by the Moderator of the last Annual Town Meeting, held the 6th of March, 1893, a committee to investigate relative to the introduction into the town of the (so-called) modern police telegraph system, and to report conclusions at some future meeting of the town, have the honor to report as follows:

We are informed that your Police Department, for nearly four years, has been dependent upon a telephone signal system that was furnished by the New England Telephone and Telegraph Company, for which an annual rental has been paid of $480, and that it is not considered satisfactory by the department, nor is it believed by the Telephone Company that it can be improved or made to operate successfully.

We feel the department is justly dissatisfied with a system that its furnishers say does not work accurately, and cannot be made to, and if any fault for this condition of affairs exists today, it seems to us it is not with the department, nor with the company that furnished the plant (for they state they said, when it was ordered, that it would not be entirely reliable), but rather with the citizens in allowing the present condition to continue until nearly $2,000 has been paid in rentals for so inadequate a device.

In regard to the modern police telegraph system (to investigate and report upon which was the immediate cause of the appointment of your Committee), we beg to say that we have inspected the Gamewell and Municipal Companies' devices,

and they appear to be very much alike, both being in extensive use throughout the country.

These systems consist of a central office equipment, which is divided into as many circuits or districts as the size of the community to be served would require. It is thought the town of Milton would for the present derive the best results from a four-circuit outfit, having on each circuit five boxes, making twenty in all. The number of boxes on each circuit could be doubled as the future requirements of the department might demand without impairing the service.

In these boxes is an automatic telegraph apparatus that records at the main office the time, number of box, and other signals, that keep the patrolmen in touch with the head of the department whenever the box is unlocked for this purpose.

There is also in each box a superior telephone apparatus by which conversation can be had at any time with the main office.

The boxes are opened by two keys, one of which is used by the patrolman; the other, called the citizens' key, when used becomes trapped, so that it cannot be released from the lock except by the patrolman's key. This is supposed to establish responsibility, and prevents the giving of needless alarms.

We are advised that such a plant as described above would cost seven thousand dollars, and we strongly recommend the town to make such an appropriation.

There would also be an annual rental of $15 per box for the telephone attachment, which with the set in the main office would make $315 per annum, when, we understand, we are now paying $480.

In closing, we would say that we consider it unwise for the town of Milton to spend $12,000 a year upon its Police Department, and yet deprive it of the benefit of the best appliances to produce corresponding results, and thereby subject it to the danger of what we consider to be unjust criticism.

We think it better to furnish this modern equipment, and then demand of the department a high grade of service, which we have no doubt will be forthcoming.

All of which is respectfully submitted by your Committee.

JOSEPH E. HALL,
J. HENRY BROOKS,
M. V. PIERCE.

MILTON, Feb. 20, 1894.

ART. 25. *Voted*, That the above report be accepted, the recommendations adopted, and the sum of seven thousand dollars appropriated to be expended in furtherance of said object under the direction and supervision of the above-named Committee.

ART. 26. *Voted*, That the sum of three thousand five hundred dollars be appropriated to complete Eliot-street extension.

ART. 27. *Voted*, That the sum of one thousand five hundred dollars be appropriated for repair of pier on the west side of Granite bridge.

ART. 28. *Voted*, That the sum of one hundred thirty dollars be appropriated for the placing of a fire-alarm box at the corner of Canton avenue and the private way known as Brook Hill street.

GRANITE AVENUE AND SQUANTUM STREET.

REPORT OF COMMITTEE.

MILTON, Feb. 26, 1894.

To the Citizens of the Town of Milton:

GENTLEMEN: Your Committee appointed at the Town Meeting held in March, 1893, to take into consideration Articles 28 and 35, which were taken up in conjunction, report as follows:

The Committee found affairs at the junction of Granite avenue and Adams street in a very complicated state. In 1825 a charter was granted to the Granite Railway Company to build a track and lay iron rails over which to transport stone to the Neponset river. In 1837 a charter was granted to the Granite Bridge Company to build a turnpike from Adams street to the Neponset river, and to build a bridge over said river. The corporation laid out said turnpike, a portion of the same parallel to and on track of said Granite Railway Company, thus making a highway over and on said railroad.

This road or turnpike, not proving a paying investment, was abandoned by the corporation in 1865. The same year the county took possession of said turnpike and relocated it, changing the location a trifle at the junction of Adams street, overlaying the tracks of the Granite Railway Company a little more than was done by the corporation in laying out the Granite Bridge turnpike, thus making it a county road, a part of which was located on and over the track of the Granite Railway Company.

In 1870 the Granite Railway Company sold their entire track to the Old Colony Railroad Corporation, and later it went into the hands of the New York, New Haven & Hartford Railroad. Soon after the sale to the Old Colony Railroad Company, the fence, as it now stands, was erected by the Old Colony Railroad, thus taking from the highway a part of the road which was laid out by the Granite Bridge Corporation and a Board of County Commissioners.

Your Committee feel that it is important that Granite avenue at this junction should be widened at once, but think that the cost of widening should be borne — at least a part of the same — by the New York, New Haven & Hartford Railroad, or the county, or both. Your Committee had no power to make any agreement or compromise in the settlement of this affair.

They, therefore, recommend that a committee be chosen at the next March meeting, and this said committee petition the County Commissioners to define the line of Granite avenue, and also to relocate the same. They also recommend that your committee have power to settle, as they think just and right, with the county and railroad, and that the sum of three thousand dollars be appropriated for the same, said sum to be expended in widening or repairing Granite avenue from Adams street to Squantum street, and that the above work be carried out as soon as practicable.

And your Committee further recommend that the same committee be empowered to petition the County Commissioners to widen Granite avenue from Squantum street to the Neponset river, and to petition the Selectmen to widen Squantum street from Adams street to the Quincy line, provided that no land damages be paid by the town, either on Squantum street or on Granite avenue from Squantum street to the Neponset river.

And they also recommend that the Committee have two years in which to complete this last work, and they recommend that five hundred dollars be appropriated for the same.

After consultation with the Sewerage Committee, we are of the opinion that it would not be a wise expenditure of money to construct a permanent or Telford road in this locality at the present time.

Respectfully submitted,

SAMUEL GANNETT, *Chairman*,
GRANVILLE S. WEBSTER, *Secretary*,
O. W. PEABODY,
J. FRANK POPE,
ELLERTON P. WHITNEY.

ART. 29. *Voted*, That the above report be accepted, and that the present Committee be continued with full power to adjust the whole matter referred to in their report; to bring petition, or institute any suitable proceedings either before the courts or any commission or public authority, in order to effect results recommended in that report, and with full authority, in the settlement of the matters with any persons or corporations, to bind the town by suitable written contract.

The Committee to report their doings in print at the next annual meeting of the town.

And that the sum of three thousand dollars and also the further sum of five hundred dollars be appropriated as recommended, and for the purposes as indicated in their report; it being declared to be the sense of the town that Granite avenue is of importance as a county, rather than a Milton, town way, and as such should be taken in charge and improved by county officials and at the county expense.

ART. 30. No action taken, the Moderator ruling it not in order.

ART. 31. *Voted*, That the sum of five hundred dollars be appropriated for Insurance on Town Buildings the ensuing year.

ART. 32. *Voted*, To indefinitely postpone.

ART. 33. *Voted*, That the sum of one thousand five hundred dollars be appropriated for the transportation of pupils to and from the High School, and such other school transportation as the School Committee may deem advisable.

ART. 34. *Voted*, To indefinitely postpone.

ART. 35. *Voted*, That the sum of five hundred dollars be appropriated for the construction of a plank walk on Blue Hill avenue, from the Mattapan station, O.C. R.R., to Tucker street.

ART. 36. *Voted*, That the sum of three hundred dollars be appropriated for payment of expenses incurred by Park Commissioners.

ART. 37. *Voted*, To indefinitely postpone.

ART. 38. *Voted*, That the sum of one thousand dollars be appropriated to purchase a fire-bell and an electric striker for the same, to be located in the west section of the town.

ART. 39. No action taken, the Moderator ruling it not in order.

ART. 40. *Voted*, That the subject-matter of this article be referred to a committee of three, to be appointed by the Chair, and to report to the town at some future meeting.

COMMITTEE APPOINTED.

H. E. Ware, G. S. Webster, C. H. Whalen.

ART. 41. *Voted*, That the subject-matter of this article be referred to a committee of five, to be appointed by the Chair, and who shall report in print at the next annual meeting of the town.

COMMITTEE APPOINTED.

John H. Burt, F. Elliot Cabot, B. Hamilton, P. Cunningham, George T. Tilden.

ART. 42. No action taken, the Moderator ruling it not in order.

ART. 43. *Voted*, That the sum of one hundred ninety dollars be appropriated for a Fire-Alarm Box to be located at the Poor Farm.

ART. 44. *Voted* (see Article 12).

ART. 45. *Voted*, That the town authorize the Assessors to have a plan made of the different estates in the town for their use, and may contract to expend the sum of three thousand dollars for said purpose.

ART. 46. *Voted*, That the sum of three hundred dollars be appropriated for a Drinking Fountain to be located near the foot of great Blue Hill.

ART. 47. *Voted*, To indefinitely postpone.

SPECIAL MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. To either of the Constables of the Town of Milton, greeting:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in town affairs, to meet at the Town Hall in said Milton on Wednesday, the twenty-eighth day of November next, at half-past seven o'clock in the afternoon, then and there to act upon the following articles, to wit:

ARTICLE 1. To choose a Moderator.

ART. 2. To see if the Town will accept Chapter 324 of the Acts of the Legislature of 1894, entitled "An Act relative to the Reservation of Spaces in Public Ways."

ART. 3. To see if the Town will vote to instruct the Selectmen to petition the Legislature for such legislation as will require that any location hereafter granted to any Street Railway in the Town of Milton shall be in such reserved spaces as are authorized by Chapter 324 of the Acts of the Legislature of 1894.

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place, and for the purposes therein mentioned, by posting copies of this warrant in the post-offices of said Town fourteen days, at least, before the time set for said meeting, and distributing printed copies at the dwelling-houses in said town.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk at the time and place of said meeting.

Given under our hands at Milton, this ninth day of November, A.D. 1894.

J. ALBERT SIMPSON,
JOSEPH C. WHITNEY,
GEORGE W. NICKERSON,
Selectmen of Milton.

NORFOLK, ss. Nov. 27, 1894.

By virtue hereof, I have posted copies of this warrant in the post-offices of said town, fourteen days before said meeting, and printed copies have been distributed at the dwelling-houses in said town as herein required.

PETER McINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to a warrant of which the foregoing is a copy, upon

NOVEMBER 28, 1894,

the following proceedings were had upon the several articles in said warrant, namely:

ARTICLE 1. Hon. Edward L. Pierce was chosen Moderator.

ART. 2. *Voted*, That the town hereby accepts the provisions of Chapter 324 of the Acts of the Legislature of 1894, entitled: "An Act relative to the Reservation of Spaces in Public Ways."

Article Third being taken up for consideration, Mr. John C. Cobb asked permission to present a resolution. It was thereupon

Voted, That Article Third be laid upon the table.

Voted, That Mr. Cobb be allowed to present said resolution, viz.:

Resolved, That it is the sense of this meeting that the Selectmen should grant a location substantially as asked for by the Quincy & Boston Street Railway, in its amended petition, on Willard street, in a reserved space adjoining the location of the New York, New Haven & Hartford Railroad.

The above resolution being read, it was

Voted, That it be accepted.

Voted, That Article Third be taken from the table.

ART. 3. *Voted*, That a committee, to consist of the Selectmen and six citizens (one of whom shall be the Moderator of this meeting, the others to be by him appointed), be authorized and instructed to petition the Legislature for such legislation as will *require* that any location hereafter granted to any street railway in the Town of Milton shall be in such reserved spaces as are authorized by Chapter 324 of the Acts of the Legislature of 1894.

Moderator's appointments as above:

John C. Cobb, Horace E. Ware, Ellerton P. Whitney, H. Clifford Gallagher, J. W. Bradlee.

Voted, To dissolve the meeting.

A true record.

Attest:

HENRY B. MARTIN,
Town Clerk.

SELECTMEN'S REPORT.

The Board of Selectmen elected at your last Annual Meeting have had reason to realize during the year for which they were elected that Milton is no longer a quiet country town, but the suburb of a large city that many of our present citizens make their standard of efficiency, and that the constantly growing demands for increased service in the different departments of the town, which to-day cover all such as are most important in the city of Boston, a general sewerage system and a hospital only excepted, will tend to increase in the near future rather than to diminish.

There are now before the citizens of the town, as well as before the Legislature and directly affecting the welfare of the town, many subjects for consideration. The chief one is such a metropolitan form of government for the cities and towns in our vicinity as will absorb much that has heretofore been left to local self-government, and, as branches from the main question and discussed separately, a metropolitan sewerage system, a metropolitan water supply, and a consolidation of police forces. These questions will be met and answered before long, but, whatever decision the Legislature may make, the sentiment among our citizens, as frequently expressed, undeniably is, that we prefer to govern ourselves in our own way and not be forced into special legislation until we ask for it, or unless it is left optional with us whether to accept it or not. The Metropolitan Park System is no longer a subject for consideration except as a fact. There have been 1,376 acres, one-sixth of the area of the town, taken for park purposes. The boulevard that will follow the line of Mattapan street, a portion of Harland street,

and cross the Pine Tree brook meadows to the hills, if it is not yet a fact is something that this Board is assured soon will be, and that it will have as a prominent feature an electric railway operating in a grass-grown reserved space between two driveways. The Board has retained the services of Mr. Moorfield Storey, of Brookline, to represent the interests of the town before the commissioners who have been appointed by the Supreme Court to apportion the expenses of the Metropolitan Park System.

On the petition of the Milton & Boston Street Railway Company for a location over which to operate electric cars from Mattapan to East Milton, a hearing was ordered for October 16. At the hearing only one citizen of the town expressed himself as in favor of granting of the location. A petition in remonstrance signed by four hundred and two citizens was presented, and on the same day this Board voted to refuse the location asked for.

On the petition of the Quincy & Boston Street Railway Company for a location in East Milton from Willard street at the Quincy line over Granite avenue, and across Adams street to a place opposite the East Milton Railroad Station, a hearing was ordered for November 27. A petition signed by most of the residents of East Milton was presented in favor of granting the location, and remonstrants asked for delay till the action of the town on the question of limiting electric cars to reserved spaces, that was to be considered by the special town meeting of November 28, was defined. In accordance with the vote of the town meeting, there is now before the Committee of the Legislature on Street Railways a bill that limits locations for electric cars in Milton to spaces reserved either in existing highways at their present width or to be widened, or to spaces in new roads to be made hereafter; the reserved spaces to be laid out by the Selectmen and accepted by the town in the same way that roads are widened or established. The Selectmen have given no decision on the petition of the Quincy &

Boston Street Railway Company, as they understood the action of the town meeting to imply a request to grant no locations except in reserved spaces, till the Legislature has acted on the bill before it; besides, it is doubtful whether, under the statute relating to reserved spaces that the town accepted at the special town meeting, they are given authority to lay out a reserved space in an existing highway at its present width, in which no other change is made. As the railway company has experienced delay in securing its location in West Quincy, there has been no urgency to act upon its petition. It is the opinion of this Board, however, that whether the bill before the Legislature becomes a law or not, the location should be granted next to the steam railroad as far as Adams street, the question of limitation as to location being the only one in doubt.

Appointments were made on March 26, as follows:

Mr. Charles Mitchell, Superintendent of Highways, and except for seventeen days in July and August he has served during the year; Mr. Maurice Pierce, reappointed Superintendent of Police; the former Board of Engineers was also reappointed. August 13, Mr. Walter T. Cook was appointed Master of the Almshouse and Superintendent of the Town Farm. Mr. Joseph Holmes, reappointed Inspector of Provisions and Animals March 26, resigned December 5, and Mr. James Spencer was appointed to fill the vacancy. This office has by recent legislation been rendered more onerous than formerly. It is needless to give details, for those who keep cows are the ones most interested, and know all details by this time; others are referred to the notice ordered to be printed three times in the "Milton News."

In May the right was bought to take gravel for ten years from the hill on Vose's lane, above an established grade, for $1,000. In June a new watering-cart was bought and placed in the village, and one of the old carts was transferred to the West District, where a new watering-route was established. Eliot street was completed and opened for travel in the latter part

of July. The land damages on Eliot street have been settled with one exception, where about six thousand feet of land were taken from a lot of fifteen thousand feet. The owner of this lot has a suit pending against the town, and has rejected liberal offers of settlement. A drinking-fountain of the Concord pattern has been placed at the foot of Blue Hill in accordance with the vote of the town; and the plank walk voted for Blue Hill avenue at Mattapan has been built. The westerly pier of Granite bridge has been thoroughly rebuilt, as was voted by the town. The piles are of oak, cut from the town lot on Randolph avenue. A liberal balance of the appropriation made for this work remains unexpended. When the Superintendent of the Almshouse was appointed, the house was found to be inadequately furnished. Over three hundred dollars have been expended in refurnishing. Under the contract with the Milton Light and Power Company that the vote of the town called for, the quality of the light furnished has shown improvement, so that the last test of twenty lamps, which was made in December, showed 24.515 to be the average candle power, as against 25 called for by the contract.

In regard to particulars of the different departments, reference is made to the report of the superintendent of each department.

In accordance with Chapter 53 of the Public Statutes, guide-posts have been placed wherever in the opinion of the Selectmen they ought to be erected and maintained, and the report thereof is hereby submitted to the inhabitants of the town.

We recommend that sidewalks for which special appropriations are made be built of raised and crowned concrete, ash, or gravel, rather than of wood, as plank walks decay rapidly and become a constant source of complaint and danger.

The action of the Board has been unanimous on most questions that have come before it for consideration; there

have been some differences of opinion, however, on certain matters affecting the management of the Highway Department, and Mr. Whitney, who has been in the minority, wishes to state that while not questioning the propriety of the majority controlling, he wishes to disclaim responsibility for much that has been done in this department. In general, his position is that the direction of the Highway Department should be more fully assumed by the Selectmen, and less discretionary power be allowed the Superintendent.

GEORGE W. NICKERSON,
JOSEPH C. WHITNEY,
Selectmen of the Town of Milton.

ANNUAL REPORT OF THE SUPERINTENDENT OF STREETS.

MILTON, MASS., Jan. 1, 1895.

To the Honorable Board of Selectmen:

GENTLEMEN: The Superintendent of Streets herewith submits the following report for part of the year eighteen hundred and ninety-four.

Not knowing the expenditures on the Street Department previous to my assuming the position, I cannot give a detailed account, so I will leave the pay-rolls and vouchers to show what has been done under my supervision. I will merely mention a few improvements made.

PAVING.

Eight thousand pavers have been laid in different parts of the town.

Also six new catch-basins with iron gratings and drains attached have been placed in various parts of the town.

FENCES.

Three thousand feet of new fence have been built and old fences repaired.

CULVERTS.

Thirteen culverts were lifted and relaid.

BRIDGES.

Mattapan bridge replanked. Central-avenue bridge replanked. Granite bridge replanked and draw repaired. Also old pier repaired with iron clamps. New pier was also built here, complete. Railroad bridge on Eliot street was so thoroughly worn out that it had to be completely rebuilt with new material.

Cart-sheds at Town Farm repaired. Also a new building (20 × 40) for steam roller and tools was built on town land on Randolph avenue.

Two new snow-plows were built. One new watering-cart provided.

REMARKS.

Watering-carts were run on an average of eighty-two days during the season. The fourth cart was started on the Brush Hill District about the middle of June.

The subject of watering the streets is very important, as it is essential to the comfort of those using the streets, and also tends to keeping them in repair to a large extent. I would like to suggest that another cart be provided, as the routes generally are so long that the roads are watered only once a day, which is not sufficient.

I would suggest that three thousand dollars ($3,000) be appropriated for the watering of the streets alone.

I call your attention to the stock and tools belonging to the Highway Department. From previous reports it would be taken for granted that these were in fine condition. This is misleading, as I found them to be in very poor condition.

Two of the carts were rebuilt; the third will also have to be rebuilt before the season opens.

Two new sets of double harness were bought, as the old ones were past use.

Something should be done about the horses. Two of these

have served the town faithfully for almost fifteen years, and are not fit for heavy work, especially in the watering-carts. I think a heavier team is required.

Respectfully yours,

CHARLES MITCHELL,
Superintendent.

SUPERINTENDENT'S REPORT.

MILTON, Jan. 1, 1895.

To the Honorable Board of Selectmen:

GENTLEMEN: I have the honor to present my annual report of the work of the Police Department for the year ending Dec. 31, 1894.

ORGANIZATION.

Superintendent. — Maurice Pierce.
Deputy Supt. — Timothy McDermott.
Keeper of Lock-up. — Edwin A. Houghton.

PATROLMEN.

George A. Harned, James Wigley,
George C. Partelow, John Leary,
George B. Bradlee, Robert Langan,
Edward M. Corner, Fred. M. Farrington,
Thomas H. Welch.

Two patrolmen resigned during the year. The vacancies were filled by the appointment of Fred. M. Farrington and Thomas H. Welch.

PROPERTY.

The property of the department consists of one horse, new patrol-wagon and harness, one democrat wagon, one sleigh, robes, and blankets, all in good condition.

POLICE SIGNAL SYSTEM.

The Police Signal System (the Gamewell) has been introduced into the town the past year by the committee appointed at the March meeting, and has been accepted by them after a thorough trial. It is giving perfect satisfaction.

This system enables the officer in charge at the station to promptly notify every officer on patrol through the town of any events requiring especial watchfulness or particular attention; also enabling the patrolmen to communicate any important information direct to the officer in charge.

A new patrol-wagon and harness have been bought and added to the system, which have made it complete.

I would recommend a day man appointed for duty at the station. When I am called away it will leave a man in charge to answer calls. As it is now, if called out, it leaves no one at the station, and to have the police system perfect there should be a man on duty at all times, day and night.

DISCIPLINE, CONDUCT OF THE FORCE, ETC.

No serious offences have occurred the past year. Good order has generally prevailed.

The year just closed has been a creditable one in the work of this department. The conduct of the officers and patrolmen as a rule has been excellent. We do not expect to escape criticism. Often harsh criticism is made when, if the facts were fully known, commendation would be in order.

We have a well-equipped Police Department, thanks to the Board of Selectmen and Committee on Police Signal System, and with our patrol wagon it is second to none.

In concluding, I desire to extend to the Selectmen my sincere thanks for their courtesy and generous consideration; also to many good citizens for valuable information and assistance; and to the members of the Department who have aided me in the discharge of my duty.

Respectfully submitted,

MAURICE PIERCE,

Superintendent of Police.

ENGINEER'S REPORT.

To the Honorable Board of Selectmen:

GENTLEMEN: The Board of Engineers herewith presents its annual report on the condition and needs of the Fire Department.

The past year has been a most fortunate one for the town as far as the actual loss by fire is concerned, there having been no large fires. There is, however, an increase in the number of fires reported. The greater portion of these were discovered and extinguished in their incipiency. It must be admitted that our freedom from loss was due more to good fortune than to any decrease of the town's fire hazard.

A tower and 1,600-lb. bell and striker have been placed on Hose 4's house this season, giving great satisfaction and greatly increasing the value of that piece of apparatus.

In response to a demand for better fire protection from citizens of the Mattapan District, we have, with a grant of money made us by the Warrant Committee for the purpose, placed a gong connected with our fire-alarm circuit in Engine 19's house on the Dorchester side of the river, and the Boston Fire Commissioners have ordered Engine 19's company to respond to alarms from our four boxes in Mattapan.

We have also had cards printed stating the location and number of nearest box, etc., to three of the Mattapan boxes. One of these cards has been left at each house so that there may be no excuse for delay in giving an alarm when necessary.

We now advocate the three following measures for the better protection of Mattapan:

1st. Placing a 1,600-lb. bell on the Mattapan Schoolhouse to give the alarm to our men in Mattapan, and also to the call members of Engine 19's company.

2d. Building Houston avenue through to Thatcher street.

3d. Building a driveway from near the front of the Central

Fire Station, across the High School lot, to Clapp street, and improving Clapp street, in order to save the time of apparatus at the Central Station in responding to alarms from Mattapan. We have explained what we wish to do to the School Committee and have their hearty coöperation.

If these three measures are adopted, we think the Mattapan District will have the best fire protection of any portion of the town.

The upper story of Hose 2's house at East Milton should be finished off into rooms, in order that men may sleep in the house. In case of night alarms, the value of this improvement would be self-evident.

The conduct of the members of the department during the year has been exemplary, and all things pertaining to the department are in excellent condition.

The law passed by the Legislature of 1894, creating a State Fire Marshal and giving increased powers to fire engineers is a most beneficial one, and is sure to cause a decrease of incendiary fires, as the chances of detection and punishment are so greatly increased.

Once during the year the Boston Department has been called into Milton, and six times the Milton Department has been called into Boston. This exchange of services is mutually satisfactory.

At the wood fire of September 2, we received valuable assistance from the Blue Hills Reservation police, who were paid for their services.

This Board has received during the year many suggestions from citizens in regard to increasing the companies and apparatus of the department. These suggestions, while well meant, do not seem to us to have been well considered. We desire to put ourselves on record as being of the opinion that the town has fire companies enough for several years to come, and that its true policy is to bring what it already has to the highest state of efficiency, doing something each year to that end, and not to increase the size of the department.

EXECUTIVE OFFICERS.

The executive officers of the department are a chief and two assistant engineers.

PERMANENT FORCE.

The permanent force is the same as last year, consisting of a superintendent of wires, who also has charge of the fire-alarm and police-signal systems; one engineer of steamer; and five drivers of apparatus.

CALL FORCE.

The call force consists of forty-four men, assigned as follows:

Engine and Hose 1	12
Hose 2	6
Hose 3	6
Hose 4	4
Hose and Ladder 1	12
Chemical Engine	4

The pay of all call men was increased this year:

Hose 1, Ladder 1, and Chemical 1, from $35 to $50.

Hose 2, from $20 to $35.

Hose 3 and 4, from $20 to $25.

Considering the amount of time Hose 1, Ladder 1, and Chemical 1 men are called upon to give fire-duty, and the value of clothes they spoil, we think they should be paid $75 a year, and the other companies in proportion.

APPARATUS.

The apparatus in service consists of one steam fire engine, one ladder truck, one chemical engine, three hose wagons, two hose reels, one hose pung, one supply wagon, and a wagon and sleigh for the department of wires.

A new wagon has been bought for the department of wires, four new wheels have been put on Hose 1 wagon, and two new

front wheels on the ladder truck. All apparatus and equipments are in first-class order.

There is one old hand engine, one hose reel, and one wagon for the department of wires not in use.

HORSES.

There are eleven horses owned by this department, eight in good condition, two in fair condition, and one very old horse.

Two new horses have been bought, one for the chemical engine and one for the steamer.

The horse taken from the steamer is being used on the chemical engine.

Of the two old chemical-engine horses one is being used on Hose 2, giving that piece of apparatus a double team. He will do very well there for a year or two. The other horse has been put on to a farm where he will have light work and good care for the rest of his life.

HOSE.

The department has 4,500 feet of 2½-in. rubber-lined cotton hose. Of this 3,000 feet are in good order, 1,500 feet are in fair to poor order.

If the department is to be kept up to the mark, it is absolutely necessary that 1,000 feet of new hose should be bought this year.

BUILDINGS.

All buildings are in good repair. A new floor has been laid in the stable and rear of apparatus-room of the central station. One chimney on the chemical engine-house has been rebuilt. The chimneys on the central fire station are in need of attention. Hose 2's house should be finished as before mentioned, and some repairs are needed in the chemical engine-house.

FIRE-ALARM DEPARTMENT.

The fire-alarm system is in excellent order. The wires in the central and southern portions of the town have been rearranged during the year.

The wires were all cut to pieces and the system rendered useless by the sleet storm of April 9, but were got into passable order again in about two days. Old box number 47 is now 17; 48 is 27; and 38 is 41.

Two new boxes — 47, corner Canton avenue and Brook Hill street, and 512, at the Town farm — have been added to the system; so also has the bell and striker at Hose 4's house, and several 6-inch gongs.

Fire-alarm boxes should be placed in the following localities:

North end of Granite avenue, near railroad crossing.

Corner Edge Hill road and Otis street.

Corner Edge Hill road and Pleasant street.

Milton street near Paul's bridge.

Blue Hill terrace.

Corner Eliot street and Oak road.

There have been twenty-six bell alarms, six telephone alarms, and eighteen still alarms.

The system at present consists of forty-four miles of overhead wires divided into four circuits, a four-circuit repeater, thirty-five signal boxes, three tower bell strikers, one steam whistle, one 18-inch, two 8-inch, 12 6-inch gongs, with a battery power of 150 jars.

For the maintenance and current expenses of this department for the ensuing year, the Board of Engineers recommend an appropriation of $15,000.

Respectfully submitted,

GEORGE F. CHOATE,
ELLERTON P. WHITNEY,
HORACE N. PLUMMER,
Board of Engineers.

MILTON FIRE-ALARM TELEGRAPH.

SPECIAL NOTICE.

The fact that an alarm-box is located near their residence, and where the key is kept, should be known to all persons; also the simple manner of giving an alarm in case of fire. The Board of Engineers recommend to all persons who may see this notice, that they make the necessary inquiries to enable them, in case of need, either to get the key and give the alarm, or to direct others to do so. *Time* saved in this way may sometimes prevent a conflagration.

In case of fire, follow these

DIRECTIONS.

Go to the nearest box to the fire.

A sign over each box gives location of keys.

Open the box — pull the lever or hook all the way down *once* and let go.

After giving the alarms remain a while, *if possible*, by the box, so as to direct the firemen to the fire.

Second alarms will be given only by one of the engineers.

CAUTION TO PERSONS HOLDING STATION KEYS.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the engineers at once.

LOCATION OF FIRE-ALARM BOXES.

REPORT OF TRUSTEES OF MILTON CEMETERY.

The Trustees of Milton Cemetery have held monthly meetings at their office — 4 o'clock P.M. — on the last Friday of the spring, summer, and autumn months. This is the fixed time for regular meetings, when proprietors of lots, and citizens wishing to confer with the trustees, are invited to meet them.

At these meetings the various interests of the cemetery are presented, discussed, and decided upon.

The work performed from year to year is quite uniform and but little varied.

The grounds are so extensive, and the lots, avenues, and paths so numerous, as to require the constant and unremitting

oversight, care, and labor of the superintendent and whole working force.

This concentration of labor is needful in order to meet the views of those in charge, and the ever-growing interest of proprietors and the general public in the appearance of our cemetery.

But with this absorbing work, all important and needful improvements are carefully attended to.

During the past season six monuments and eighteen tablets have been erected. Eight new lots have been taken by citizens, and two old lots have been renovated.

Two family tombs have been removed and lots prepared on their sites. Up to this time eighteen tombs have been disposed of.

The ravages of the canker-worm have given us much anxiety. The shade-trees along our avenues and lots contribute, in no small degree, to the beauty of the grounds. We have one hundred and eighty-nine elms, which is the favorite breeding-tree of this destroyer. The canker-worm has also attacked the oak, and one season two maples were wholly stripped of their foliage by this pest.

All the elms are belted with tarred paper, over which printers' ink is spread from time to time in fall and spring.

The trustees respectfully ask for the usual appropriation of two thousand dollars for the ensuing year.

Respectfully submitted,

A. K. TEELE,

For the Trustees.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The first duty of a Public Library is to provide good books, the second is to induce people to read them. A library is for use, and is not a mere storehouse of literature, however valuable. The circulation of a few good books is better than the hoarding of many. Books should be made accessible. Rules should be as few and simple and liberal as is consistent with good management.

The Trustees of the Public Library, recognizing these very obvious facts, and in response to a petition from the School Committee and the Superintendent of Schools for "a closer and more useful relation" between the Public Library and the public schools, have extended more privileges to the teachers.

At a meeting held Jan. 2, 1895, the following vote was passed:

"That the teachers of the public schools be allowed to take from the library books that have been in the library one year, in the proportion of one book to every two pupils in the High and Grammar Schools, and of one book to every three pupils in the Primary Schools, under such rules and restrictions as the Executive Committee may prescribe, the expense of transportation to be borne by the School Committee."

The Executive Committee under this authority has made the following rules:

"The books are to be retained for two weeks, and will be renewed for two additional weeks without request; after that they may be renewed for two weeks more if the teacher send a request for renewal to the library before the books become due.

"Books need not be returned to the library for renewal.

"All requests for renewal must be made in writing, giving

the catalogue number of the books, with the date or dates when they are due.

"The date after which the book becomes subject to fine unless renewed at the teacher's request will be written on the inside of the front cover, and books kept out without renewal will be subject to a fine of two cents a day for each book.

"Teachers must send the fine with the overdue book.

"Teachers will be held responsible for fines on overdue books, and for all damage done to books beyond reasonable wear and use.

"All applications for books must be made on blanks prepared for that purpose by the teachers of each grade."

The system outlined in these regulations is essentially the same as the one in use in the Public Library in Newton, which town, though larger than our own, resembles it in its distances and in the location of its library. Milton is not yet large enough to warrant establishing delivery-stations in all parts of the town, but under these very liberal privileges granted to the schools, the Trustees expect that many books will reach families heretofore entirely deprived by distance of the use of the library.

Another regulation passed at the recent meeting is that, "'juveniles' and 'fiction,' until they have been in the library six months, can be retained only one week." Owing to the already very crowded condition of the shelves in the library, it is practically impossible to have duplicate copies of even the most popular books, but with the seven-day system it is reasonable to suppose that the fiction most in demand will be made available to a larger number of persons.

The record shows that, not including the books sent to East Milton, 9,650 volumes have been taken out the past year on 700 cards — an increase of 171 books over the year previous; 2,360 books have been sent to East Milton; therefore the total number used by the town was 12,010.

The population of Milton, roughly speaking, is 5,200 per-

sons ; therefore the number of books used from the Public Library averages $2\frac{1}{3}$ books to each person. This is a fair average compared with other towns, and considering the scatted condition of our population. However, unless the Trustees are mistaken, the new rules will greatly increase the circulation the coming year.

Two hundred new books have been added, making a total of 11,256 books in the library. The reading-room has 20 periodicals.

The most marked improvement in the facilities afforded by the library is in the reading-room at East Milton.

For the first time since it was established this branch has a thoroughly suitable location. The room is in the building recently erected by Mr. Henry E. Sheldon, and is large and sunny, with good air and light, and admirably heated in winter. The furniture is new and substantial, and, with its stock of magazines, 19 in number, and 3 daily papers, the reading-room is very attractive.

The growth of this part of the town is shown by the increase in the number of books taken out, 2,360 in all — 904 more than last year ; 2,283 periodicals have been taken out on 88 cards.

Altogether the past year has been one of decided prosperity and progress in the history of the library.

For the Trustees.

59th
ANNUAL TOWN REPORT

OF

MILTON

MASS.

FOR THE YEAR ENDING

DECEMBER 31, 1895.

COMPILED BY

THE AUDITORS.

BOSTON:
ALFRED MUDGE & SON, PRINTERS,
1896.

STATEMENT OF THE AUDITORS.

To the Citizens of Milton:

In accordance with the Public Statutes and with the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the Treasury for the year ending Dec. 31, 1895, and have found the same to be correct. This statement does not apply to the Trustees of the Cemetery, who appoint their own auditors.

In compiling this, the 59th Annual Report of the town, we have made some changes from the form of previous years, which we hope will not impair the usefulness of the Report. These changes were rendered necessary by the increased amount of matter to be printed.

We wish to call particular attention to the financial year, ending March 1, as contrasted with the calendar year ending December 31.

Appropriations made at the annual Town Meeting apply to the financial year for which they are made, and to that only. On March 1 the town accounts are closed, any balance unexpended on that date reverting to the town.

Respectfully submitted,

W. NEWTON HARLOW,
J. S. RUSSELL,
Auditors.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, APRIL 27, 1887.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P. M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall within two weeks after their appointment meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, or unless ordered by two thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of March.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the taxpayers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths, to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, of for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish, or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine to run at large in the town, or to feed in any highway or street, either with or without a

keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams street, between Churchill's lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled, or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march, or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain upon any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix by paste or otherwise any handbill, placard, notice, or advertisement, or paint, draw, or stamp the same, or any marks or figures to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree, or structure in the town, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing, from the road commissioners (or from the selectmen if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which

shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws: —

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper; and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery: —

1. All persons are prohibited from driving upon the borders.
2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging fire-arms within the grounds of the cemetery, except in case of military funerals.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.
6. Dogs are not allowed within the cemetery grounds.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

REPORT OF THE COMMITTEE ON GRANITE AVENUE.

To the Citizens of Milton:

The Granite Avenue Committee, which was appointed at the Town Meeting held March 5, 1894, reports as follows:—

Your Committee petitioned the County Commissioners to define the lines and relocate and establish the boundaries of the portion of Granite avenue lying between Adams street and Squantum street.

Hearings were given by the Commissioners on May 15 at East Milton, June 26 and July 17 at Dedham, September 28 at East Milton, and October 5 at Dedham.

On the 13th day of November the Commissioners filed their decision with the Town Clerk, and ordered that the following sums of money be paid for land damages by the town: To Josiah Babcock four thousand thirty-seven dollars ($4,037); to Edward H. Adams four hundred forty-two dollars ($442); to Charles H. Adams ten dollars ($10); and the Commissioners further order, "That within one year from the date of this return that the town of Milton shall build this portion of Granite avenue in the following manner: The roadbed of said way is to be constructed in the centre of said location, and of the width of twenty-six feet, the gutter to be three feet in width. Suitable sidewalks, gutters, culverts, and retaining walls are to be constructed wherever needed on said way. The road-bed of said way shall be gravelled to a depth of not less than ten inches in the centre, measured from the edges of the gutters as a horizontal base."

The Commissoners have further ordered, "That in three months from date (13th of November) the Old Colony Railroad shall pay to the town of Milton the sum of four thousand thirty-seven dollars ($4,037), and that when the work required by the decree has been performed, that the County of Norfolk shall pay to the town of Milton the sum of four hundred fifty-two dollars ($452)."

The Commissioners have thus ordered that all damages for taking of land shall be paid to the town by the Old Colony Railroad and the county, leaving the cost of rebuilding the road to be borne by the town.

In view of the heavy teaming over this avenue, your Committee thinks it will be economy for the town to go beyond the requirements of the Commissioners in manner of construction, and recommends the building of a "Telford" road eighteen feet in width, the foundation being of large stone laid by hand to a depth of eight inches, followed by a course of broken stone for a thickness of four inches, with a gravelled surface of two inches, the same to be thoroughly rolled and watered; the above plan being subject to such modifications as may be suggested by an *expert* road engineer. As there is an unexpended balance of nearly three thousand dollars which was appropriated at last March meeting for rebuilding this road, your Committee recommends that any further sum of money required be taken from the general appropriation for highways. The distance is a little over one third of a mile, and the estimated cost for building such a road as we recommend is about six thousand dollars a mile. The additional cost for sidewalks, fencing, etc., will exceed the balance now on hand.

Your Committee has taken no specific action relative to that portion of the avenue from Squantum street to the Neponset river, as improvements here seemed largely contingent on the improvements made on the southerly portion of the avenue, and the disposition of the sewerage question.

Further than this, in view of the fact that this portion of the avenue is of comparatively little benefit, either directly or indirectly, to the citizens of Milton

(over eighty per cent of the travel over it being distributed among citizens of other towns in Norfolk county, and the city of Boston in Suffolk county), there seems to be a gross injustice in requiring the town of Milton to construct and maintain this highway; and it seems to your Committee that the "State highway law" recently enacted was designed to apply to cases of this nature. This law provides for the *building* and *maintenance* of certain highways, as granted by the State Commissioners; seventy-five per cent of the cost thereof to be borne by the State, and twenty-five per cent by the county wherein said highway is located; and we recommend that the town instructs its Selectmen to make application to the State Highway Commissioners, and adopt any other necessary steps in accordance with the view of converting all or a portion of Granite Avenue into a "State highway."

Secretary.

Voted, That the foregoing report of the Committee on Granite avenue be accepted, and that said committee be authorized and empowered to supervise and reconstruct that portion of Granite avenue lying between Adams street and Squantum street, by building a "Telford" road (so called) between the points named; said road to be twenty-six feet in width, the foundation to be of large stone laid by hand to a depth of eight inches, followed by a course of broken stone for a thickness of four inches, with a gravelled surface of two inches, the same to be thoroughly rolled and watered. The above plan being subject to such modifications as may be suggested by an *expert* road engineer. And that the unexpended balance of the appropriation made at the March meeting, 1894, for re-building said road, be used for that purpose; any further sum necessary or required to be taken from the general appropriation for highways.

It was also voted, that the town hereby instructs its Selectmen to make application to the State Highway Commissioners, and adopt any other necessary steps in accordance with the view of converting all or a portion of said Granite avenue into a State highway.

ART. 39. To see what action the Town will take upon the report of the Committee on Drainage.

Voted, That the following report of the Committee on Drainage be accepted by the town: —

REPORT OF DRAINAGE COMMITTEE.

To the Citizens of Milton:

At the March meeting, 1892, it was voted, "That a committee of five be appointed by the Moderator, to be known as the Committee on Drainage. The persons so appointed shall continue members of said committee for three years, unless said committee shall be sooner discharged by the town. It shall be the duty of said committee to consider the present and probable future needs of the town, in the matter of sewerage and drainage, and within three years to report in writing to the town such effective and economical plans and methods of

sewerage and drainage for the town or any portion or district thereof, as they may deem advisable to be adopted."

The committee thus appointed, after agreeing to the necessity of a comprehensive system of sewerage adequate to future as well as present needs, found the first and most important step to be the selection of a competent engineer, and in this it deems itself fortunate in the choice of Mr. Geo. A. Kimball, of Boston.

What the growth of Milton will be nobody can foretell, but the system proposed is sufficient for at least thirty years, even if the growth be rapid, and if eventually found insufficient, only the main sewers will have to be replaced.

Several methods for the final disposal of the sewage have been considered, and the most feasible plan, as well as the most economical, is the one advised: that of entering the Boston sewer, across the Neponset river, at four points, — Granite avenue, Lower Mills, Central avenue, and Mattapan.

As your committee had no authority to make a contract with the city of Boston in regard to the amount which Milton should pay for the use of the Boston sewers, no positive arrangement could be made, but communication with the Mayor resulted in Mr. Matthews confirming the estimate of Mr. Carter, Superintendent of Streets, that the sum of eight hundred dollars a year will be a fair compensation.

A system of sewerage is at present much needed in the thickly settled parts of East Milton, as is shown by the many complaints of nuisances due to the cesspools in that district, which the Board of Health receive.

The most urgent need for a sewer is for the houses on Russell street, the present system of cesspools being very defective, the overflow from the cesspools appearing at times in the gutter at the junction of Russell street and Canton avenue.

This district, designated in the engineer's report as the Central Avenue District, should be the first to be provided with sewers. The hindrance at present is that the Boston sewer has not yet been extended to Central avenue, but in the report of Mr. William Jackson, City Engineer, to the Mayor of Boston, dated December 14, 1894, upon the drainage of a portion of West Roxbury, he writes: "In devising a plan for the drainage of this territory, it is also necessary to include with it Hyde Park, Dedham, and Milton. The city has already built an extension of the Main Drainage System through a part of Dorchester, which will probably be completed as far as Lower Mills early next year, and it is expected that it will be at once extended as far as Central avenue." From this it seems probable that the Boston sewer will be ready to receive the sewage from the Central Avenue District as soon as the Milton sewer is ready to enter it.[1]

Attention is called to the recommendation of the engineer, with which your committee fully agrees, that the town take the land along the lines of some of the watercourses for the purpose of controlling them.

The various methods of payment for building sewers have been fully discussed by your committee, and it agrees with the engineer that the most equitable system for Milton is for the estates directly benefited to pay three quarters of the cost of building the sewers, and for the town to pay one quarter and the cost of maintaining them.

A system of sewerage indirectly benefits a town by its good effect on the public health. It directly benefits the estates abutting on the line of the sewers by

[1] Since this was written the Boston Aldermen have voted to authorize the City Treasurer to sell bonds for the completion of the sewer to Central avenue; it will, therefore, probably be built within a year.

draining the land, and affording a perpetual outlet to the sewage from the houses built on these estates.

The town of Milton covers a large area, but the part to be directly benefited by a system of sewerage is comparatively small; therefore your committee thinks that the estates directly benefited should pay a proportionally large amount of the cost of building the sewers.

By Section 272 of Chapter 417 of the Acts of 1893, any town which accepts that section shall elect three sewer commissioners, one for the term of one year, one for the term of two years, and one for the term of three years, and at every subsequent annual meeting, the town shall elect a commissioner for the term of three years. Said commissioners shall receive such compensation for their services as the town may determine. By accepting said section, and choosing said commissioners, the powers and duties relating to the laying out, construction, and maintenance of sewers or systems of sewers, otherwise belonging to the Selectmen, become vested in said commissioners.

As the construction of a system of sewers would cover a period of some years, and as both the construction and maintenance of sewers calls for as much experience and familiarity with the subject on the part of the officers in charge as possible, your committee recommends the acceptance of said section, and the election of sewer commissioners in accordance therewith. Such a board is not liable to be entirely changed at any one time; and in case one of its members fail to be re-elected in any year, there will still be two upon the board, each of whom will have had at least one year's experience in the duties pertaining to his office.

Your committee being advised, as appears in the engineer's report, that the most practicable method of disposing of the sewage of the town was through the sewerage system of the city of Boston, and being also advised that it would be best that legislation be obtained authorizing the town to construct sewerage systems and to dispose of its sewage in manner aforesaid, have joined with the Selectmen in petitioning the Legislature for and in behalf of the town for legislation to enable the town to lay out and construct one or more systems of main drains and of sewerage, and to connect the same with the sewers or sewerage systems of the city of Boston, or of any city, town, or metropolitan district contiguous to Milton; also for authority to issue notes, bonds, or scrip for the purpose of defraying the expense of said systems of drains and sewerage. Said other "city, town, or district" were inserted in the petition in case of contingencies.

By extending the time of the construction of the sewerage systems through a term of years the town will be enabled to pay a considerable portion of the expense from the annual tax levy; and it is hoped that the necessity for a large indebtedness may be avoided.

The petition for legislation was presented at this time as the time for introducing new business into the Legislature was about to expire. Your committee trust that their action in petitioning for said legislation will meet with your approval.

REPORT OF STATE BOARD OF HEALTH.

COMMONWEALTH OF MASSACHUSETTS.

REPLY OF THE STATE BOARD OF HEALTH TO AN APPLICATION FROM MILTON FOR ADVICE IN RELATION TO SEWERAGE UNDER THE PROVISIONS OF CHAP. 375 OF THE ACTS OF 1888.

OFFICE OF STATE BOARD OF HEALTH,
STATE HOUSE, BOSTON, Sept. 25, 1894.

To the Committee on Sewerage of the Town of Milton:

GENTLEMEN,— The State Board of Health has carefully considered your application of June 8, 1894, relative to a proposed system of sewerage for the town of Milton.

The main features of the proposed plan, as indicated by the written description and the plan accompanying your application, are systems of pipe-sewers from which storm water is to be excluded, for collecting the sewage of the town and conveying it to the Dorchester branch of the main sewerage system of the city of Boston, and underdrains beneath nearly all of the sewers for collecting the ground water and conveying it to the Neponset river.

Upon the plan three sewer districts are shown, each having an independent connection with the Boston sewer, and in addition to these, the description refers to a fourth district, including the village of Milton Lower Mills, in which no sewers are shown upon the plan, but which is now partially provided with sewers which discharge into the Neponset river. It is stated that the system for this district is to be connected with the Boston sewer, and it is also stated that the town has secured the consent of the Mayor of Boston to this method of disposing of the sewage of Milton, and that he has named a price per year for such disposal, which is satisfactory to the town committee.

The Board is of the opinion that the method of disposing of the sewage of Milton by discharging it into the main sewerage system of the city of Boston is the best that can be adopted, and that this method should be made to apply to all portions of the town, including the village of Milton Lower Mills.

The engineers of the Board have examined in a general way the locations, sizes, and grades of the main sewers, and see no reason to doubt that a system designed substantially as proposed, if constructed with care, can be made to operate in a satisfactory manner. Some of the sewers necessarily have a low grade and will require more care in order to keep them clean than if it were feasible to give them a higher grade.

The amount of fall from the end of the 15-inch sewer in Granite avenue, on the Milton side of the Neponset river to the Dorchester intercepting sewer, is sufficient to render operative a properly designed inverted siphon across the Neponset river at this place. The application states that this inverted siphon is to consist of two 10-inch cast-iron pipes, so arranged that one will take the ordinary flow and the other the surplus; and the suggestion has since been made, verbally, that the diameter of these pipes might be reduced to eight inches. It is desirable that at least one of the pipes should be made ten inches in diameter, and that both the siphon-pipes and the short section of sewer leading from them to the Dorchester intercepting sewer, should be placed low enough so that practically the whole difference in level between the sewage in the sewer on the Milton side of the Neponset river and in the Dorchester intercepting sewer,

may be made available for cleansing the siphon-pipes. In this case, as in the case of the sewers of low grade, the works must be maintained with care in order to insure satisfactory results.

While a siphon is a feature not to be included in a sewerage system where it can be readily avoided, there seems to be no alternative in the present case except to pump the sewage, and this would cost much more than the proper maintenance of a siphon.

At Central avenue the use of a siphon is avoided, as the plans provide for suspending the sewer from the existing bridge.

In regard to the other two crossings, no opinion will be given at the present time, because for the one at Milton Lower Mills no plans have been submitted, and at Mattapan the elevation of the proposed extension of the Dorchester intercepting sewer has not yet been determined.

The provision for removing the ground water by means of drains laid beneath the sewers is to be commended, both on account of the sanitary benefits to be derived from keeping the ground thoroughly drained, and because of the smaller amount of sewage which will be discharged into the Boston system. It has been found by experience that where there are no underdrains much of the ground water finds its way into the sewers, even when they are constructed with much care, so that in many places the volume flowing in the sewers is two or three times the volume of sewage proper. As this ground water, if collected in separate pipes, can be discharged into the Neponset river without doing harm, it is much better that it should be disposed of in this way than by turning it into the Boston system, not only on account of the cost of pumping the added ground water, but because the Boston system will be overburdened and require duplication much sooner if care is not taken to prevent the entrance of ground water into the sewers connected with it.

Experience in Framingham, Newton, and Brockton has shown that it is feasible by taking sufficient care in the construction of the sewers and underdrains to prevent the sewage from leaking into these drains to contaminate the ground water, and, indirectly, the streams into which the underdrains discharge.

By order of the board,

(Signed) H. P. WALCOTT, *Chairman.*

REPORT OF ENGINEER.

To the Committee on Sewerage of the Town of Milton:

As requested by you I have prepared a plan showing a proposed system of sewerage for your town, and respectfully submit to you my report. In designing the system, we have gathered the information which is essential in making a study of the subject, and these facts may be briefly stated as follows: —

Milton is a suburban town, about seven miles from the business centre of Boston, bounded on the north for a distance of about five miles by the Neponset river, which is the boundary between Milton and that part of Boston called Dorchester. It extends southerly to and includes a part of the Blue Hill range. The larger portion of the town lies in the valley of two brooks, which flow in a general northeasterly direction into the Neponset river. The larger stream, called Pine Tree brook, rises in the Blue Hill range and discharges into the river at Central avenue; its drainage area is seven and nine-tenths square miles, of which seven and one-tenth square miles are within the limits of the town of

Milton. Near the mouth of the brook and in the vicinity of Central Avenue Station, is a population of about three hundred people. About one and one-half miles from its mouth is the village of Mattapan, which lies between the brook and the Neponset river; about one half of the village drains towards the brook, and the remainder towards the river. The population of the village is about eight hundred.

The smaller stream, known as Unkety brook, rises near the centre of the town and discharges into the Neponset river near Granite Bridge; its drainage area is two and four-tenths square miles. The village of East Milton is situated on sloping land on the southerly side of the valley, about one-half mile from its mouth. It has a population of about twelve hundred.

Of the territory outside of these valleys, there is a narrow tract of varying widths along the southerly bank of the river toward which it slopes. In this territory and on the northerly slope of Milton Hill, is the village of Milton Lower Falls, with a population of about four hundred. There is also a small tract of land at East Milton, on the easterly side of Granite avenue, and between Granite place and Squantum street, that drains into the city of Quincy.

The villages mentioned above are near the steam railroads, which probably account for their growth. The territory outside the villages is sparsely inhabited. There are many large estates which contain beautiful residences, but a large part of the area of the town is used for farming purposes. The area of the town is thirteen and one-third square miles, of which two and one-quarter square miles have recently been taken by the Metropolitan Park Commission, and is known as the "Blue Hills Reservation." The town has forty-seven miles of roads. There are eighteen and one-half miles of water mains, which are owned by the Milton Water Company.

POPULATION AND GROWTH.

From the U. S. census reports we find that the population of Milton in the year 1885 was 3,555, and in 1890, 4,278. From these figures we find the increase in population was at the rate of about four per cent per year during the five years.

The Assessors return the number of dwellings each year with the following result: —

Year	1890	1891	1892	1893	1894
Dwellings	731	768	817	873	965

From the census we find the population in 1890 was 4,278, and the number of dwellings as returned by the assessors, 731, which allows 5.9 persons to each dwelling. Now, assuming that there were the same number of persons to a dwelling in 1894 as in 1890, the present population of Milton would be 5,693.

The increase of about ten per cent in the number of dwellings reported in 1894 over that of the previous year indicates a rapid growth.

DISPOSAL OF THE SEWAGE.

The cheapest method of disposing of the sewage of Milton is to follow the natural drainage and discharge it into the Neponset river at the most convenient points, but it is certain that the river would soon become a public nuisance if the sewage from the population within its water-shed were allowed to enter it. Under the present laws it would be necessary to obtain permission of the State Board of Health before sewage could be discharged into the river, and it is not

probable that such a request would be granted, as the Board in their annual reports have frequently urged the importance of diverting all the sewage from the Charles and Mystic rivers, which has been the cause of a nuisance for many years. The Metropolitan system of sewers, now being constructed at the cost of several millions, is for the purpose of intercepting the sewage now discharging into these rivers, and conveying it to deep water in Boston harbor.

To purify the sewage with chemicals and discharge the effluent into the river would require a large sum for the erection of necessary works and a large additional sum for yearly maintenance, including about thirty cents per head annually for chemicals.

To dispose of the sewage by filtration on land would require about one acre of suitable land for each five hundred population, or a total of ten acres to provide for the present population. Land for the filtration of sewage must be light and gravelly, and I have failed to find any in Milton properly isolated and suitable for such a purpose. If this system were adopted it would require the pumping of all the sewage, which, with the cost of maintaining the filtration areas, would make a large yearly expense.

The plan of joining with the city of Quincy in building a system of sewerage has been considered. The question of building a sewer system in Quincy has not been settled but is still pending. From an examination of the plan proposed, we find that it is practicable to discharge the sewage from East Milton into the proposed system in Quincy; also that it is possible to reach other parts of Milton, but it will require the construction of long lines of sewers through private and unoccupied lands at considerable expense.

The city of Boston is now extending the Dorchester Intercepting Sewer along the northerly side of the Neponset river, and it will probably be completed to the Lower Mills by Jan. 1, 1895. If the Boston sewer is used as an outlet sewer, the Milton sewers can be connected with it at the most convenient points, and the sewage will then run through the Boston sewer to the pumping-station at Old Harbor point, where it will be raised and discharged into deep water at Moon island in Boston harbor, with the sewage of a large part of Boston, and also Brookline, Newton, Watertown, and Waltham.

We are informed by the officials of Boston that the Dorchester intercepting sewer is of sufficient size to receive the sewage from Milton, and that the city would be willing to receive and dispose of the sewage for a reasonable compensation. It is therefore recommended that this method of disposal be adopted, as I am confident that it will be satisfactory to the town, and will remove from its territory that which may cause a nuisance if either of the other methods above mentioned is adopted.

The surveys necessary to design the system of sewers have been made by Mr. Charles E. C. Breck, civil engineer, a resident of Milton. He has prepared a contour map of the town, which is herewith presented, with the proposed sewers in red lines. I am much indebted to Mr. Breck, not only for the surveys, but also for the many facts he has furnished me in regard to the town, about which his long residence has made him familiar.

SEWERAGE AND DRAINAGE SYSTEMS.

Sewers and drains laid in a town or city serve three purposes: the removal of surface or storm water, the ground or soil water, and the sewage, which includes manufacturing or house wastes, filth, and refuse. Channels for the removal of surface water are properly called drains; those for ground or soil

water are called sub or under drains; while those for the removal of sewage matter are called sewers. To accomplish this threefold object a combined sewer system might be constructed, — that is, a system of channels or conduits that will remove the surface water, the ground water, and the sewage all together in the same channels, — but this would require large channels and would be very expensive; again, the surface and soil water can be discharged into the river at convenient points without causing a nuisance, while the sewage must be carried a long distance and disposed of at the expense of pumping or treatment.

SYSTEM PROPOSED.

Having made a study of the conditions existing in Milton, I conclude that the surface or storm water is satisfactorily removed at present by the street-gutters and the natural watercourses. It is therefore recommended that the "separate system" of sewers be adopted and arranged as follows: a system of pipe-sewers with tight joints laid in the streets at sufficient depths to receive the waste from water-closets, sinks, and other fixtures along the line; these sewers to receive sewage only, and to be carried across the Neponset river and connected with the Boston sewer; also, a system of pipe-drains, with open joints, laid under the sewers, to receive the ground water, which is to be discharged into the river or any of its tributaries. These under-drains to be built at the same time and laid in the same trench with the sewer proper.

As the sewers are designed for sewage only, excluding soil and storm water, it will be practicable to use small pipes. The sub-drains under the sewers will lower the level of the ground water in the neighborhood and prevent its infiltration into the sewers, thereby reducing the flow in the sewer to a minimum. Experience in many places proves that a large amount of ground water enters the sewers where the sub-drains have been omitted. The sub-drains, which will convey soil water only, can be discharged into the river or its tributaries without causing a nuisance.

SIZES OF SEWERS.

In determining the proper sizes for the sewers, it is necessary to estimate the amount of sewage that must be removed. In making this estimate the usual custom of basing it on the probable future population has been followed. The population for which it is desirable to provide along the line of the lateral sewers has been estimated on the basis of the present population in the thickly settled sections of the town. The most densely populated single acre in the town is in East Milton, where there are forty-five people; another at the Lower Falls is nearly the same. Taking seventy-five acres of the most thickly settled part of East Milton, we find ten people to the acre. The land recently laid out by the Blue Hill Terrace Company, near Mattapan, contains about thirty-five acres, and is divided into two hundred and three lots. If we assume that a house will be built on each lot, and six persons to a house, we should have a population of thirty-five people to an acre. Therefore in making the estimate for the future population, it has been assumed that the portion within half a mile of the steam railroads may be settled at the rate of forty people per acre, and the other portions I have estimated from twenty-five to thirty-five people per acre.

Having determined the number of people, we must then estimate the amount of sewage for each person. It is the custom to assume that the sewage discharge will be equal to the water supply, which in Hyde Park and Milton is thirty-six gallons per head per day; this is much smaller than in many other places, probably because there is very little used in manufacturing and for the reason that

meters are invariably used. The consumption in Newton in 1892 was 49 gallons per head per day; Dedham, 38; Quincy, 32, and Brookline, 80. I have, therefore, considered it best to allow for 50 gallons per head per day in Milton.

From measurements made in several cities we find that about one half of the water supply is used during six hours in the daytime. Therefore the sizes sewers have been arranged so that they will remove twenty-five gallons per head in six hours, or one hundred gallons per day, when the sewers are running half full. This rule has been followed in the design, except for the main sewers, in which cases the sizes have been designed to meet the probable population for the next thirty years. It has been considered cheaper to provide additional mains after thirty years, if needed, rather than to go to the extra expense at the present time. The rule has also been departed from where it calls for a pipe less than six inches in diameter, and six-inch pipes are proposed only in streets where the grade is three per cent or more. The sewers may be allowed to run full at times without harm, but they are designed to run half full in order to allow additional capacity to meet any emergency, and also for the purpose of securing ventilation.

DESCRIPTION OF SEWERS PROPOSED.

In designing the system of sewers the town has been divided into four sewer districts, each having a separate outlet into the Boston sewer. For convenience the districts have been named as follows: East Milton, Lower Mills, Central Avenue, and Mattapan. A brief description of the mains in each of the proposed systems, with the area, population, and estimated cost is given. Reference is made to the accompanying map, on which is delineated the proposed sewers, also to the table containing estimated cost of sewer in each street.

East Milton.

The proposed outlet of the East Milton system is into the Dorchester Intercepting Sewer recently built by the city of Boston, which crosses Granite avenue, in Boston, just north of the Milton branch of the Old Colony Railroad. It is proposed to lay a 15-inch main outlet sewer in Granite avenue from the Boston sewer towards East Milton, crossing under the Neponset river, by an inverted siphon of cast-iron pipes, thence continuing along the avenue in the town of Milton to the foot of Fenno's hill, about 1,500 feet north of Squantum street, where, for the purpose of avoiding a deep cut in Granite avenue, the proposed line of the sewer will take a general south-westerly direction crossing private lands and following near the edge of the marsh to the Granite branch of the Old Colony Railroad, thence southerly along the easterly side of the railroad to Squantum street. From Squantum street a 12-inch sewer will continue along the easterly side of the railroad a distance of about six hundred feet, where the sewer will cross private land to Granite avenue, thence southerly in Granite avenue to Adams street near the East Milton railroad station.

A 15-inch sewer is proposed in Squantum street southwesterly from the railroad to Adams street. In Adams street from Squantum street to Centre street a 12-inch sewer is proposed.

The inclination of the 15-inch main sewer is 0.12 per cent, or 1 in 833. This is less than is desirable, but it is necessary in order to lay the sewer at a proper depth near the junction of Adams and Squantum streets to provide sewerage for the adjacent low lands. On account of this flat grade it will be necessary to provide for flushing the sewer to prevent the accumulation of deposits.

The area of the East Milton district is about three square miles. The estimated present population on this area is about 1,800, of which about 1,200 are in or near the village, while the remainder occupy large estates or farms which will probably not require sewerage for many years. The proposed 15-inch main outlet sewer will remove the sewage from a population of 7,000 when running half full.

The cost of the main sewer from the Boston sewer to Squantum street at the railroad crossing is estimated at $21,786. The cost of the 12 inch from Squantum street to Adams street at the East Milton station is estimated at $5,864. The cost of the 15-inch in Squantum street from the railroad crossing to Adams street is estimated at $4,069.

Lower Mills District.

This district is partially provided with sewers, which seem to be sufficient for the present requirements, and it is practicable to extend them from time to time as may be required to meet future demands. These existing sewers receive sewage, and also surface water from the streets, all of which is now discharged into the Neponset river, at the railroad bridge, near the Milton station.

It is proposed to connect the present system of sewers with the Boston sewer by laying a pipe from the Boston sewer, at Baker's court, in a southerly direction in Washington street, crossing the Neponset river, just under the bridge, and continuing in Adams street, in Milton, crossing under the railroad by an inverted siphon to the present sewer, just south of the bridge over the railroad, at Milton station. This proposed pipe will connect with the present sewer in such manner that it will take all the ordinary dry weather flow of the present sewers, but during storms, when the present sewers are carrying large quantities of rain water, the surplus will overflow and pass off to the river through the present outlet. The area of the district is 0.20 of a square mile, with a population of about 300.

Central Avenue District.

The proposed outlet for this district is into the sewer proposed to be built in Boston, near River street, at Central avenue. It is proposed to lay a 15-inch main outlet sewer southerly, in Central avenue, from the Boston sewer, crossing the Neponset river under the bridge and above the water level; thence continuing along Central avenue, in the town of Milton, to School street; thence in School street to Canton avenue. A 12-inch sewer is proposed in Canton avenue south-westerly from School street, with a branch from Canton avenue to the eastward about 1,000 feet southwest of School street, following in the valley and crossing private lands to Randolph avenue and Churchill's lane.

The area of the district is nine-tenths of a square mile, with a present estimated population of 1,100. The main 15-inch sewer will have a grade of 1 in 500, and will remove the sewage from the population of 9,000 people when running half full.

The cost of the main sewer from the Boston sewer to the junction of School street and Canton avenue is estimated at $11,339.

Mattapan District.

The outlet for the proposed system in this district is to connect with the proposed Boston sewer in River street, at Blue Hill avenue, in Boston. From the Boston sewer a 20-inch pipe sewer is proposed along Blue Hill avenue in a southerly direction, crossing under the Neponset river by an inverted siphon of cast-iron pipes, and continuing southerly along Blue Hill avenue, in Milton, to the junction of Mattapan street and Brush Hill road; from this junction an 18-inch

pipe will continue southerly in Mattapan street; a 10-inch, southwesterly in Blue Hill avenue, and a 12-inch, southerly in Brush Hill road. The grade of the 20-inch pipe is 0.12 per cent, or 1 in 883, and will require flushing to prevent the accumulation of deposits.

The drainage area of the Mattapan district is 6¼ square miles, and the present population on this area is about 1,500, of which about 1,000 are in the village of Mattapan. A large portion of this district is sparsely inhabited, and it includes a portion of the Blue Hills Reservation. The proposed 20-inch main sewer will remove the sewage from a population of about 12,000. The estimated cost of the main sewer from the proposed Boston sewer to Mattapan street is $8,531, including the cost of outlet for underdrain from Blue Hill avenue to river below dam.

RIVER CROSSINGS.

The proposed main sewers from East Milton and Mattapan are both designed to cross under the Neponset river by inverted siphons; the former on Granite avenue, and the latter on Blue Hill avenue. The siphons each consist of two cast-iron waterpipes with flexible joints, laid under the river. Those on Granite avenue are to be 10 inches in diameter each, and those on Blue Hill avenue to be 10 and 12 inches, respectively.

It is expected that for many years only one pipe will be used at each siphon, which will be sufficient to take the ordinary flow of the sewers; the other pipe will be so arranged as to provide for any surplus, or to act in case of failure to the first pipe. The advantage of two small pipes over one large one is, that during the time when the quantity of sewage is small, the sewage passing through a small pipe will attain a greater velocity than if the same quantity passed through a larger pipe, and this increased velocity is important in order to prevent the accumulation of deposits in the siphons.

The pipes will have a hydraulic grade of 0.25 per cent, and will, when running to their full capacity, remove the flow of the main sewer when running half full.

It is also proposed to arrange an overflow to the river from the manhole on the southerly end of the siphons, which may be used in case of emergency which might arise by reason of an accident to the siphon.

The crossing of streams by sewer siphons has been frequently done in many cities and towns, and from information received we find that they are working well; however, they will need careful attention and will probably require flushing.

At Lower Mills and Central avenue the sewers will cross over the Neponset river by cast-iron pipes, which will be hung under the present bridges.

SURFACE DRAINAGE.

Attention is called to the fact that in the system of sewers recommended herein, no provision has been made for the removal of the storm or surface water. It is now removed from the streets by running in the gutters and thence into the natural water-courses, and from the estates by flowing over the ground to the nearest watercourse, and thence into the river. As the town is now growing rapidly, these watercourses will soon become obstructed by improvements along their banks, and will be receptacles for filth and rubbish. I would therefore recommend that the town consider the advisability of taking the lands along the lines of some of these natural watercourses for the purpose of con-

trolling them. The town could then remove and prevent obstructions, and save the streams from becoming a source of nuisance.

If these strips of land are taken along the streams they will in some cases be the most practicable route for the sewers, thereby saving excessive excavation, and will also save expense in land damages which may be demanded by the owners of property, if the sewers are laid through their lands.

METHOD OF PAYING FOR SEWER CONSTRUCTION.

In order to meet the expense of building sewers, it is the custom in cities and towns to assess a portion of the cost on the abutting real estate along the line of the sewers, and the remainder is paid by the town from the general tax.

I would therefore recommend that the town assess three quarters of the cost of building the sewers on the estates benefited, the remainder to be paid by the town from the general tax levy, or from a sewer loan.

This method is authorized by Sections 4 and 7 of Chapter 50 of the Public Statutes, also by Section 9 of Chapter 245 of the Acts of 1892 which are as follows: —

Section 4, Chapter 50, of the Public Statutes. Every person who enters his particular drain into such main drain or common sewer, or who by more remote means receives benefit thereby for draining his cellar or land, shall pay to the city or town a proportional part of the charge of making and repairing the same, and of the charge not already assessed, of making and repairing other main drains and common sewers through which the same discharges, to be ascertained and assessed and certified by the mayor and aldermen, or selectmen, and notice thereof shall be given to the party to be charged, or to his tenant, or lessee.

Section 7 of the same Chapter. The city council of a city or the legal voters of a town may adopt a system of sewerage for a part or the whole of its territory, and may provide that assessments, under section 4, shall be made upon owners of estates, within such territory by a fixed uniform rate, based upon the estimated average cost of all the sewers therein, according to the frontage of such estates on any streets or way where a sewer is constructed, or according to the area of such estates within a fixed depth from such street or way, or according to both such frontage and area; but no assessment, in respect to any such estate, which by reason of its grade or level, or for any other cause, cannot be drained into such sewer, shall be made, certified, or notified until such incapacity is removed.

Section 9, Chapter 245, of the Acts of 1892. Any city except Boston, and any town which adopts or has heretofore adopted a system of sewerage, and which has not actually laid assessments for the cost of such system, shall pay a part of the expense of laying, maintaining, and repairing the common sewers, to be determined by the city council of cities and the selectmen of towns; provided, that the part to be paid by the city or town shall in no case be less than one quarter nor more than two thirds. And the amount required to be raised annually by taxation as a sinking-fund, under chapter twenty-nine of the Public Statutes or acts in amendment thereof, for the purpose of extinguishing debts incurred for the construction of such system, shall be estimated upon only so much of such indebtedness as is so determined to be paid by the city or town; provided, that if, after the expiration of two years from the date of incurring such debts, the amounts received annually from assessments are not sufficient to create a sinking-fund that will extinguish at maturity so much of such debts as is determined to be paid by assessments, then such city or town shall raise annually by taxation a further sum sufficient to meet any deficiency in the preceding year.

ESTIMATE OF COST.

The foregoing tables show the estimated cost of the sewers in each street. The estimates are based on the present prices of labor and material. In the streets where rock excavation may be necessary we did not make soundings, but have gathered information in regard to the quantity of rock from persons who are familiar with the streets, and have allowed such sum as in our opinion will cover the cost. The estimate for the sewer on Granite avenue includes the cost of driving piles for a portion of the distance. The estimates do not include any land damages, but as the quantity of land to be taken is small it is probable that this will not be a large item.

All the sewers shown on plan are included in the estimate, but it is probable that some of them will not be needed for several years.

The result of the estimates is as follows: —

East Milton System	$76,925 00
Central-avenue System	60,254 00
Mattapan System	69,241 00
Milton Lower Mills, connection with Boston sewer	2,000 00
	$208,420 00

CONSTRUCTION.

In building the sewers recommended herein, it is important that they should be built under careful and intelligent supervision, and that every detail should receive careful attention. Sewers are laid underground, and nearly all parts are hidden from view as fast as the work of construction proceeds; therefore it is probable that inexperienced, careless, or dishonest workmen will perform work that will be a great injury to the system, unless they are kept at all times under proper supervision.

In closing this report I wish to express my thanks to you, gentlemen, for the aid you have given me, also for the uniform courtesy I have received from you at all times.

ART. 47. To see if the Town will vote to extend the present line of electric lights on Eliot street from the point where they now end, through to Mattapan street, and appropriate money for the same.

Voted, To extend said lights and to appropriate $300 for the same.

ART. 48. To see what sum of money the Town will appropriate for the enlargement of the High School building, and for equipment of the same.

Voted, That the sum of sixty-five thousand dollars be appropriated for enlarging and equipping the High School Building, provided the town raise the money by notes, bonds, or scrip, as hereinafter indicated. That the town at this, or some future meeting held for the purpose, shall, by a two-thirds vote of all citizens present and voting thereat, as is required by law, authorize that the sum of sixty-five thousand dollars be raised for school purposes, by issuing in sums of five hundred dollars, or multiples thereof, the notes, bonds, or scrip of the town, bearing interest at a rate not exceeding four per cent per annum, and payable semi-annually. Principal maturing annually during ten years from the date of issue in such amounts that the combined payments of principal and interest in every year shall be a sum approximately equal in each of the ten years. That said notes, bonds, or scrip shall be dated Jan. 1, 1895, and be issued at public sale at such times and in such amounts as the Town Treasurer shall direct, and that any premiums received from the sale of said bonds shall be applied to the retirement of any portion of the said issue by purchase or otherwise, and the Town Treasurer is hereby authorized to issue said notes, bonds, or scrip.

The above was passed by a vote of more than two thirds of the voters present and voting.

It was also *Voted*, That a Committee of three citizens be appointed by the Moderator, who, together with the School Committee, shall have charge of the enlargement of the High School building.

COMMITTEE APPOINTED.

Capt. E. D. Wadsworth, Joseph E. Hall, H. Clifford Gallagher.

ART. 49. To see what sum of money the Town will appropriate for the transportation of pupils to and from the High School for the ensuing year.

Voted, To appropriate the sum of $1,700.

ART. 50. To see if the Town will accept Chapter 462 of

the Acts of the Legislature of 1893, entitled, "An Act to authorize the establishment of a building line on public ways."

Voted, To accept the provisions of the above act.

ART. 51. To see if the Town will vote to instruct the Selectmen to extend the existing contract between the Town and the Milton Water Company, which will expire by limitation June 30, 1899, for six years beyond that date, so that the same shall terminate June 30, 1905. Also to strike out the clause now in said contract limiting the Water Company's right to collect and receive hydrant rentals from the town to twenty-five miles of water mains or distribution pipes. Further to amend the contract so as to make it in terms explicitly authorize the Water Company to collect and receive from the town hydrant rentals for hydrants set in private streets which are deemed likely to be hereafter accepted by the Town. All the other terms and provisions of the contract to remain unaffected by these changes.

Voted, To indefinitely postpone.

SPECIAL TOWN MEETING.

A special town meeting was held in the Town Hall on Saturday, June 29, 1895, at 2 P. M. when the following Articles were acted upon: —

ARTICLE 1. To choose a Moderator to preside at said meeting.

Hon. Ed. L. Pierce chosen.

ART. 2. To see if the Town will vote to accept the reserved space within Willard street, as laid out by the Selectmen in accordance with the provisions of Chapter 121 of the Acts of 1895. Said space to be within Willard street, from the Quincy line to Adams street, a distance of about fourteen hundred feet, and bounded on the westerly side by the location of the New York, New Haven & Hartford Railroad Company, and on the easterly side by a line parallel with said westerly side, and sixteen feet distant therefrom, and any street railway that is granted a location in said space shall bound the easterly side by a granite curbstone, of which the upper surface shall be eight inches above the highway at the line of contact, shall permanently maintain the curbstone in good condition, and shall plant the said space with grass over its surface.

Voted to accept the reserved space as stated above.

ART. 3. To see what action the Town will take on the appointment of a committee to consider the question of the Town's purchase of the rights and property of the Milton Water Company.

Voted, That a Committee of five be appointed by the Moderator to consider the taking by the town of the rights and property of the Milton Water Company; also to consider the question whether it is best for the town to go into the Metropolitan Water Supply system, and to report in print on or before Dec. 1, 1895.

COMMITTEE APPOINTED.

Dr. M. V. Pierce, Horatio J. Gilbert, Joseph E. Hall, Granville S. Webster, John C. Cobb.

ART. 4. To see if the Town will authorize and instruct the Board of Park Commissioners to purchase or take a parcel of land at East Milton, supposed to belong to Andrew N. Burton and the heirs of devisees under will of William H. Long, containing about nine and one-half acres, and abutting upon Adams and Squantum streets, for the purpose of a public playground, under the provisions of Chapter 225 of the Acts of the year 1893, and will appropriate a sum sufficient for said purpose, and will also appropriate a sum sufficient to put portion of said land into a condition available for the purposes of a public playground.

Voted to take up articles 4 and 6 in conjunction.

Voted to authorize and instruct the Board of Park Commissioners to purchase or take a parcel of land at East Milton, supposed to belong to Andrew N. Burton and the heirs or devisees under the will of William H. Long, containing 416,403 square feet, more or less, abutting upon Adams and Squantum streets and shown on Plan of Proposed Playground, Adams street, East Milton, drawn by W. W. Churchill, civil engineer, dated June 10, 1895, and filed in the office of the Selectmen, for the purposes of a public playground under the provisions of Chapter 225, of the Acts of year 1893; and to appropriate the sum of fifteen thousand dollars to cover the estimated expense of said purchase or taking; also to appropriate the sum of one thousand dollars to cover the estimated expense of putting portions of said land into a condition available for the purposes of a public playground; and that the total amount thus appropriated, viz.: sixteen thousand dollars, be raised by a loan for playground purposes by issuing the notes, bonds, or scrip of the town to that amount, in sums of five hundred dollars or multiples thereof, bearing interest at a rate not exceeding four per cent per annum, payable semi-annually; that said bonds, notes, or scrip bear date of July 1, 1895, and the principal thereof shall mature, one eighth each year from said date until the total amount issued shall be paid at the end of eight years. Said bonds, notes, or scrip shall be sold at public or private sale by the Town Treasurer upon the written request of the Board of Park Commissioners, and any premium received upon such sales shall be applied to the retirement of any portion of said issue by purchase or otherwise.

The vote on the above articles was as follows: Yea, 89; Nay, 6.

ART. 5. To see if the Town will authorize and instruct the Board of Park Commissioners to purchase or take a parcel of land on the southwesterly side of Brook road, sup-

posed to belong to H. A. Wood, and the estate of Charles Breck, containing about seven and one-third acres, and adjoining land of N. B. Hinckley, for the purposes of a public playground, under the provisions of Chapter 225 of the Acts of the year 1893, and will appropriate a sum sufficient for said purpose, and will also appropriate a sum sufficient to put said land into suitable condition for the purposes of a public playground.

Voted to take up articles 5 and 6 in conjunction.

ART. 6. To see what action the Town will take in regard to borrowing money for the purposes specified in said Articles 4 and 5.

Voted to authorize and instruct the Board of Park Commissioners to purchase or take a parcel of land on the southwesterly side of Brook Road, supposed to belong to H. A. Wood and the estate of Charles Breck, containing 355,200 square feet, more or less, adjoining land of N. B. Hinckley and shown on Plan of Proposed Playground, Brook Road, Milton, Mass., drawn by W. W. Churchill, civil engineer, dated June 10, 1895, and filed in the office of the Selectmen, for the purposes of a public playground, under the provisions of Chapter 225 of the Acts of the year 1893, and to appropriate the sum of ten thousand dollars to cover the estimated expense of said purchase or taking; also to appropriate the sum of five thousand dollars to cover the estimated expense of putting said land into a suitable condition for the purposes of a public playground; and that the total amount thus appropriated, viz., fifteen thousand dollars, be raised by a loan for playground purposes by issuing the notes, bonds, or scrip of the town to that amount, in sums of five hundred dollars or multiples thereof, bearing interest at a rate not exceeding four per cent per annum, payable semi-annually; that said bonds, notes, or scrip bear date of July 1, 1895, and the principal thereof shall mature one tenth each year from said date until the total amount issued shall be paid at the end of ten years. Said bonds, notes, or scrip shall be sold at public or private sale by the Town Treasurer upon the written request of the Board of Park Commissioners, and any premiums received upon such sales shall be applied to the retirement of any portion of said issue by purchase or otherwise.

The vote on the above articles was as follows: Yea, 83; Nay, 4.

ART. 7. To see if the Town will accept Chapter 304 of the Acts of 1895, entitled, "An Act to authorize the Town of Milton to construct one or more systems of sewerage."

Voted to accept said chapter.

ART. 8. To hear and act upon the reports of committees.

Under this article, no report being submitted, Mr. J. C. Cobb asked the

unanimous consent of the meeting to present for consideration the following resolution, which was granted, viz.: —

Voted, That the Park Commissioners be and they hereby are requested to report to the town, at or before the next annual meeting, what action, if any, they would recommend the town to take for the better care, protection, and preservation of trees, bushes, and flowers in or near the public ways. And they are requested in the meantime to take such action as they legally may, looking to the prevention of injury to said trees, bushes, and flowers, and to the punishment of any persons injuring the same.

The above being read, it was so voted.

ART. 9. To see if the Town will authorize the Selectmen to employ a civil engineer and to fix his salary.

Voted, That the subject matter of this article be referred to the next March meeting, and that the Selectmen be requested to insert a similar article in the warrant for the March meeting, 1896.

ART. 10. Upon the acceptance of said Chapter 304 of the Acts of 1895, named in Article 7, to elect by ballot, pursuant with terms of said act, a board of three sewer commisssoners, one for the term of one year, one for the term of two years, and one for the term of three years from the last annual meeting.

Under this article were elected the following: —

SEWER COMMISSIONERS.

Theodore T. Whitney, for three years; J. Albert Simpson, for two years; Ellerton P. Whitney, for one year. Term of service of each to date from March, 1895.

The polls for the election of the above officers were opened at 3.30 P. M. At 7 hours 30 minutes P. M., *Voted*, That the polls for Sewer Commissioners be closed.

At 7 hours 55 minutes P. M., *Voted*, To dissolve the meeting.

SPECIAL TOWN MEETING.

At a special town meeting held in the Town Hall on Tuesday, Nov. 26, 1895, at 7.30 p. m., the following articles were acted upon: —

Article 1. To choose a Moderator to preside at said meeting.

Hon. Ed. L. Pierce chosen.

Art. 2. To determine whether the Town will vote to issue its bonds, notes, or scrip for the purpose of raising the sum of $65,000, heretofore voted by the Town, to be expended in enlarging and equipping the High School building, and prescribe the amount and the terms of any such bonds, notes, or scrip, and take any other action in respect thereof or relating thereto.

Voted, That for the purpose of carrying out the previous vote of the town, whereby it was determined to raise sixty-five thousand dollars for High School purposes, the Town Treasurer be and he is hereby authorized and directed to issue the negotiable notes, bonds, or scrip of the town, in the aggregate principal sum of sixty-five thousand dollars, in denominations of five hundred dollars

each, or multiples thereof, bearing date the first day of January, 1895, to be called and recorded as the Milton High School-house Loan, and each and every bond shall bear said title at the head of it, and be made payable to the bearer thereof at the Shoe and Leather National Bank, in the city of Boston, on the first day of January, as follows: —

$5,500	in the years	1896	and	1897.
6,000	"	"	1898	"	1899.
6,500	"	"	1900	"	1901.
7,000	"	"	1902	"	1903.
7,500	"	"	1904	"	1905.

The said bonds shall bear interest at the rate of four per centum per annum, payable at the said bank semi-annually on the first days of January and July in each year to the registered holder thereof, or the bearer of the interest coupons to be annexed to the said bonds, upon presentation and surrender thereof as they severally become due.

The said bonds shall be signed by the Treasurer, countersigned by the Selectmen or a majority thereof, shall have the seal of the town attached, and shall be in such form containing such recitals or certificate as to the due issue and validity thereof as the Treasurer shall determine; and the execution thereof by the Treasurer shall be deemed a sufficient determination of such form. If coupons are annexed they shall bear the *fac simile* signature of the Treasurer.

The said bonds shall be sold and delivered by the Treasurer, with the approval of the Selectmen, at public or private sale, and the proceeds of the sale thereof to the amount of $65,000 shall be expended in enlarging and equipping the High School building of the town and the residue of the proceeds, if any, shall be applied to the retirement of said bonds by purchase or otherwise as far as it shall be sufficient.

The above was passed by a unanimous vote of all persons present, and voting: Yea, 23; Nay, 0.

ART. 3. To see if the Town will vote to accept the alteration in the side lines of the westerly end of Oak street as laid out by the Selectmen.

Voted to accept said alteration.

ART. 4. To see if the Town will vote to accept the alteration in the southwesterly line of Bradlee Road as laid out by the Selectmen.

Voted to accept said alteration.

ART. 5. To see if the Town will vote to accept the alteration in the easterly line of the reserved space on Willard street as laid out by the Selectman.

Voted to accept said alteration.

Voted to dissolve the meeting.

SELECTMEN'S REPORT.

When the present Board of Selectmen was re-elected at the last Annual Meeting the town was involved, in addition to the questions arising from its own petitions for legislation, in a number of perplexing controversies, and others have since arisen. During the past year the members of this board have constantly been present at legislative and other hearings, besides attending innumerable conferences and meetings of committees. Several of the questions that were under discussion have been practically settled and others partially so, but new ones will constantly arise if only as outgrowths of former ones.

The following is a summary of matters that have been under discussion during the year and that affect the welfare of the town, but the positive decision of which has been beyond its control. These matters are mainly the results of legislative action.

The town petitioned for —

1 (*a*). Limitation of locations of street railways to reserved spaces.

The petition was granted by Chapter 121 of the Acts of 1895.

2 (*b*). Authority to construct a local sewerage system, with the right to cross the river, connect with the Boston sewer in Dorchester and contract for its use at an annual rental.

The petition of the town, as far as it affects a local system, was granted by Chapter 304 of the Acts of 1895; but by the transfer of the Boston sewer to the Neponset river valley system and the legislation in connection therewith, we must, instead of paying an annual rental, submit to bear such a

proportion of the cost of all that system as commissioners shall determine.

Bills were before the Legislature of 1895 —

3 (*a*). In the interest of the towns of Hyde Park and Dedham for a system of sewage disposal for the Neponset river valley so called, but in fact for the Neponset river valley, without the Quincy water-shed, only to where Motherbrook enters it and then for the valley of that brook.

This bill was opposed by the town, as by its provisions Milton can be called upon to pay a large portion of the cost of the trunk-sewer, not only below Mattapan but above there. It is hoped, however, that the modified form in which the bill finally passed may result in making the burden less onerous than it would otherwise have been. Chapter 406 of the Acts of 1895.

4 (*b*). For a Metropolitan water system to furnish a supply of water to Boston and all cities and towns in its vicinity.

By the provisions of this bill the town would have been forced to pay about fifty cents per thousand gallons of water at the present rate of consumption, as against ten cents now paid by the Milton Company for the water supplied by the Hyde Park Company. Milton through the energetic and timely action of our Representative, Mr. Grover of Canton, secured exclusion from the provisions of the bill by a vote of the House, but can at any time secure admission to the Metropolitan water district on no less favorable terms than this bill imposed. Chapter 488 of the Acts of 1895.

As an outgrowth of previous legislation —

5 (*a*). There were hearings held by the commissioners to apportion the amounts to be repaid to the State by each city and town in the Metropolitan Park district, for the first five of a term of forty years.

Milton's proportion towards annual expenses, and a sink-

ing fund and interest on $2,300,000, authorized for park purposes, was set at .01665028. Milton's proportion towards a sinking fund and interest on $500,000, authorized for boulevard purposes, was set at .02100782.

6 (*b*). The Metropolitan Park Commission had under consideration the taking of land and streets, under the so-called Boulevard act, by which a boulevard should be laid out from the river to Canton avenue near Pinetree brook.

The commissioners made a taking one hundred and twenty feet wide and in places wider, which included Blue Hill avenue from the river to Mattapan street, and all of Mattapan street. They asked the Selectmen to concur in this taking, which they agreed to do provided that by the deed of taking there should be reserved to the town the right to maintain sewers, water, gas, and other pipes, and wires in conduits where or near where streets now are, and provided that the rights of the public and abutters to do teaming over at least one roadway in the proposed boulevard, should be in no way abridged from what they are at present. As the commissioners found that they had no authority to make the taking and reserve any rights to the town, except such as they might from time to time grant by vote, the taking was allowed to lapse, with the understanding that the Commission would apply to the Legislature for authority to reserve rights to the town when making a taking. Mr. Moorfield Storey, who has represented the town in this matter, has been in frequent communication with the commissioners, but there have been changes in the Commission, and recent attempts of the Selectmen to ascertain its present attitude in this matter have been unsatisfactory.

The Legislature now in session will be called to act upon —

7 (*a*). The report of the Metropolitan District Commission.

This report advises combining the cities and towns of the Metropolitan district into a new county, the government of which shall have the present powers of county officers, shall assume the powers of the metropolitan sewer, water, and park commissions, together with such other duties as are general rather than local in their character, the matter to be subject to a double referendum, and to require for its adoption an affirmative vote, both of a majority of all voters voting in the proposed county, as well as of a majority of those voting in a majority of municipalities.

We opposed this bill. The legislative committee that considered it has reported that it be referred to the next General Court.

8 (*b*). The report that the State Board of Health will make in reference to the sanitary condition of the Great Fowl Meadows.

No report has as yet been made by the State Board of Health, but the town has represented at hearings before the board that Milton makes no complaint of the sanitary condition of these meadows, and asks that no expense shall be imposed upon her in this connection.

9 (*c*). A bill to legalize the election of three Sewer Commissioners voted for by the town on June 29.

Doubts have arisen as to whether the election of June 29 was lawful. A hearing has been given before the Committee on Judiciary, who have reported a bill, and it is probable that the Legislature will immediately legalize the election of the Sewer Commissioners, as the question is merely in regard to certain formalities in the call for the meeting.

All departments of the town have been competently managed, and for a detailed description of the work undertaken and accomplished in the Highway, Police, and Fire Departments, reference is made to the reports of superintendents and engineers, which will be found elsewhere.

March 20, Maurice Pierce, was reappointed Superintendent of Police; Walter T. Cook was reappointed Master of the Almshouse; the engineers were also reappointed.

April 4, Thomas H. Randall, formerly Street Commissioner of Portland, Maine, and at that time serving as Superintendent of Streets of Beverly, Mass., was appointed Superintendent of Streets. He assumed his duties a few days later, and has since had entire charge of the Highway Department, except for occasional suggestions from the Selectmen, and that the work on Granite avenue was conducted by him under the direction of George A. Kimball acting as consulting engineer.

A petition together with a plan and profile of Granite avenue was filed with the State Highway Commission asking that this road be assumed as a State highway, but no answer has been made.

On the petition of the Quincy and Boston Street Railway Company a location was granted this company in the reserved space on Willard street from the Quincy line to a point near Adams street, with the right to operate cars by the trolley system.

The work on various new town ways as well as the changes in old ones has been carried forward to the extent of the appropriations, and on Granite avenue, as was voted by the town, to an amount far in excess of the balance received from the committee on widening, though the construction work contemplated there has not been finished.

Betterments have been assessed upon the abutters on Oak street and Houston avenue, as was agreed should be done

when hearings were given in regard to laying out these streets, to the extent of one half of the estimated improvement to abutting estates. Betterments upon estates abutting Pleasant street, where it has been widened, are in process of being assessed. It must inevitably be the settled policy of the town to receive by betterments from estates abutting upon roads laid out or widened, mainly for the benefit of the owners of such estates and only secondarily for the benefit of the travelling public, not less than half the cost of building them.

Two damage cases have been settled. J. Henry Farrington was paid fifty dollars for injury to a horse from a defect in Randolph avenue. After an action had been brought against the town by Mrs. Flynn, for personal injuries received from walking into a hole in the sidewalk on Granite avenue where the tide had washed material away, she was settled with for seven hundred dollars. A suit that was pending against the town for land taken by Eliot street extension was settled before it came to trial.

The plank walk voted for Mattapan street was constructed in March. We again renew the recommendation that special appropriations for sidewalks be used to construct such as are permanent, rather than wooden ones which are a constant source of expense and danger.

Guideposts have been maintained in accordance with Chapter 53 of the Public Statutes, and as required by that Act the report is hereby submitted that they have been so maintained. Twenty bulletin boards for public notices have been placed in conspicuous places.

Quarterly tests of electric lights have been unsatisfactory, as they have shown the average candle power to be uniformly below what the company agrees to furnish, and while the discounts on payments that have been made in accordance with the vote of the town have been heavy, they have not

been an adequate compensation to the town for the constantly wretched and notoriously dangerous condition of the plant.* We recommend that the town take such action as shall obviate the present condition of affairs as regards the Electric Lighting Company.

In the early summer several permits were granted for bicycle road races. The results were not so satisfactory as to warrant us in granting others, and later applications for similar permits were refused.

The demands upon the town for poor aid have been in amount about the same as the previous year, but the general tendency in the Poor Department is towards a constant increase in the applications for aid. It seems worthy of the consideration of our citizens, whether it is desirable for the town to so vigorously exact the payment of poll taxes from aliens and others living in the town who are likely to ask for poor aid in future, when by the payment of three poll taxes and five years' residence they gain a settlement in our town. The condition of the almshouse is good. The inmates, now six in number, are the same persons as were there a year ago at this time.

In July a sale was made of $31,000 of the Play Ground bonds on a basis of 3½ per cent per annum, and recently negotiations have been closed for the sale of $52,000 of High School bonds of the years 1897 to 1904 on a basis of 3¾ per cent per annum.

We have voted to apply the premium from this sale to retire $500 of the authorized issue of 1905, and to invest the "Jason Reed Fund" for cemetery improvement in bonds of this issue.

---

* Since writing the above we have been notified of a change of management in the Electric Light and Power Company, and have been assured by the new general manager that the plant will immediately be put in good condition and the service improved.

An estimate of the effect of the votes of the town and the Legislature during the past year upon our tax rate in each year, after the Metropolitan sewer is constructed, for the next nine years, assuming the present valuation as a basis, is to increase it as follows: —

High School Bonds . .	.42	cents per $1000
Metropolitan Sewer . .	.40	" " "
Metropolitan Parks . .	.12	" " "
Play Ground Bonds . .	.25	" " "
Total estimated increase,	$1.19	per $1,000

ANNUAL REPORT OF THE SUPERINTENDENT OF STREETS.

Milton, Mass., Dec. 31, 1895.

To the Honorable Board of Selectmen:

Gentlemen, — I have the honor to submit a report of the Street Department for a part of the year eighteen hundred and ninety-five.

I assumed charge of the office on April 17, 1895, and one of the first duties that required attention was the cleaning of streets and gutters. Comparatively few people realize the importance of this branch of the work, and consequently only a limited number consider the expense; but dirt and filth collect very fast, and the health of the community, as well as the appearance of the streets, demands their removal at any cost. The village at Lower Mills has received particular attention every morning, and a small gang has been kept busy in various parts of the town during the entire season.

I found the stone crusher in operation on Godfrey's wharf, and after crushing some twelve hundred tons of stone in this place, the plant was removed to the town lot on Randolph avenue at quite an expense, the steam roller being used as a motive power. Here, the crusher was kept in almost constant use until late in the autumn, most of the stone crushed being purchased from the townspeople at a cost of fifty cents per ton delivered at crusher. The cost of crushing is thirty-five cents per ton, making a total of eighty-five cents for the stone when prepared for use.

My attention was next called to the unsafe condition of Metropolitan avenue, and as a result it was at once overhauled and shaped with the road machine, then given a coat of binding gravel and rolled with the steam roller.

Harland street was repaired for a distance of about one and one quarter miles from Canton avenue, almost its entire length. A very satisfactory result was here obtained by combining sharp running gravel with a peculiar binding material from the pit of Mr. Peter McIntyre and thoroughly wetting and rolling.

That portion of Brush Hill road from Green's lane to Milton street, noted as being very muddy during the wet season, was underdrained and provided with suitable catch-basins, then well rounded up with gravel from the cut on Blue Hill avenue, making one of the best pieces of street in town.

All of Canton avenue from Dollar lane to Pine Tree brook, that was in bad condition, was well cleaned and regraded with binding gravel, and is now in good shape for travel. This street from Highland street to Reedsdale road was repaired with gravel and crushed stone, and from this latter point to Vose's lane it was macadamized.

A single team and three men were kept busy in the Brush Hill district from spring until late in October, cleaning and repairing Robbins and Atherton streets, parts of Blue Hill avenue and Brush Hill roads, and did good service in keeping that portion of the town in condition.

Randolph avenue was macadamized from the foot of Tucker's hill for a distance of about one sixth of a mile towards the village.

Central avenue between Eliot street and the bridge was macadamized and a new crosswalk laid at the corner.

Eliot street from Bent's bakery to Milton Lower Mills was thoroughly underdrained, provided with catch-basins and macadamized.

Central Avenue bridge was replanked on the sides at a cost of $68.31.

Granite bridge was replanked and new aprons built, the whole expense being $130.50.

Mattapan bridge was wholly replanked and at the same time new sidewalks were built across the creek at a cost of $162.12.

Four watering carts were in constant use during the entire season and the fifth about one half of that time.

A large amount of constructing and repairing has been done on the sidewalks, and crushed stone dust was used whenever it was obtainable; yet the sidewalks are in such poor condition that residents can scarcely realize that any effort has been expended in this direction. All the brick sidewalk on the easterly side of Adams street at Milton Lower Mills, about 275 square yards, was relaid.

All catch-basins in town have been well cared for, some of them having been cleaned as many as seven or eight times. The sewer at Lower Mills has been flushed three times and the one at East Milton once.

An effort has been made during the recent snow storms to have the walks opened as soon as possible, so that those obliged to go out early could find comfortable walking. Some three hundred loads of sand are stored under a temporary shelter in Vose's pit for use on the sidewalks in slippery times.

There have been added to the department two horses, one sprinkling wagon, one American Champion road machine, one set single and one set double harness. One horse has been sold and an old one killed.

WORK CARRIED ON BY MEANS OF SPECIAL APPROPRIATIONS.

CAPEN STREET.

The amount appropriated was overdrawn, $49.70, owing to a great amount of ledge work, and still the street is not completed. I think an additional expenditure of $200 will finish the work to the satisfaction of those interested.

BROOK HILL ROAD.

Here again the appropriation was inadequate and an overdraft of $53.57 was necessary. The street, although not entirely completed, is very passable and will answer until some more building is done upon it. An underdrain 450 feet in length was laid, four catch-basins constructed, and the street graded with gravel from Mr. Safford's pit on Eliot street.

OAK STREET.

The sum of $1,600 was appropriated for this street and was found to fall a long way short, owing to a vast amount of ledge. The street is in a comparatively safe condition for travel; but there is still quite an amount of ledge to be removed and the whole street must be surfaced with gravel. I would recommend an appropriation of $1000 to fully complete the work.

HOUSTON AVENUE.

About $300 more is needed to finish this street, as a heavy fill was made which required some fifteen hundred to two thousand loads of material.

QUARRY STREET.

This street was macadamized and the work accomplished without exceeding the appropriation.

PLEASANT STREET.

The construction of this street has caused a great amount of comment and more or less unfavorable criticism; but nevertheless the result is, to me, quite satisfactory. The work was done in a thorough manner as far as completed, and the underdrain is one of the best, doing the work required and capable of doing more. A system of catch-basins

was connected with the drain and 3,178 square yards of macadam were constructed. A great portion of the work of getting ready for the balance of the macadam is done and one hundred and fifty tons of stone are already broken for the same. I am not prepared to state the amount, but quite an appropriation will be needed to complete this street.

GRANITE AVENUE.

The work on this street between Adams and Squantum streets was completed, with the exception of about four hundred linear feet. It was done under the direction of a civil engineer and his instructions carried out as nearly as possible. A radical change was made in the grade and a Telford-macadam roadbed constructed. The street was thoroughly underdrained and suitable catch-basins connected with the drain. The major part of the broken stone was crushed at the town plant and the wearing material purchased from the Massachusetts Broken Stone Company. I think an appropriation of $1,500 will be sufficient to fully complete the work.

The following table will serve to show some of the work accomplished: —

No. tons stone crushed	5,600
No. sq. yds. macadam constructed	19,579
No. ft. block-paved gutter laid (3 ft. wide)	1,421
No. ft. cobble-paved gutter laid (3 ft. wide)	365

The first and most important requisite for the management of the Street Department is the establishment of a suitable and permanent plant where all property belonging to the department can be properly housed, instead of being scattered as at present. The plant should contain an office for the Superintendent where he could be found at certain hours of the day. It should also include stables, sheds for all tools and machinery, and storage-room for lumber, sand, stone, and other materials.

I would, therefore, respectfully recommend that steps be taken towards the establishment of such a plant.

In conclusion, I wish to extend my sincere thanks to the several gentlemen of the Board of Selectmen, for the courteous manner in which they have always treated me, and also to all other officials and citizens of the town with whom I have been associated.

Respectfully submitted,

T. H. RANDALL,

Superintendent of Streets.

ENGINEER'S REPORT.

To the Honorable Board of Selectmen:

Gentlemen, — The Board of Engineers herewith presents its annual report on the condition and needs of the Fire Department.

There have been but few working fires during the past year, yet the number of fires reported is greater than ever before. They were mostly incipient fires, but many had the making of large fires had they not been discovered and extinguished while small.

The year's fire loss is the largest for four years, principally due to one fire.

The bell and striker voted at the last March meeting to be placed on the Mattapan schoolhouse has been purchased but has not been put in place. At the request of the School Committee we delayed action in order to ask the town to appropriate fifteen hundred dollars, in addition to that appropriated last year; this money to be used to put a new front on the schoolhouse, surmounted by a proper bell tower.

Houston avenue, having been cut through from Mattapan street to Thacher street, enabled the department to reach the upper part of the Mattapan District much more promptly.

The driveway from the Central Fire Station to Thacher street has not yet been built, the delay having been caused by the construction of the new High School building.

Once before during the year we called the attention of your Honorable Board to the condition of the wires of the Milton Electric Light Company. We desire again to say that considering the deadly strength of the electricity passing over these wires that their condition is most unsatisfactory,

and we consider them a constant menace to the lives and property of our citizens.

The Board of Engineers is not satisfied with the fire protection given the village, or the Blue Hill and Brush Hill sections.

Hose No. 3 and 4 covering these districts respectively are as efficient as could be expected under existing conditions, but leave much to be desired.

To secure first-class fire protection for these sections, two horse hose wagons with permanent horses and permanent drivers should replace the present cheap but inefficient methods. A hose house similar to the East Milton hose house should be built at the upper end of High Strect to cover the village district. To cover the Blue Hill and Brush Hill section, a similar building should be built near the West School-house. This means increased expense, so we do not recommend it now, but offer it as a suggestion for the consideration of the citizens.

A new department badge was adopted last spring. It has the town seal upon it and is very handsome.

The department rules have been changed so that now all officers of companies are appointed by the Board of Engineers instead of elected by the company's members as heretofore.

The conduct of the members of the department during the year has been excellent, and all things pertaining to the department are in good condition.

Eight times during the year the Boston department has been called into Milton, and three times the Milton department has been called into Boston. The arrangement of having Engine 19 cover the Mattapan District is most satisfactory.

The District State Fire Marshal has been called upon to investigate seven fires.

EXECUTIVE OFFICERS.

The executive officers of the department are a chief and two assistant engineers.

PERMANENT FORCE.

The permanent force is the same as last year, consisting of a superintendent of wires, who also has charge of the police signal system, one engineer of steamer and five drivers of apparatus.

CALL FORCE.

The call force consists of forty-four men assigned as follows: —

Engine and Hose 1	12
Hose 2	6
Hose 3	6
Hose 4	4
Ladder 1	12
Chemical 1	4

The pay of all call men was increased: —

Hose 1, Ladder 1, and Chemical 1 from $50 to $60.

Hose 2 from $35 to $40.

Hose 3 and 4 from $25 to $30.

APPARATUS AND EQUIPMENTS.

The apparatus in service consists of one steam fire engine, one ladder truck, one chemical engine, three hose wagons, two hose reels, one hose pung, one supply wagon, and a wagon and sleigh for the department wires.

Three horse hitches with the necessary additional harnesses and other equipments have been provided for the engine and the truck. These will be used in winter; and really three horses should be used on the engine all the year round.

New rims and tires have been put on to the wheels of the engine. Many new small equipments have been purchased and old equipments that were worn out have been replaced.

All equipments and apparatus are in first-class order.

There is one old hand engine, one hose reel, and one wagon for the department of wires not in use.

HORSES.

There are eleven horses owned by the department: nine in good condition, one in fair condition and one very old horse. One old horse has been exchanged for a new horse.

HOSE.

There are 5,500 feet of 2½-inch rubber-lined cotton hose. Of this 4,000 feet are in good order, 1,500 in fair to poor order. One thousand feet of new hose has been purchased. While we could have bought hose that cost less, we believe when quality is considered we bought the cheapest hose to be had.

BUILDINGS.

All buildings are in good repair. The second floor of hose house No. 2, in East Milton, has been finished off into a meeting room, three bedrooms, and a bathroom, lighted by electricity and heated by hot water; also, all the rooms have been furnished. This completes this building.

The doors at the Central Station, before the engine and the truck, have been widened to make room for the three-horse hitch to pass. All necessary small repairs have been made.

The coming year we propose to put a bathroom into the chemical engine house and make certain other alterations.

The stalls in the Central Station stable are in need of repairs.

FIRE-ALARM DEPARTMENT.

The fire-alarm system is in excellent order and has been so throughout the year.

A manual repeating box has been placed in the Central fire stations so that now any box number can be sent out from the Central Station as well as if sent from the street box.

This is especially useful in connection with telephone calls and in giving special signals.

There should be at least seven new fire-alarm boxes purchased the coming year to be located as follows: —

North end of Granite avenue near railroad crossing.

Corner Edge Hill road and Otis street.

Corner Edge Hill road and Pleasant street.

Corner Eliot street and Oak road.

Corner Eliot street and Capen street.

Blue Hill terrace.

Milton street near Paul's bridge.

These new boxes are greatly needed as it is a considerable distance from any of the localities above mentioned to the nearest box. We also recommend that fire alarm boxes be placed in the East, North, and Mattapan school-houses.

There have been nineteen bell alarms and thirty-eight still alarms.

The system at present consists of forty-four miles of overhead wire divided in four circuits, a four-circuit repeater, thirty-five signal boxes, one manual repeating box, three tower bell strikers, one steam whistle, one 18-inch, two 8-inch, and nineteen 6-inch gongs, with a battery power of 181 jars.

For the maintenance and current expense of the department for the ensuing year the Board of Engineers recommend an appropriation of $15,000.

Respectfully submitted,

GEORGE F. CHOATE,
ELLERTON P. WHITNEY,
HORACE N. PLUMMER,
Board of Engineers.

PATROLMEN.

James Wigley.	George C. Partelow.
John Leary.	George B. Bradlee.
Edward M. Corner.	Fred. M. Farrington.
Thomas H. Welch.	Henry A. Paterson.

Henry C. Shields.

Officer Harned resigned Jan. 26, and the vacancy was filled by the appointment of Henry C. Shields.

Robert Langan died March 25, 1895. He was an efficient officer, popular with the public, loved and respected by the members of the department.

POLICE SIGNAL SYSTEM.

This system (the Gamewell) is a very important factor in our police department, and it is giving perfect satisfaction. I would recommend ten additional signal boxes to be placed in different sections of the town.

I would also recommend the appointment of a day officer for duty at police station. The property of the department is all in good condition.

DISCIPLINE, CONDUCT OF THE FORCE, ETC.

It has been my policy to conduct the affairs of the department with fairness and impartiality, both in the enforcement of the law and in maintaining good discipline. A police

force, by the very nature of its work and organization, must be subject to a strict code of discipline.

The ideal policeman is noted for his universal good conduct and behavior at all times, both on and off duty, with a quiet dignity of manner, with his eyes and ears always open, and he never talks while on duty, unless he has something to say.

The discipline of the department as a whole has been good, and as a rule each member has shown a disposition to comply with all rules and regulations.

In deportment, neatness, and efficiency, the police force of this town will compare favorably with any force in the State.

In conclusion, I desire to thank the Selectmen for courtesies received and for substantial support throughout the year. I wish to thank the members of this department for their co-operation in efforts to preserve the peace and good order of the town, and all others who have in any way assisted me in the discharge of my official duties.

Respectfully submitted,

MAURICE PIERCE,
Superintendent of Police.

REPORT OF TRUSTEES OF MILTON CEMETERY.

In submitting to the Town their annual report the trustees have but a short story.

The whole working force of the Cemetery has been engaged during the year, almost exclusively, in keeping in proper condition our extensive grounds.

Improvement of the rear entrance to the Cemetery on Gun Hill Street has been considered and decided upon. Work on the same will commence in the spring.

The expediency of opening to use the southeasterly portion of our grounds has often been discussed by the trustees, with the unanimous conclusion that the public need does not require it at present. The magnificent trees and the wildness of nature plead against it.

The low lands in the vicinity of the sheds are being filled up, in anticipation of the relocating of the buildings.

Two old family tombs have been removed, their sites filled and graded, and good family lots have taken their places.

Seven monuments and sixteen tablets have been placed on family lots the past season.

Eleven new lots have been taken up and ten old lots have been put in order; making a total of four hundred and fifty-seven lots located in the new part of the Cemetery.

The work of protecting the trees from the ravages of the canker-worm has been continued through the spring and fall.

The trustees respectfully ask for the usual appropriation of two thousand dollars for the ensuing year.

Respectfully submitted,

A. K. TEELE,
for the Trustees.

MILTON, Dec. 31, 1895.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The chief item of interest during the past year is the use that has been made of the privileges accorded to the public schools of the town, and described in the report of a year ago. Under this new system, according to the librarian's record, 1,717 books have gone into the schools, the smallest number taken by one school being 46, the largest 441. The secretary of the Board of Trustees has been at some pains to inquire of the teachers their opinion of the usefulness of this system, and in every case he has been assured of the great profit derived from it. It was feared that where so many books were sent to the schools, individual readers might find it difficult to obtain the books they wanted, but the Librarian reports that practically there has been but little difficulty in this respect.

The library is much cramped for room and this fact accounts, in part, for the small number of books purchased this year, 172 in all. The trustees, however, are making investigations looking toward an enlargement or rearrangement, of the book room.

The total number of books taken from the library was 13,378, an increase of 1,367 books over the previous year. Of this total number, 9,212 books were taken by card from the main library, 1,717 were sent to the schools, 2,449 to East Milton. This is an encouraging showing; the only falling off being in the number of books taken by card from the main library. This number is 438 less than last year. But this falling off is more apparent than real because many persons who previously came to the main library for their books now get them through the schools.

There is a little or nothing to report in regard to the East Milton Branch. The room continues to be all that can be desired. There have been fewer periodicals taken out than last year, but on the other hand they have gone into more families, 100 cards are in use instead of 88, as last year.

The By-Laws have been carefully revised by a committee of the trustees and printed. Copies may be had on application to the Librarian.

For the trustees.

RODERICK STEBBINS,
Secretary.

MILTON, Jan. 17, 1896.

REPORT OF THE PARK COMMISSIONERS.

To the Citizens of the Town of Milton:

Soon after the last annual town meeting, we received a petition from the School Committee, signed by upwards of three hundred citizens, asking us to consider the question of providing playgrounds for the children of our tax-payers.

After conferring with quite a number of the signers of this document, we became of the opinion that the movement was so general and well considered that we were justified, as your public officers, in taking the subject under serious consideration, and in using our best judgment to find not less than two suitable locations that would each comprise from five to ten acres, and at such cost as would not commit the town to an excessive expenditure, either in the original purchase or in the subsequent outlay necessary to grade and otherwise prepare the land for athletic purposes.

Early in last May, we obtained a sixty-day option for the purchase of a lot of land in East Milton, containing 9 $\frac{559}{1000}$ acres, situated on Adams street, east of the old schoolhouse lot and running through to Squantum street, at a cost of $1,500 per acre, and at a special town meeting held the 29th of June (made necessary in part by the approaching expiration of the above-mentioned option, though other important matters were considered as well), about ninety per cent of the one hundred citizens present voted in favor of providing the means required to make this purchase.

There is a high ridge of gravel upon this property, which, after properly providing for the grading necessary to prepare the land for its ultimate purpose, will leave from fifty to

sixty thousand cubic yards for the use of the Highway Department, the value of which to the town is considered to be from $7,500 to $9,000.

As the field in which the young men of this section of the town have been in the habit of playing ball and other sports is now being cut up into house lots, we feel justified in asking at the approaching annual meeting for an appropriation of $5,250 to grade and otherwise improve a portion of the East Milton playground in a suitable manner for a ball field.

This grading, if undertaken, will be done in such a manner as not to materially alter the value of the gravel left for the future uses of the town, as mentioned above, and will enable the people of that section to obtain an early use of a portion of the field for the purpose for which the purchase was made.

Having located one playground at East Milton, we felt it to be our duty to find, if possible, a second of about the same area, so situated as to provide, as well as may be, for that rapidly growing part of the town that lies between Central avenue and Mattapan.

In the portion of the town from Lower Mills to Central avenue, we considered the land too irregular and costly to be available; and land somewhat nearer Central avenue too low to be easily drained, and also too limited in area.

It was finally decided to take by right of eminent domain, under Chapter 225 of the Acts of 1893, a tract of 8 $\frac{154}{1000}$ acres, situated on the southwesterly side of Brook road, shortly after passing Pine Tree brook.

The High School foot-ball team played several games on this field last fall, and it is our present intention to postpone any expense of filling and grading upon this lot until the East Milton tract is ready for use, our desire being to keep one field at least in fair condition.

We are much indebted to the Highway Department for the

use of the town roller and one or two men in smoothing a portion of the Brook road lot so it could be used.

We take great pleasure in asking our fellow-citizens to accept a valuable gift from Mr. Amor L. Hollingsworth, who on the 1st of January, 1896, gave us a deed in the name of the town of Milton, of $5\frac{85}{100}$ acres of land, for the purposes of a park and playground, situated on the right hand side of Brush Hill road, as you pass from Blue Hill avenue to Brush Hill.

The land extends from the estate of Mrs. George Hollingsworth some 1,355 feet to a point about opposite the junction of Brook road with Brush Hill road, and the farther side is bounded by the irregular line of the Neponset river, in such a manner that the lot is nearly 300 feet wide in its broadest part.

In advising the town to accept this gift, we feel that we cannot speak too highly of its value to a portion of our people who live in this section of the community, and we recommend an appropriation of a few hundred dollars, in order that it may be put in proper condition for public use.

All of which is respectfully submitted.

J. HENRY BROOKS,
HORATIO J. GILBERT,
NATHANIEL T. KIDDER,
Board of Park Commissioners of the Town of Milton.

MILTON, Jan. 16, 1896.

For the Financial Statement of the Park Department, see page 106.

REPORT OF THE SEWER COMMISSIONERS.

The Sewer Commissioners make this their first report, to explain to the citizens of the town the status of the sewerage question.

The last State Legislature passed two acts relating to Milton sewers and sewerage.

First, Chapter 304 of the Acts of 1895 gave Milton the right to build sewers within her own territory, to take land, water course, etc., also the right to elect sewer commissioners at a special town meeting, providing the town by a two-thirds vote of the voters present should first have accepted the Act 304.

This the town did at a special town meeting held June 29, 1895. At the same meeting sewer commissioners were also elected.

The warrant for this special town meeting did not state what time the polls for the election of sewer commissioners would open or what time they would close, and on this technical point many of our citizens felt that the election of the sewer commissioners was illegal, while others were equally sure that the election was properly held.

The Board elected was in a quandary how to act, but finally decided it was best to organize and assume that the election was legally held. This we did; but that there might be no room in the future for questioning the legality of the election held June 29, we have asked the Legislature of 1896 to make legal everything connected with that election by a special Act. We have been given a hearing by the Judiciary Committee, who said they would do as we re-

quested, and by this time a bill to this effect has probably been passed.

The second Act relating to Milton, enacted by the Legislature of 1895, is Chapter 406 of Acts of 1895. This provides for a Metropolitan Sewer for the Neponset River valley.

The cost of this sewer bill will be something tremendous as compared with the population it is intended to accommodate; and the payments that the town of Milton must make towards paying for its share will be many thousand dollars a year, an amount wholly out of proportion to the benefits received.

The Metropolitan Sewer is now built from Granite avenue to Central avenue, and the coming summer will be extended to Hyde Park.

The present sewer in the village, emptying into the river at Godfrey's Wharf, should be carried across the river and emptied into the Metropolitan Sewer.

Eliot, Maple, School, Russell and other streets in what we call the Central avenue sewerage district are in need of sewers and should be the first attended to.

Their needs are due more to the character of the soil of this section, a hard clay that will not absorb water, than to the density of the population. East Milton and Mattapan, having a gravelly soil, will probably not require sewers for a long time.

ELLERTON P. WHITNEY, *Chairman*,
THEODORE T. WHITNEY, *Clerk*,
J. ALBERT SIMPSON,
Commissioners.

FUNDS HELD BY THE TOWN.

PERPETUAL CARE FUND.

Amount held Dec. 31, 1895 . . . . . $12,625 00

This fund is held by the Town Treasurer, in accordance with Chap. 82, Sects. 15-17, of the Public Statutes, interest at the rate of six per cent per annum being allowed on it and paid over to the Trustees of the cemetery.

JASON REED CEMETERY FUND.

Amount held Dec. 31, 1895 . . . . . $2,626 67

JASON REED PUBLIC PARK FUND.

Amount held Dec. 31, 1895 . . . . . $2,626 67

Both the Jason Reed funds are held by the town, subject to the terms of Miss Elizabeth T. L. Reed's will, the portion appertaining to them being printed below.

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said Town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement, or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said Town, and of my own profound desire for the welfare of said Town and of the citizens thereof."

60th
ANNUAL TOWN REPORT

OF

MILTON

MASS.

FOR THE YEAR ENDING

DECEMBER 31, 1896.

COMPILED BY

THE AUDITORS.

BOSTON:
ALFRED MUDGE & SON, PRINTERS,
1897.

STATEMENT OF THE AUDITORS.

To the Citizens of Milton:

In accordance with the Public Statutes and the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which monies have been paid from the Treasury for the year ending Dec. 31, 1896, and have found the same correct.

Appropriations made at the Annual Town Meeting are for the year from March 1 to March 1; thus the money voted at our last annual meeting in March, 1896, is for the use of the town until March 1, 1897.

If any balances from the various appropriations should remain on hand March 1, 1897, they will be transferred on that date to the general funds of the town, and duly considered as such by the assessors when making up the taxes for 1897. This does not apply to special appropriations which remain in force until the objects for which they were made are accomplished.

We hope that with the above explanation our financial statements will be clear, and we shall feel obliged if any errors in the report are called to our attention.

Respectfully submitted,

W. NEWTON HARLOW,
J. S. RUSSELL,
Auditors.

MILTON, MASS., Dec. 31, 1896.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, JULY 7, 1896.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P. M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall within two weeks after their appointment meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise

and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, or unless ordered by two thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of March.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths, to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, of for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shal be stated in the selectmen's annual report.

XIV. No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish, or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine to run at large in the town, or to feed in any highway or street, either with or without a keeper, and whoever shall drive any such animal upon and over any sidewalk,

or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams street, between Churchill's lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled, or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march, or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix, by paste or otherwise, any handbill, placard notice or advertisement, or paint, draw, or stamp the same, or any marks or figures to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree or structure in the town, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged into any highway, street, or running stream in the town, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which

shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws: —

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustee for the time being shall deem offensive or improper; and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery: —

1. All persons are prohibited from driving upon the borders.
2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the cemetery, except in case of military funerals.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.
6. Dogs are not allowed within the cemetery grounds.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

Voted, That the above report be accepted.

REPORT OF COMMITTEE ON WATER SUPPLY, APPOINTED JUNE 29, 1895.

To the Citizens of the Town of Milton :

From the discussion at the Town Meeting, at which we were appointed, we infer that the citizens desire a report especially as to the act passed by the last Legislature, providing for a metropolitan water supply, and its bearings on the question of a supply for the town of Milton. The act provides for an apparently very plentiful and good supply of water for the city of Boston and twelve other cities and towns, to be known as the Metropolitan Water District, and further provides that any other town within ten miles of the State House shall be admitted on such payment of money as the Metropolitan Water Board may determine. The Board may also sell water to any town or water company on such payment of money as they may determine.

There are, therefore, three ways by which Milton may obtain water from this source, viz.: —

First. By joining the Metropolitan Water District.

Second. By the purchase of water by the town from the Metropolitan Water District.

Third. By such purchase of water by the Milton Water Company.

And in each case the amount to be paid is left by the act to be settled by agreement between the Metropolitan Water Board and the town or Water Company. We have consulted with the Metropolitan Water Board and find that estimates were originally made of the cost to the cities and towns of the district, and also to various other towns which were at first contemplated as members of the district, but on the final passage of the bill were not included, among these latter the town of Milton, which is set down in the estimate at about twelve thousand dollars per annum, after the first few years, which are on a lower basis. We made no formal application to the Board, and they made no definite proposition, but we gather from them that they would admit Milton on this basis, and would probably not at the present time accept any proposition more favorable to the town. On the basis of selling water to the town or to the Water Company the Board did not seem inclined to negotiate at present, and as it will undoubtedly be four or five years before they can furnish Milton with water, ordinary business conservatism would naturally lead them to wait until they have an available supply and know about what it will cost before entering into a contract for its sale.

The problem therefore resolves itself into the question, "Is it wise for the town of Milton to become a partner in the Metropolitan Water District at the present time on the estimate that the annual assessment will be about twelve thousand dollars a year for forty years, and a proportionate part of cost of maintenance thereafter?" Our opinion is that it is not, for the following reasons: The basis of assessment is such that we estimate the water will cost Milton from forty to sixty per cent more per thousand gallons than the cost to the other towns with which we go into partnership, and we also estimate it will cost Milton much more than the ordinary market price for water as established by contracts between towns, water companies, and large consumers under similar condition.

Under these circumstances we think there is strong likelihood that we shall within five years be able to make better terms for joining the Metropolitan Water District. But if we cannot, the intent of the act is evident that the Metropolitan Water Board shall sell water to towns or water companies at a fair price, and the Board will undoubtedly so construe it. Whether if water is to be purchased it would better be by the town or by the water company is a question that we feel should be left to the future.

We have considered the question of an independent supply, and believe the town can secure a sufficient quantity of suitable water on better terms than those offered by the Metropolitan Water District; but as the latter would undoubtedly be more sure and generally more satisfactery, we advise taking no steps in this direction until after the completion of the Metropolitan Works, even at the possible risk of having to pay them an excessive price for water for a few years.

As the Water Board have full power to act, and as the Legislature would presumably be largely influenced by their advice, we would not recommend an attempt to secure special legislation, certainly for some years and until the matter has more fully developed.

The purchase of the Milton Water Company by the town has been considered by us in its various aspects, and we conclude that while it is likely that the water question will be ultimately solved in a manner which may make it desirable that the town should own the pipes, we are inclined to believe the conservative course is not to purchase them at present, as it seems to us to be putting the cart before the horse, to buy twenty-one miles of water pipes before we know where we are to get a permanent supply of water to put into them.

The laying of the pipes has apparently been well done at a cost as low or lower than if the town had done the work, and we believe any extensions will be carefully considered and constructed.

The receipts of the company are increasing, thereby reducing the annual loss to the town by delay. The management of the company is in the hands of sound, conservative business men, citizens of the town, and we believe, aside from the chance that the question may be so solved as to make it undesirable that the town should own the pipes, the active assistance of these men in securing a good and economical supply of water will be worth all it costs.

NOVEMBER MEETING.

GENERAL ELECTION, NOVEMBER 3, 1896.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in elections, to meet at the Town Hall in Milton, on Tuesday, the third day of November next, at seven o'clock in the forenoon, then and there to bring in their ballots for fifteen Electors of President and Vice-President, Member of Congress from Tenth Congressional District, Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver-General, Auditor, Attorney-General of this Commonwealth, Councillor for Second District; also a County Commissioner, one Special Commissioner to fill vacancy, Clerk of Courts, all for the County of Norfolk, Senator for First Norfolk District, Representative to General Court for the Fourth Norfolk Representative District.

Articles of Amendment to the Constitution:

FIRST ARTICLE OF AMENDMENT.

The Governor and Lieutenant-Governor and Councillors shall hold their respective offices for two years next following the first Wednesday in the January succeeding their election, and until others are chosen and qualified in their stead.

The first election to which this article shall apply shall be that held on the Tuesday next after the first Monday in November in the year eighteen hundred and ninety-eight; and thereafter elections for the choice of all the officers

before mentioned shall be held biennially on the Tuesday next after the first Monday in November.

All the provisions of the Constitution inconsistent with the provisions herein contained are hereby annulled.

The Secretary, Treasurer and Receiver-General, Auditor and Attorney-General shall hold their respective offices for two years, beginning with the third Wednesday in the January succeeding their election, and until others are chosen and qualified in their stead.

A person shall be eligible as Treasurer and Receiver-General for three successive terms and no more.

Fourth Norfolk Representative District.

We the undersigned Town Clerks of the towns of Canton and Milton, comprising Representative District Number Four, in the County of Norfolk, hereby certify : —

That at an election duly held in said towns on the third day of November, A. D. 1896, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit : —

For Edward L. Pierce, of Milton, ten hundred and twenty-one votes.

For George R. R. Rivers, of Milton, six hundred and fifty votes.

Blanks, one hundred and ninety-eight.

Given under our hands at Canton, this thirteenth day of November, A. D. 1896.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

ANNUAL REPORT OF THE SELECTMEN.

The Selectmen, in presenting the 60th annual report, wish to congratulate the citizens of the town upon its remarkable prosperity. They also realize that growth and welfare in the future depends in great measure upon the wisdom of the present. Milton has been noted in the past for its conservatism, but also for its liberality in legitimate expenditure. We think that the town stands second to none in the efficiency of its schools, and its fire and police departments, and the excellence of its roads. It is exceedingly liberal, although not extravagantly so, in the care of those of its citizens who are unable to care for themselves. We would recommend that the same liberal policy be pursued in the future.

HIGHWAYS.

Mr. T. H. Randall was reappointed Superintendent, and has attended to his duties in a manner satisfactory to us, and we trust to the citizens. Two things are essential to good road building: 1, underdraining; 2, good gutters. To these ends much attention has been given to building catch-basins, and drains leading from them, and also to paving the gutters. With due attention to these matters a serviceable road can be built. In judging our roads two things must be borne in mind: 1, our nearness to the boulevards, which are built at great expense, and on which no heavy teaming is allowed; 2, the great number of teams, heavily loaded with stone and having narrow tires, which pass over our roads, a traffic not exceeded by that of any town in the State.

SIDEWALKS.

The plank sidewalk ordered by the town on Thacher street, from Brook road to Central avenue, was built in May by the Merrill Bros., they being the lowest bidders. It was built in a manner perfectly satisfactory to the Selectmen. We would again renew the recommendation of last year, that permanent rather than plank sidewalks be built, believing such a course to be true economy.

BLUE HILL PARKWAY.

The Selectmen voted, April 24, 1896, to consent to the taking of Mattapan street, parts of Blue Hill avenue and Canton avenue, and Harland street for the Blue Hill Parkway, the Metropolitan Park Commissioners having granted to the town all the rights demanded by the Selectmen. After the taking it became the duty of the Metropolitan Park Commissioners to keep these streets and avenues in repair. We made a contract with the Commissioners to water the highways taken, for $350 for the season. This amount was satisfactory and has been paid.

GUIDE BOARDS.

In accordance with Chapter 53 of Public Statutes, guide posts have been placed where, in the opinion of the Selectmen, they ought to be erected, and the report is herewith submitted to the town.

CLAIMS.

Two claims for land damages on Oak street have been settled; others are now in court. One claim for damages to horse, harness, and carriage, owned and driven by W. N. Sanford, of Brockton, and injured through an alleged defect in the highway on Blue Hill avenue, has been settled by the payment of $168.15.

GRANITE AVENUE.

That Granite avenue, from Squantum street to Granite avenue bridge, is in a deplorable condition no one who passes over it will deny. Early in the season of 1895 we petitioned the State Highway Commission to accept Granite avenue as a State road. The proper plans were made and filed in due form; we had frequent interviews with the Commissioners, with some encouragement, until July of the present year, when they practically denied our petition. Although the road is but little used by our own citizens, still it must be kept in repair by our town. We would recommend a special appropriation for the repair of this avenue. Reedsdale and Brook roads are not sufficiently well built to stand the heavy travel passing over them, and we would recommend a special appropriation for rebuilding these roads. For additional information we refer to the report of the Superintendent of Highways.

STREET LIGHTING.

A new contract was made in June between the town and the Milton Light and Power Company, which we think is advantageous both to the town and to the company. Since the signing of this contract we feel that the company has put forth every effort to live up to and fulfil its contract, and we think that both plant and lights have been much better than in any previous year. Fewer lights have been reported out, and such have been more speedily repaired after being reported. We would recommend that the present contract be extended through another year.

POLICE.

The Selectmen feel that the Police Department is run very efficiently. Situated as we are, with the cities of Boston and Quincy and the town of Hyde Park in close juxtaposition, we must of necessity maintain a considerable police force; and we point with satisfaction to the absence of burglaries during the past year. The liquor law has been en-

forced, and we are quite sure that liquors are not sold in the town nor brought in, except under the statutory law which allows it to be brought in by common carriers.

FIRE DEPARTMENT.

The Selectmen regard our Fire Department as the equal, in every respect, of any fire department outside of Boston; and we congratulate the engineers and members on the efficiency of the department, and extend to them our thanks for their deep interest and painstaking endeavor.

SUPPORT OF THE POOR.

Sept. 14, Mr. and Mrs. Cook resigned as superintendent and matron of the almshouse, their resignations to take effect in thirty days. Oct. 15, Mr. and Mrs. Elias C. Conant were appointed, coming to us highly recommended. Thus far they have fulfilled the expectations. The house is very neat in every part; the inmates are well cared for. The superintendent is maturing plans by which he hopes to carry on the farm more successfully the coming year than has been the case for the past two seasons. We invite all our towns-people to visit the house and farm. There are ten inmates. One has died and four have been admitted during the past year.

We are having many applications for help from outside poor. We examine carefully every case, and have granted help as our judgment has dictated, paying rent, giving coal and wood and orders for groceries and provisions, thus aiding those who are trying to help themselves.

TOWN HALL.

The Selectmen made a contract with the Harwood Chair Company for the re-seating of the Town Hall. By this contract 512 seats were to be delivered in the Town Hall, at $1.60 per chair. This contract was fulfilled to the satisfaction of the Selectmen and we trust to that of the town.

ELECTIONS.

At a joint convention of the School Committee and the Board of Selectmen, held Monday, May 4, at eight o'clock, P. M., Walter C. Shapleigh was elected a member of the School Committee, to fill the unexpired term of Walter P. Beck, deceased.

The town having failed to elect but one fence viewer at the March meeting, a joint convention of the Board of Selectmen and fence viewer was held on Friday evening, July 24, at eight o'clock, P. M., at which convention George Y. Badger was elected to serve until the Town Meeting of March, 1897.

NEPONSET VALLEY SEWER.

The Neponset Valley Sewer is in process of construction from Central avenue to Dedham. The passage of the bill in the Legislature of 1895, authorizing the construction of this sewer, was opposed by the Selectmen, with the assistance of Horace E. Ware, Esq., and Ex-Attorney-General Pillsbury. The town was also represented before the Commission by able counsel, when the assessments were made. Milton has been assessed 45.07 per cent of the entire cost of the sewer. When we take into consideration the fact that this trunk sewer runs the entire length of the town of Hyde Park, thus saving to that town the cost of local sewers for that distancet and that the assessment of Hyde Park is but 18.13 per cen, of the cost of the sewer, we can but regard the assessment of Milton disproportionate and unjust. A petition has been presented to the General Court asking for instructions to the Metropolitan Sewer Commission to construct arms from the sewer across the river at Mattapan, Central avenue, Lower Mills and Granite bridge, to admit of entering the sewer at those points.

METROPOLITAN WATER SUPPLY.

When the subject of a metropolitan water supply was before the General Court of 1895, the town of Milton was

left out of the Metropolitan Water District, at the request of the Board of Selectmen, who reserved the privilege of admission when the town should so vote. The Selectmen then ceased opposition to the bill. Between that time and that of its final passage, Section 23 of the act was amended without notice to the Town, the clause which read, "no city or town within the said water district," being made to read, "no city or town, any part of which is within ten miles of the State House, shall use water for domestic purposes, etc." (see Chapter 488, Section 23, Acts of 1895), thus forcing the town into the Metropolitan Water District. A petition for the amending of this section has been presented to the Legislature of this year.

INSURANCE.

The value of our public buildings is so great that the matter of insurance has become one of importance. The premiums for the present year amount to nearly $1,700. Is not the town able to assume its own risks? We would suggest that the sum of $1,000 be appropriated this year, as a fund to draw from in case of loss, and that the policies be allowed to lapse as they expire. Since our most valuable buildings are so close to our fire engine station, and the others are so scattered, we are of opinion that to follow this suggestion would be a measure of economy.

ELECTRIC RAILROADS.

The Board realizes the necessity of connecting the extremes of the town with its centre. A petition was received from the Quincy and Boston Electric Railway Company asking for a location through Milton; but there were several obstacles in the way of granting it. Among these was the difficulty of crossing at grade the tracks of the New York, New Haven & Hartford Railroad at East Milton; and we do not possess the right to grant a location on the Blue Hill Parkway at Mattapan. We understand, under the special act (Chapter 121, Acts of 1895), a "reserved space" to mean a space set

apart for the exclusive use of the railway, curbed or enclosed to prevent teams driving thereon. Our streets are not wide enough to allow such a reserved space in the centre, and to place it at one side of the street would be an injury to the abuttors on that side.

It is the opinion of the Board that the better way to introduce electric roads into the town is to put the reserved space in centre of the street, with a sufficient road-bed on each side for teams, a sidewalk on one side of each road-bed. We believe this plan would be the more satisfactory and for the best interest of the entire town. The time to do this is when the location is granted, there being no statute to compel the electric railways to bear any part of the expense, although legislation to that end is doubtless in the near future. We have not felt it our duty to expend the funds necessary to make the surveys for the reserved space, without giving all the citizens of the town a chance to express themselves on this point.

BETTERMENTS.

The Selectmen think that a low betterment tax should be assessed upon the abuttors on all new streets built and all old streets widened. The Act of 1896 allows the betterment to be paid in yearly payments, not exceeding ten. We would suggest that the Town should accept, at its next annual meeting, Chapter 158, Acts of 1896, relating to betterments.

In closing, the Board desires to express its thanks to the citizens of the Town for their forbearance and, in the language of the motto upon our seal, to say: "God has given us these pleasant things."

All of which is respectfully submitted,

J. ALBERT SIMPSON,
GEO. W. NICKERSON,
ARTHUR H. TUCKER,
Selectmen of Milton.

REPORT OF THE ASSESSORS.

The Assessors of the town of Milton submit their report for the year 1896.

The Board organized with the choice of E. D. Wadsworth, chairman, and J. Walter Bradlee, clerk.

The Assessors recommend the continuance of the appropriation of $425 for clerk hire and renewing land plans; also an appropriation to build a vault in the Committee room at the Town Hall for the use of the Assessors, there being no suitable room in the present vault for their plans, and the room available for their books and papers being inadequate.

The Board, as required by the statute, had printed and posted legal notices requesting taxpayers to bring in true lists of their polls, real and personal estates.

There has been a small loss in personal property but a gain in real estate; there was also a gain in polls.

In addition to the State, county, and town tax for 1897, the town will be required to raise for the sinking fund, interest, and expense of maintenance of the Neponset Valley Sewer, $12,608.94.

As the Assessors are required by law to levy the taxes and to provide the money to meet the annual expenses of the town, it may not be considered improper if they remind the citizens that increased appropriations require increased tax rates, and that it is too late to find fault with the taxes after the appropriations are made.

REPORT OF THE PARK COMMISSIONERS.

MILTON, Dec. 31, 1896.

To the Citizens of the Town of Milton:

At the last annual meeting of the town sufficient money was appropriated, together with the unexpended balance remaining from the original appropriation for the purchase of the East Milton playground, to enable the Board to grade a portion of the land for a ball field. The figures appear in the financial statement on another page.

Last April we advertised for bids, and awarded the contract to John Walker, of Newmarket, N. H.

The work was begun about the first of June, and should have been finished early in September, but the unusually dry August delayed the seeding of the ground until early in October, when the weather became too wet and cold to produce the best results.

Some grading was also done on the Adams street side of the lot, and this portion will require finishing off in the spring.

No work has been done on the Brook road playground during the year, nor on the land on Brush Hill road that was given to the town by Mr. and Mrs. Amor L. Hollingsworth. After conferring with the donors of this property, we have named the premises "Waterside Common," and as the land was given for a public park as well as a playground, we understand that the slight expense which is contemplated in cutting out some few trees and bushes and generally clearing up can be charged to the Reed fund.

It is our intention to ask for an appropriation of twenty-five dollars ($25) for incidental expenses.

REPORT OF THE SEWER COMMISSIONERS.

During the past year the large Neponset Valley Metropolitan Sewer has been built from Central avenue to some point in Dedham, and will be finished the coming year.

The gentlemen appointed by the Supreme Judicial Court to apportion the cost of interest, sinking fund, maintenance, and operation of the Neponset Valley Sewer, after giving many hearings, have made their report as follows: —

Commonwealth of Massachusetts.

SUPREME JUDICIAL COURT.

SUFFOLK, ss. IN EQUITY, No. 5056.

HOSEA KINGMAN AND OTHERS, METROPOLITAN SEWERAGE COMMISSIONERS, PETITIONERS.

In Re THE NEPONSET RIVER SEWERAGE SYSTEM. STAT. 1895, CHAP. 406.

REPORT AND AWARD.

These are petitions for the appointment of apportionment commissioners under the several special laws of this Commonwealth known as the Metropolitan Sewerage Acts.

. . . . . .

APPORTIONMENT FOR THE NEPONSET RIVER SYSTEM.

This system, though physically related to the Charles River system so far as to have a similar outlet of discharge through the improved sewerage system of the city of Boston, stands alone as regards the provision made for its construction, maintenance, and operation.

It is sufficient to say that the apportionment for *interest and sinking fund requirements* has been made on the basis of *valuation*, and that

for *cost of maintenance and operation* on the basis of *population*, in accordance with the same general rules and methods as have been applied to the other systems.

We DETERMINE AND AWARD that the several cities and towns in the Neponset River system shall annually pay money into the treasury of the Commonwealth, for the term of five years, 1896 to 1900, both inclusive, to meet the interest and sinking fund requirements for each of said years, as estimated by said Treasurer, of the loan authorized and issued for the construction of said system, and also to meet the cost of the operation and maintenance of said system for each of said years, as estimated by the Board of Metropolitan Sewerage Commissioners and certified to said Treasurer, and any deficiency in the amount previously paid in, as found by said Treasurer, in the proportions set down in the following table: —

TABLE *showing the Proportions in which the several Cities and Towns in the Neponset River System shall pay money to meet Interest and Sinking Fund Requirements, and to meet cost of Maintenance and Operation, respectively, under Stat.* 1895, *Chap.* 406.

City or Town.	Proportions to Meet	
	Interest and Sinking Fund Requirements.	Cost of Maintenance and Operation.
Boston[1]	23.28 per cent.	28.14 per cent.
Dedham	13.52 per cent.	19.85 per cent.
Hyde Park	18.13 per cent.	35.51 per cent.
Milton	45.07 per cent.	16.50 per cent.
Totals	100.00 per cent.	100.00 per cent.

. . . . . .

2. *Neponset River System.* — Authority is given in the act establishing this system, Stat. 1895, Chap. 406, for the taking by purchase or otherwise of that portion of the Dorchester intercepting sewer which lies between its Central avenue terminus and Granite bridge. We are advised by the Board of Metropolitan Sewerage Commissioners that it has been decided to exercise this power at once, or as soon as a more adequate provision shall have been made for the entire cost of this system. We have framed the apportionment on the assumption that this course will be pursued. If for any unforeseen cause the

[1] Portions of West Roxbury and Dorchester districts.

plan should fail to be carried out, a revision of the apportionment for this system also would be necessary.

EDMUND H. BENNETT,
JOHN E. SANFORD,
EVERETT C. BUMPUS,
Apportionment Commissioners.

BOSTON, Oct. 16, 1896.

As is seen, Milton is called upon to pay 45.07 per cent for interest and sinking fund requirements, and 16.50 per cent for maintenance and operation.

It is proper to state that Milton was represented before the Apportionment Commissioners by counsel, who argued ably that the cost of this sewer should be assessed in accordance with the use made of it by the different cities and towns it sewered; but the Commissioners, backed by precedent and the wish of a large majority of the cities and towns in the Metropolitan Sewerage District, made their award as above.

This means that the town of Milton must pay towards the support of this Neponset Valley Sewer between $16,000 and $18,000 annually.

Last year, when the question of building sewers in a portion of what is known as the Central Avenue Sewerage District was under consideration, the citizens by whose property the sewers were to pass objected strenuously to the work being done under the conditions prescribed by this Board, not because they did not want the sewers, but because they did not want to pay their share of the cost.

Our Board, knowing the large sum the town was to be obliged to pay for the Metropolitan Sewer, and having investigated the methods of sewer assessments of other cities and towns, decided that it was right that abutters on streets sewered should pay 75 per cent of the average cost of the sewer, or 37½ per cent to each side of the street, and that the balance of 25 per cent should be paid for by the town.

As will be remembered, the question of sewer building was indefinitely postponed, but as the question of assessments is sure to come up again we desire to say that this is a matter that lies wholly with this Board, and that we have seen no reason for changing our minds as to the conclusions arrived at on this subject last spring. We believe that the majority of our citizens, now knowing how much they must annually be taxed to pay the Metropolitan Sewer charges, will agree with us that abutters should pay 75 per cent of the cost of all local sewers. Abutters, when they consider that having paid this sewer assessment they are provided with a means of disposing of their sewerage forever, without extra cost to themselves, must agree that the proposed assessment is equitable.

We recommend an appropriation of $1,500 to extend the present sewer in the village, now emptying into the river at Godfrey's Wharf, under the railroad, and into the Metropolitan Sewer.

A letter has been received from the Metropolitan Park Commissioners stating that they propose building a portion of the Mattapan street boulevard this coming summer from the river to Brook road, and asking that the necessary sewers should be built at the same time, so that there shall be no necessity of hereafter tearing up the street.

We think this is a proper request and recommend an appropriation of $10,000 for this purpose.

THEODORE T. WHITNEY, *Clerk.*

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

In submitting their annual report the trustees of the public library have very little to say.

By a rearrangement of the books in the library room, more space has been obtained, and the number of books purchased, 302, is therefore larger than for several years past.

The general circulation of the library increases but little. The Librarian reports that fifty more books have been sent to East Milton than during the year previous. On the other hand, the total circulation of books is less than a year ago.

This latter fact is a matter of regret, and more means should be found for acquainting the town with the valuable library at its disposal and for encouraging a more generous use of it.

By the will of Miss Elizabeth R. Swift the library has received a very handsome writing desk, once the property of Gov. Hutchinson, and also a portrait of Miss Swift's father, painted by our late townsman, Thomas Hinckley.

The trustees regret that the library at present has no suitable place for such bequests, but they hope that some time there may be a library building which can be used as a repository for the historic and valuable gifts which the generosity of the towns-people may from time to time bequeath.

The East Milton branch keeps on the even tenor of its way, proving its usefulness to the citizens in that part of the town.

Secretary.

REPORT OF TRUSTEES OF MILTON CEMETERY.

The trustees of Milton Cemetery herewith submit their annual report.

The improvement of the rear entrance of the Cemetery on Gun Hill street, referred to in the report of 1896, has been completed. The entrance, which was narrow and abrupt and too contracted for so important a passageway, has been made more easy and graceful by changing the wall from a convex to a concave circular form, and by setting wider apart new and large abutting granite posts to conform with the improved plan. The entrance now opens upon a wide avenue, with ample room for passing and repassing. Twelve new lots have been taken up during the year. Six old lots have been renovated and improved. One family tomb has been levelled and filled to grade. Twenty-two tablets and four monuments have been erected.

As usual, most of the time and labor of the workmen have been directed to the general care of avenues, paths, and lots, which increase, with every passing year.

The continual call for lots on the liberal terms offered by the town to her citizens awakens no little solicitude regarding the means of supply for our rapidly increasing population. Within a very few years our grounds would be fully occupied should every family entitled to a lot call for the same.

The trustees take this opportunity of announcing to the town that the tract of land abutting the Cemetery on the north and east, containing twenty-two and thirty-nine one hundredths (22.39) acres, with double house and greenhouses, belonging to the estate of the late Col. O. W. Peabody, can be purchased for cemetery purposes for the sum

of fifteen thousand and eight hundred dollars ($15,800), the same being the valuation placed upon it by the Milton assessors.

The trustees recommend the purchase of the same, and have caused an article to be inserted in the Town Warrant for the March meeting, to see if the Town will secure said tract of land for cemetery purposes.

By the death of Col. O. W. Peabody, who has been for twenty-six years connected with Milton Cemetery, the trustees have lost a most useful, practical, wise, judicious and interested coadjutor in this important sphere of duty. His interest in the Cemetery was unabated to the end. His practical suggestions were always useful and sensible. His intelligent, common-sense judgment of men and things was of great value. The remembrance of his life cannot fail to awaken in the hearts of all citizens a high estimate of the worth of our beloved and honored friend.

The trustees respectfully ask for the usual appropriation of two thousand dollars for the ensuing year.

A. K. TEELE,
for the Trustees

ANNUAL REPORT OF THE SUPERINTENDENT OF STREETS.

MILTON, MASS., Dec. 31, 1896.

To the Honorable Board of Selectmen:

GENTLEMEN, — In accordance with the usual custom I submit the following report of the Street Department.

The following table will serve to show some of the work accomplished: —

Number tons stone crushed			6,060
" square yards macadam constructed			16,608
" linear feet paved gutter laid (3 ft. wide)			4,553
" linear feet underdrain laid (12 in.)	645		
" " " " " (10 in.)	2,228		
" " " " " (8 in.)	1,549		
" " " " " (6 in.)	466		
" " " " " (4 in.)	126		
" " " " relaid	732		
		——	5,746
" " " guard fence built			806

" stone " " "			34
" manholes built			1
" culverts lifted and relaid			6
" crosswalks laid			2
" trees removed			10

STREET CLEANING.

This branch of the work has been carefully looked after, and although I am unable to state its exact cost, it has prob-

ably been about twenty-five hundred dollars, this sum to include the expense of cleaning catch-basins.

STREET WATERING.

Five watering carts were used constantly throughout the season, the total expense therefor, including cash paid the Milton Water Company, being $2,688.17. I wish to call attention to the fact that this sum is deducted from the general street appropriation and materially lessens the amount at hand for actual road construction. I would respectfully recommend that a special appropriation be made for this work.

BRIDGES.

Granite bridge was entirely replanked, some new stringers put in, and new sidewalks constructed. Central avenue bridge was resheathed.

FENCES.

Eight hundred and six feet of new fence have been constructed, and repairs made on the old ones in the following locations: Eliot street from Lower Mills to Central avenue; Brook Hill road; School street; Randolph avenue at Poplar Hollow; Granite avenue and Central avenue.

BLUE HILL CUT.

Work was begun on the so-called Blue Hill Cut near Dollar lane in the summer of 1894. This cut was carried through this season so as to leave it in safe condition, and the material used as follows: Regrading on Blue Hill avenue near Mr. E. P. Whitney's house, Canton avenue from Dollar lane toward Canton line for a distance of about one half mile (this I consider a first-class gravel road), Blue Hill avenue toward Canton line, Bradlee road, Atherton street, Brush Hill road at Hayward's Hill, Green street, and different sections of Canton avenue.

PLEASANT STREET.

The department found it impossible to complete Pleasant street, owing to the many demands for expenditures in other directions, and the heavy expense incurred in preparing for the macadam. There were, however, between five and six thousand square yards of macadam built, suitable underdrain laid and catch-basins constructed, and I should say that when the balance of my last year's estimate of $10,000 has been expended the street will be completed.

CARE OF SURFACE WATER.

One of the most important features in the construction and maintenance of streets is caring for the surface water. The department has been called on after every rainstorm heretofore to make extensive repairs on account of washouts. With a view to obviating this difficulty, underdrains have been laid, catch-basins constructed, and gutters paved in those localities which have proved most troublesome in the past.

SIDEWALKS.

New sidewalks have been constructed as follows: On Centre street, near Canton avenue, Central avenue, Eliot street, Thacher street, and Pleasant street. The walk on Adams street from Hutchinson street to Centre street was surfaced with stone dust and rolled with a horse roller.

TREES.

The trees in town are in an uncared-for condition and although it does not properly belong to the Street Department to care for them, we do expend quite a sum of money in this way every year. I would recommend that a Town Forester be appointed, to have entire charge of planting, trimming, and removing trees.

ADDITIONS TO THE DEPARTMENT.

There have been added to the department two horses, one sprinkling wagon, one "Concord" wagon, one tip-cart, one pung, one tip-cart harness, one robe, two "Wheeler" snow ploughs, and one "Knowles" steam pump. One old horse was killed and one turned over to the Poor Department.

WORK CARRIED ON BY MEANS OF SPECIAL APPROPRIATIONS.

ADAMS STREET SIDEWALK.

Appropriation		$1,000 00
Paid payroll	$525 13	
W. W. Churchill, survey	3 60	
Chas. Wilson, crosswalk and edgestones	158 75	
F. A. Merriam & Co., bricks	160 25	
Osgood & Hart, castings	21 00	
Granite Railway Co., corner stones	29 75	
J. D. Chute, building fence	12 85	
Maguire & O'Heron, stone-cutting	33 00	
Michael Gibbons, sods and loam,	23 32	
J. E. Swan, hand-rail	11 53	
Unexpended balance	20 82	
		$1,000 00

The completion of this job made it necessary to raise the grade of Wharf street, and the cost of this is included in the expense, as shown by the above account. I think this sidewalk an improvement to the village as well as a great accommodation to the public.

THACHER STREET SIDEWALK.

Appropriation		$900 00
Paid payroll	$310 39	
Paid Merrill Bros., as per contract	399 00	
Paid Merrill Bros., extra labor	3 00	
Unexpended balance	187 61	
		$900 00

The clearing away of bushes, levelling and grading, and all work necessary before laying the plank walk, was done by the Street Department; while the contract for building the walk was awarded to Merrill Bros., under the direction of the Selectmen.

ENGINE STREET.

Balance of appropriation		$275 00
Paid payroll	$272 59	
Unexpended balance	2 41	
		$275 00

The construction of this street was pushed forward rapidly that it might be completed before the dedication of the new High School building.

RECOMMENDATIONS.

I wish to renew my recommendation that steps be taken toward the establishment of a suitable plant for the Street Department.

I would also recommend that $2,000 be appropriated for the construction of an elevator and storage bins at the crusher.

The locations which in my judgment most need attention during the coming year are: Canton avenue, from the Safford estate to Vose's lane, and from Col. Russell's entrance to Mattapan street, Reedsdale road, Brook road, Brush Hill

road near Smith road, Randolph avenue from Hillside street to the town line, Granite avenue, portions of Blue Hill avenue, and the remainder of Pleasant street.

I desire to thank the Selectmen for the courteous treatment which they have shown me during the past year, and also all other citizens who have given me hearty support and co-operation.

Respectfully submitted,

T. H. RANDALL,
Superintendent of Streets.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

Gentlemen, — The Board of Engineers herewith presents its annual report.

The department has had a very quiet but satisfactory year. There have been the usual number of alarms of fire, but fortunately the fire loss for the year has been small.

The conduct of the members of the department has been most satisfactory. All alarms have been well attended by the call men, and their promptness in answering the calls is most commendable.

A bell tower has been built in Mattapan, and the bell and striker, previously purchased, placed upon it. It was a much needed improvement, and gives general satisfaction.

We find that the floor timbers of the stable of the Central Fire Station are in very bad order. Their rapid decay is due to poor ventilation of the manure pit directly under the stable. We think they will answer for another year; but we should then advise complete repairs and building a manure pit wholly outside the building, as is now the universal custom in new fire department houses. It has many advantages, but the greatest one is the benefit to health of both the men and horses obliged to occupy the building.

The excellent bell on the Town Hall, shut in as it is, has never been of much value, but since the building of the new High School it is of less value than ever. This new building wholly cuts off what few muffled sounds used to reach the ears of firemen living near the engine house, men we especially depended upon to go to fires on the apparatus.

We recommend a special appropriation of $800, to remove

this bell from its present location and place it in an open belfry to be built on to the tower of the Central Fire Station.

It seems to us that our fellow citizens do not appreciate what has been done by the town to protect their property from fire, by placing fire-alarm boxes in their near vicinity. Many do not know where their nearest alarm box is; a still larger number do not know where the keys to the box are, or how to give an alarm, though it is all so simple that it is hard to understand how it is possible to make a mistake; yet mistakes and delays in giving alarms occur every year. There was a case this last year where a man sent to give an alarm simply opened the box door and did nothing more, thinking that opening the door gave the alarm. Fortunately, the aid of the department was not needed; but had it been, this man's mistake would have cost many thousands of dollars.

We think it the duty of every citizen not only to be able to give an alarm promptly himself, but he should instruct every member of his family as well. The fireman depends on the citizen to promptly give him the alarm when there is a fire, and when the citizen fails to do his share, as has too often been the case, then the whole combination is spoiled, property is destroyed, money spent to maintain the Fire Department wasted, and the efforts of the firemen are useless.

The mutual exchange of services between our department and Boston is most satisfactory.

We have responded to seven Boston alarms, and Boston to ten Milton alarms.

One call from Hyde Park was responded to.

The District State Fire Marshal has investigated three fires.

EXECUTIVE OFFICERS.

The executive officers are unchanged, consisting of a chief and two district chiefs.

PERMANENT FORCE.

The permanent force has been increased by one man, as we found that the amount annually paid for extra labor about equalled the pay of a permanent man. Now there is no charge for extra labor. This extra man enables us to give all permanent men two days off a month. The force consists of superintendent of wires, engineer of steamer, five regular drivers and one extra driver.

CALL FORCE.

The call force consists of forty-one men, three less than a year ago, assigned as follows: —

Engine and Hose 1	11
Hose 2	6
Hose 3	6
Hose 4	4
Ladder 1	10
Chemical 1	4

Two men were slightly injured while doing fire duty.

The pay of all men was increased.

Hose 1, Ladder 1, and Chemical 1 from $60 to $75.

Hose 2 from $40 to $45.

Hose 3 and 4 from $30 to $35.

APPARATUS AND EQUIPMENTS.

There has been but trifling change in the apparatus. A three-horse hitch with necessary harness has been purchased for the chemical engine for winter use, and the exercise wagon has been arranged to use either with a two or three horse hitch.

All apparatus and equipments are in good order.

HORSES.

The three-horse hitch on the steamer has been made permanent by the purchase of a new horse, enabling this piece of apparatus to make good time on long runs and up steep hills, thereby greatly increasing its efficiency.

One disabled horse has been replaced.

There are now twelve horses, all in good condition, owned by the department.

HOSE.

There are 5,500 feet of $2\frac{1}{2}$-inch rubber-lined cotton hose, 4,000 feet in good order, 1,000 feet in fair order, 500 feet in poor order; 500 feet new hose is needed.

BUILDINGS.

With the exception of the Central Station stable, previously spoken of, all buildings are in good repair.

A bathroom, new stalls, and other improvements have been made in the chemical engine house.

A part of the meeting room of the Central Station has been partitioned off as an office for the engineers.

FIRE ALARM.

Ten new fire-alarm boxes have been added during the year, located as follows: —

Box 13, Blue Hill terrace.
Box 18, Eliot street and Capen street.
Box 151, Mattapan street school-house (special).
Box 341, Pleasant street and Edge Hill road.
Box 48, Eliot street and Oak road.
Box 412, North school-house (special).
Box 57, Milton street, near Chas. S. Rackemann's.
Box 65, Edge Hill road and Otis street.
Box 6, East Milton school-house (special).
Box 73, Granite avenue, near railroad crossing.

The location of Box 54 has been changed to Canton avenue, near Dollar lane, on Hose 4 house.

A new storage battery has been added, with all the necessary equipment of switchboards, motors, meters, protectors, etc. It has been in use about six months and gives perfect satisfaction. It is clean, very economical, and requires little attention.

There have been thirty bell alarms and thirty-four still alarms.

The system has been in perfect order throughout the year.

It now consists of fifty miles of over-head wire divided into four circuits, a four-circuit repeater, forty-one street signal boxes and four special signal boxes, one manual repeating box, four tower bell strikers, one steam whistle, one 18-inch, two 8-inch and nineteen 6-inch gongs, with a double storage battery of 200 jars.

We know of no town with a fire-alarm service superior to Milton's.

For the maintenance and current expenses of the department for the ensuing year the Board of Engineers recommend an appropriation of $15,000.

Respectfully submitted,

GEO. F. CHOATE,
ELLERTON P. WHITNEY,
HORACE N. PLUMMER,

SUPERINTENDENT'S REPORT.

MILTON, Dec. 31, 1896.

To the Honorable Board of Selectmen:

GENTLEMEN, — I have the honor to submit for your consideration the annual report of the police department for the year ending Dec. 31, 1896.

ORGANIZATION.

Superintendent, — Maurice Pierce.
Deputy Supt. — Timothy McDermott.
Keeper of Lock-up, — Edwin A. Houghton.

PATROLMEN.

James Wigley.	George C. Partelow.
John Leary.	George B. Bradlee.
Edward M. Corner.	Fred M. Farrington.
Henry A. Paterson.	Thomas H. Welch.
Henry C. Shields.	Lucius E. Damon.

Driver of Patrol Wagon, — John H. Tucker.

CHANGES.

April 1, two appointments were made to the department: Lucius E. Damon as patrolman; John H. Tucker, driver of patrol wagon.

PROPERTY OF THE DEPARTMENT.

Two horses, two harnesses, one patrol-wagon, one democrat wagon, two pungs, two robes and blankets, all in first-class order. The stable that they are kept in is not a fit place for them. It was only a temporary affair when first built, and it will not be long before we will have to build a new stable.

POLICE SIGNAL SYSTEM.

The advantages of this arm of the department is fully recognized both by the police and citizens. The system is in charge of Electrician Choate, who has kept it in good working order, being always ready and willing to respond to our call at any time.

STATION HOUSE.

The station house is in good condition. I would recommend that one of the cells be made over into a padded cell, as we have found in some cases it was much needed.

MORALS OF THE TOWN AND THE FORCE.

I can say, as I have in the past, that the town is comparatively free from crime.

The discipline of the department as a whole has been good. If at times I may have had cause to speak quite forcibly to some members in order to maintain this condition of affairs, I have done it for the good of the department and members referred to.

CONCLUSION.

In closing this report I desire to express my gratitude to the Selectmen for their manifested interest in the welfare of this department. While desiring that its management should be conducted with economy, they evinced a disposition that nothing should be left undone to increase its usefulness, believing that a police department properly conducted and well-equipped is of the greatest benefit to a community. I also desire to express my thanks to the members of the department under my charge, and all others connected with the administration of the town. Respectfully submitted,

MAURICE PIERCE,
Superintendent of Police.

Both the Jason Reed funds are held by the town, subject to the terms of Miss Elizabeth T. L. Reed's will, the portion appertaining to them being printed below.

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said Town as a fund to be known as the 'Jason Reed Fund', and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement, or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said Town, and of my own profound desire for the welfare of said Town and of the citizens thereof."
